PURGE MEETS INGLORIOUS END IN 4 PRIMARIES

Willkie Called Dead as Isolationism.

BY CHESLY MANLY.

[Chicago Tribune Press Service.]

Washington, D. C., Aug. 12.—The campaign of the Roosevelt administration, the Willkieites, and the Communists to smear and purge prewar noninterventionist members of congress came to an inglorious end in yesterday's primaries.

This conclusion was unanimous in congress today. Republican and Democratic leaders, after studying the primary returns from New York, Ohio, Nebraska, and Idaho, agreed that the issue of prewar "isolationism" is as dead as the political influence of Wendell L. Willkie, the 1940 Republican nominee for President.

Both Willkie and the Roosevelt administration suffered their most ignominious defeat in the renomination of Rep. Hamilton Fish [R., N. Y.], by a 3 to 1 vote over three rival candidates in President Roosevelt's home district, New York's 26th.

Willkie Continues Fight.

Willkie's statement that the fight for the "elimination" of Rep. Fish must go on "for the sake of both the country and of the Republican party" was taken as indication that he will support the Democratic nominee, Ferdinand A. Hoyt, a close friend of President Roosevelt. Some Republican leaders commented that this would be a break for Fish, while others intimated that Willkie soon will be called upon to state frankly whether he wants a Republican or a Democratic congress elected.

Sen. Robert A. Taft of Ohio, a leading contender for the Republican Presidential nomination in 1940, asserted that the primary results "show the people's conviction that men who opposed our entrance into the war are just as qualified or more so to represent them than those who are trying to smear them."

"It looks as if this artificial issue is dead," he added.

Taft Candidate Wins.

Sen. Taft's prewar noninterventionist record was the major issue in the Republican primary in the first Ohio congressional district. Rep. Charles H. Elston, who represents this Cincinnati district, was assailed by Victor Heintz, his Republican opponent, as a "Taft isolationist." Elston defeated Heintz by a 4 to 1 vote and polled more votes than Heintz and the two candidates in the Democratic primary combined.

In the second Ohio district, also in Cincinnati, Rep. William E. Hess, another Republican, was unopposed, but he received more votes than the combined total of the four Democratic candidates, who campaigned largely against Hess' "isolationism."

Other Ohio Republicans who overcame opposition on the prewar isolation issue, their margins running as high as 4 to 5 to 1, were Representatives John M. Vorys, Cliff Clevenger, Thomas A. Jenkins, and J. Harry McGregor.

Sweeney Lone Ohio Victim.

Rep. Martin L. Sweeney of Cleveland, a prewar noninterventionist, was defeated by Michael A. Feighan, a former Ohio legislator, on the isolation issue. Sweeney's defeat was accomplished by the opposition of the Democratic organization and of all the newspapers of Cleveland. Moreover, Feighan was believed to have received a considerable sympathy vote

[Continued on page 11, column 5.]

MEN OF ACTION.

On the back page of today's issue appears a poster form enlargement of one of Carey Orr's recent and most popular color cartoons, "Men of Action." It is dedicated to the United States coast guard, fourth arm of Uncle Sam's fighting forces, which is conducting an intensive drive for recruits.

In all issues of tomorrow's Tribune will be presented a full page color map of Asia, Europe, and contiguous land and sea areas, showing the locations of four war fronts—in Russia, Libya, and Egypt, the southwest Pacific, and the Aleutian Islands.

MR. FISH'S VICTORY

(An Editorial.)

Representative Hamilton Fish Jr. won his renomination to congress by a majority larger than his most enthusiastic partisans had dared to expect. The purgers threw everything they had into the campaign to defeat him, but when the votes were counted he had won by a landslide. The smear had failed again. Indeed, the returns from the five states in which primaries were held on Tuesday showed that not one of the Republicans who had been proscribed for opposing intervention before Pearl Harbor had been defeated. They all were victorious, and with them all but two of the Democrats who were attacked as prewar isolationists.

Mr. Fish's victory was the most notable of the series only because he had been the victim of a particularly savage campaign of abuse. There were several reasons for that. One was that he represents Mr. Roosevelt's home district. Another was that he had been outspoken in his opposition to interventionist policies and he had no apologies to make for the course he had pursued.

Mr. Fish had faith in his constituents. He knew that the vast majority of them had been with him in seeking to avert war. They had told him so when he had sent them a postcard ballot. The smear brigade charged that his attitude in congress reflected Mr. Fish's admiration for fascism and for Hitler, but the voters recognized that the accusation was no more true of him than it was of them.

The outcome of the primary was a deserved rebuke to a vindictive and unscrupulous administration, determined to punish any one who had dared to show some independence of mind before Pearl Harbor. The voters showed that they do not want representatives who take orders slavishly. The purge and the smear failed in Mr. Fish's district and elsewhere for the reason that the people of this country do not resent the records of their isolationist congressmen. The resentment is reserved for those who seek thru vilification to obtain the election of a subservient congress.

The smear brigade made the capital mistake of discounting the horse sense of the voters. It was assumed that the voters would never suspect that the great interest being shown by outsiders in the outcome of these primaries sprang from anything but the purest of motives. When the test came, the people showed that they suspected the existence of a carefully organized conspiracy emanating from New York, a conspiracy in which all Communists and some multi-millionaires appear to be allied. They are strange associates, but they could get together in plotting to defeat congressmen who put their own country first.

The scheme failed as all such schemes will fail. Mr. Fish won. So did his two Republican and three Democratic colleagues in New York who were on the smear list. So did Representatives Elston and Vorys in Ohio, and Sen. Thomas in Idaho. They won because the people want a congress which will represent them and their wishes. The results from the various states show that the people of this country are determined to preserve the republic and the representative system which is the heart of it.

INKY PALL HIDES CITY AS SIRENS WAIL WARNING

Air, Ground Reports to Be Studied.

Blackout Pictures

A full page of pictures taken during Chicago's black-out last night will be found on page 8. Special infra-red ray equipment was used to take photos in the total darkness. Another picture on page 6.

For half an hour last night the people of Chicagoland looked at themselves by starlight. They stepped from their normal course of life and played their parts in a drama of simulated warfare. They gave their help in a test black-out to determine how well or how illy prepared the greatest industrial section of the United States is to frustrate the attacks of enemy bombers.

As 10 o'clock came and the warning siren had sounded the citizens at home, in their automobiles, at their jobs in factories put out their lights. A vast, deep blackness ensued in areas where there was no authorized illumination.

Mayor Kelly, coördinator of civilian defense, and army and navy officers described the black-out as an outstanding success made possible by the work of the hundreds of thousands of volunteers.

Splendid, Says Mayor.

"It was splendid," said the mayor. "Almost 100 per cent for those in Chicago not exempted as an aid to war production. The next time we'll have everybody participate and make it a real 100 per cent."

Echoing the sentiment were Lieut. F. W. Cook and Lieut. Comm. G. E. Howell of the 9th naval district; Col. Charles Roth Jr., chief of staff of the army's 6th service command, and Capt. E. A. Lofquist, chief of staff of the naval district.

Otto K. Jelinek, city traffic engineer and director of techniques for the OCD organization, was only a little more restrained in his praise.

"The results were better than we had hoped," he said. "I estimate, from the reports that have reached me, that 95 per cent of perfect would be about right. The work in residential districts was better than that. Householders did an excellent job."

See Some Weaknesses.

All the experts agreed that the test had shown certain weaknesses in the setup for air bomb defense and that correlated reports from observers in the air and on the ground would make possible the necessary corrections.

All over the city, the suburban area and a widespreading territory in the middle west, embracing a population of 12,000,000, the people showed their willingness to do their part toward making the black-out a success.

Now, Fans, It's Private Gable of U. S. Army

(Picture on page 5.)

Los Angeles, Cal., Aug. 12 (AP).—Clark Gable put aside the fame of Hollywood today to enlist in the army as a buck private. His induction took place high in the federal building, with half a floor roped off and guarded to insure privacy.

Gable listened intently as Col. Malcolm P. Andruss read the army oath. The screen star's hand was shaking noticeably as he raised it to say "I do" in a half faltering voice. Twice he pulled out a white handkerchief to mop a perspiring brow.

Hopes to Be a Gunner.

"I hope you will serve with honor to yourself and your country," Col. Andruss said when it was over. "I welcome you into the United States army."

"Thank you, sir," Gable replied, with a wide smile and a handshake.

The screen star, 41 years old, whose wife, Carole Lombard, was killed in an airplane accident several months ago as she concluded a bond selling tour, was to leave tonight for Miami, Fla., and three months' basic training, after which he hopes to enroll in an officers' candidate school.

Yesterday he made application to be an aerial gunner.

Not Too Big, Says Officer.

Maj. James F. Brower, recruiting branch executive officer, scotched a suggestion that Gable, 6 feet plus and weighing more than 170 pounds, is too big for a gunner.

"He's not too large for the rear of a bomber," the officer said. "It takes a big man to handle one of those guns."

Gable was inducted alone, but immediately afterward Col. Andruss read the oath to the star's cameraman and close friend, Andrew J. McIntyre. They hope to see service together.

U. S. Plane Reaches Britain 22 Hours After Being Made

[Chicago Tribune Press Service.]

LONDON, Aug. 12.—The speed with which American planes are being delivered from United States to Britain was indicated in a report published here tonight that a Liberator bomber landed in this country only 22 hours after leaving the assembly line of a Pacific coast factory. The bomber was flown to a Canadian base, where it was refueled before making the crossing.

British Grow Crops in Soil Not Tilled for 2,000 Years

LONDON, Aug. 12.—Lord Woolton, food minister, inspecting agricultural land reclaimed for wartime food production, today came upon oats, wheat, and potatoes prospering in soil that had not been cultivated for almost 2,000 years. He was told the land had not been cultivated since the days the Romans moved thru the district.

SHIPYARD DISCHARGES, AT REQUEST OF NAVY, 6 ACCUSED OF LOAFING

San Francisco, Cal., Aug. 12 (AP).—Acceding to a navy request, the Moore Drydock and Shipbuilding company has discharged half a dozen workers as chronic loafers or for not putting in a conscientious effort at their war work, a company spokesman disclosed.

Charles C. Adams, personnel director, said the action was taken after naval authorities had prescribed a "work or fight" policy. Names of the men were turned into their draft boards for possible reclassification.

STRAFE JAPS ON 3 ISLES BY LAND, SEA AND AIR

MacArthur's Planes Spot Ships and Air Bases.

BY E. R. NODERER.

[Chicago Tribune Press Service.]

SOMEWHERE IN AUSTRALIA, Aug. 12—[Passed by military censor]. —Long distance allied patrols from bases under Gen. Douglas MacArthur's command have revealed that the Japs' three biggest bases in the Solomon Islands are Buka in the northwest corner of the islands, Kieta on Bougainville Island, and Lunga on Guadalcanal, across the 20 mile bay from Tulagi. Lunga is said to be the strongest of the three. There is a seaplane base at Tulagi.

Lunga, which guards the front door to the Solomons, was first occupied by the Japs on July 6. On July 13 the crew of a reconnaissance plane, commanded by Capt. Fred Eaton of Scarsdale, N. Y., spotted three destroyers, three transports, and a number of mosquito boats in the harbor. The mosquito boats immediately began dashing about the harbor in zigzag courses in fear of a bombing attack, Eaton said.

At Tulagi and Lunga, Eaton's plane first encountered light anti-aircraft fire a month ago. The number of boats plying back and forth across the bay indicates considerable activity, according to Lieut. Edward Yerrington of Burlingame, Cal., navigator of Eaton's four motored reconnaissance plane.

Sights Four Cruisers.

The Japs also have been using Ysabel Island. As long ago as a month Eaton came thru a cloud bank at 7,000 feet and spotted four heavy cruisers and a four engined seaplane. From one cruiser a float plane was catapulted, but the reconnaissance mission eluded it.

Tulagi and Lunga, Japanese strong points in the southeastern end of the Solomons, are the primary objectives in the offensive now going on under the command of Vice Adm. Robert Ghormley.

Eaton said that on one flight over Gizo Island, halfway between Guadalcanal and Buka, a signal light three times flashed "A," "D," "A." It was concluded that this was a ruse by the Japanese to draw them lower or hold them over their anti-aircraft battery. Gizo was formerly an Australian seaplane base.

Japanese engineers, working at high speed, completed an airdrome at Lunga about 10 days ago, Eaton explained. On a recent flight seven Zero fighters were encountered, where previously reconnaissance missions had been completed without interception by land based Zeros. This had the effect of forcing observation planes to operate at a higher altitude.

Destroyers are Seen.

On July 25 four cruisers were sighted at Buka, but it was not known whether these were the same ones that were lying in the harbor at Ysabel Island a fortnight before. On the same date two destroyers were sighted at Kieta harbor, but little else was observed there at that time.

Two small islands in Tulagi harbor—Gavuta and Tanamobogo, which are connected with Tulagi by a concrete causeway, are reported to "look more civilized" than any other area in the Solomons. Eaton's plane encountered more anti-aircraft there than anywhere else, and also sighted a large number of mosquito and torpedo craft.

Zeros Mounted on Floats.

Allied reconnaissance planes, scouting the Solomon Islands, have encountered a new type of enemy aircraft—a Zero mounted on a single float.

This ace Japanese fighter plane, which is estimated to have lost only about 50 miles per hour thru the use of the float instead of landing wheels, is far superior to the outdated biplane float job which was heretofore used by the enemy.

The Zero float planes are concealed in remote palm shaded bays on the numerous Solomon Islands where the enemy has not found it feasible to construct air fields. Several were shot down by allied reconnaissance planes.

American troops, fighting their way into the Solomons, will have to battle dense jungle vegetation and many strange reptiles, insects, and diseases as well as the Japanese.

The climate is generally unfavorable for whites because of the humidity, heat, and prevalence of malaria.

Navy Tells of 'Bitter Fighting' as U. S. Tightens Hold.

Washington, D. C., Aug. 12 (AP).—Hard hitting United States marines successfully effected landings on three of the Solomon Islands in the vicinity of Tulagi, the navy announced tonight, and are consolidating their positions in the face of fierce enemy resistance.

[Today's communique from Gen. Douglas MacArthur was silent on the battle in the Solomons, now in its seventh day, but what information was available in Australia caused observers to believe the United States marines, with air and sea backing, were making progress.]

The strength of the resistance was indicated in a navy statement that sea forces supporting the landings have been engaged in "bitter fighting," a fact suggesting that the Japanese had rallied powerful air and surface units to the defense of their beleaguered troops.

Those troops apparently were already in a strong defensive position. The navy said there was substantial evidence that the Japs "had well under way" the development of a base in the Tulagi area, presumably at Tulagi harbor, which is a fine natural naval base.

Six Days of Battle.

The navy's report on the campaign in the Solomons was given in a communique which made no claim of decisive success as yet, and clearly left open the possibility that many days of hard fighting are ahead before the avowed American purpose of driving the Japs out of the vital Tulagi area can be attained.

Explaining that details of the naval battle are "not yet available," the navy said the marine landing parties also were receiving the support of United States army and Australian warplanes which "are continuing attacks on enemy landing fields and shore based aircraft."

This was linked here with reports from Australia earlier that bombers under command of Gen. Douglas MacArthur had attacked enemy bases in New Britain, New Guinea, Kei, and Timor—points from which the enemy presumably would attempt to speed reënforcements into the Solomons battle area.

Islands Unidentified.

Exactly where this area is was not stated by the navy. The three islands on which landings have been made were unidentified. Tulagi itself is a small island in the Florida group, and Florida lies between the larger islands of Guadalcanal on the southwest and Malaita on the northeast. It seemed certain that one or more of these islands was among the three on which fighting is in progress.

The navy communique said:

"1. Operations in the Solomons are still in progress.

"2. It has been confirmed that the United States marines have landed as scheduled on three islands in the vicinity of Tulagi. The marines are engaged in consolidating their positions. Supporting naval forces have been engaged in bitter fighting, details of which are not yet available. United States army and Australian aircraft are continuing attacks on enemy landing fields and shore based aircraft.

Jap Base Under Way.

"3. There is substantial evidence that the Japanese had planned and had well under way the development of an enemy base in the Tulagi area.

"4. Until more details are available it is impossible to elaborate further on these operations. All available communication facilities are overtaxed by urgent messages concerning operations."

FOUR JAP SHIPS SMASHED

GEN. MacARTHUR'S HEADQUARTERS, Australia, Aug. 13 [Thursday] (AP).—United States marines still were holding their hard won foothold in the Tulagi area of the Solomon Islands on the seventh day of the battle today while coöperating allied bombers dealt a smashing blow against four Japanese ships at Rabaul, the Japanese New Britain base.

A communique issued here said one large Japanese ship was left sinking, two medium ships were set afire and left listing, and a 15,000 ton ves-

MARINES FIGHT SEVENTH DAY IN SOLOMON ISLES

Battle Japanese by Land, Sea and Air.

[Continued from first page.]

sel also was ablaze after allied airmen dropped their explosives.

Of eight Japanese fighter planes which tried to intercept the allied bombers in the daylight raid yesterday, one was shot down and from three to six were damaged, the communique said.

"All our planes returned," it added.

Gen. MacArthur's airmen operating more than 2,000 miles west of the Solomons in the Dutch Timor-Banda sea area also attacked Japanese shipping and base installations with undetermined results, the communique said.

Four Ships Blasted.

Of the Rabaul action, which supported the allied invasion strike at three islands in the Tulagi sector, the communique said:

"Our heavy bombers executed a successful daylight attack on enemy shipping in the harbor.

"A large 15,000 ton vessel was hit with heavy bombs and left in flames; a second large ship was seen sinking by the stern; two medium sized vessels were left in flames and listing. Eight enemy fighters intercepted. One was shot down, and from three to six were hit and damaged. All our planes returned."

Officials were silent here on the Solomon battle, but what information was available caused observers to believe that the American leathernecks, with their air and sea backing, were making progress.

The attack on Rabaul by MacArthur's forces was the second major one in a week. On the opening day of the Solomon action last Friday 17 big bombers struck heavily at the Japanese airdromes there in an attempt to ground planes which could reënforce the Tulagi and Guadalcanal garrisons.

The spokesman here was asked about an Australian report that American parachute troops were used against the Solomons. He said he never knew of such troops being landed from seaborne aircraft before.

Jap Reënforcements Sighted.

Aerial reconnaissance had established that the Japanese were very active at Rabaul, possibly with the idea of sending reënforcements to their Solomon garrisons. The Flying Fortress attack on that harbor followed, a spokesman said.

The spokesman said that Melbourne had an air alert late yesterday, but no enemy planes were sighted. The reason for the alert was not immediately learned.

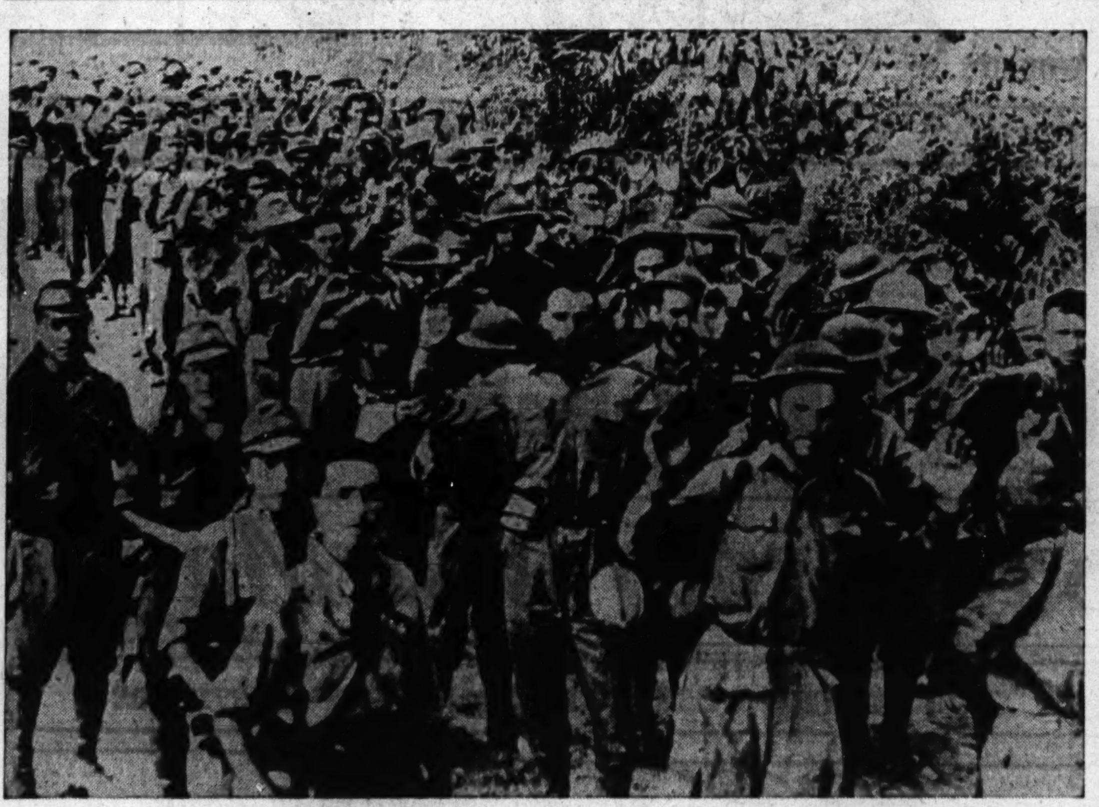
The absence of Japanese air attacks on Port Moresby, New Guinea, and Darwin, Australia, in recent days indicated that the united nations had the advantage of air superiority. The fact that Gen. MacArthur's air forces had not been called upon to strike directly at the Japanese in the Solomons also suggested that the planes at the disposal of Vice Adm. Robert Lee Ghormley, in charge of the offensive, were sufficient in the Tulagi area.

One unofficial dispatch from an advanced allied base said that apparently the marines had established themselves firmly and that the full weight of the offensive had been thrown into occupation not only of little Tulagi Island, only two miles long, but also of the much larger Guadalcanal and Florida Islands on either side.

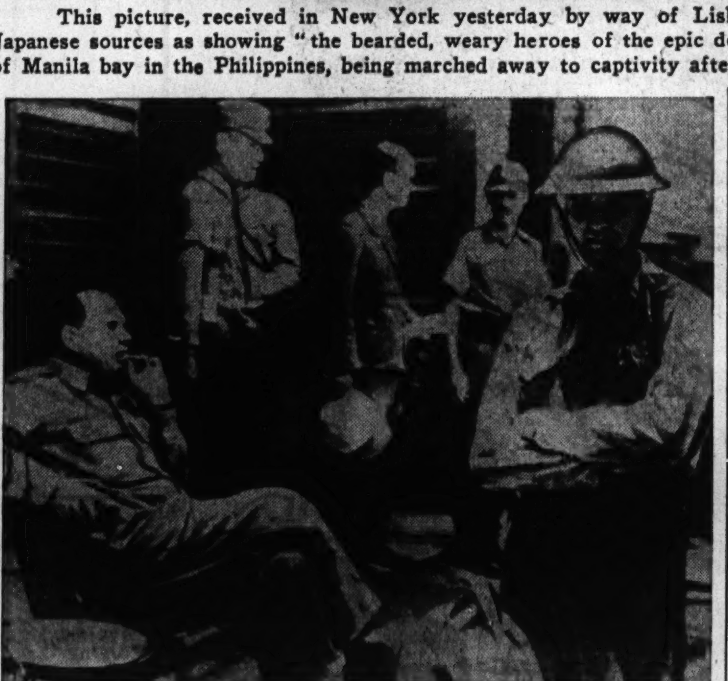
Japanese broadcasts which continued to picture the battle as merely a one day and night affair in which a large number of allied ships were sunk or damaged bore out opinion here that the axis was finding little to brag about in this struggle. One Japanese broadcast has seemingly hinted at difficulty by referring to Tulagi as one of Japan's weaker links.

A Domei news agency announcement today said that at one stage of the sea fight American and Japanese warships had engaged at such close quarters that they actually collided.

Japanese Pictures of the Surrender of Corregidor



This picture, received in New York yesterday by way of Lisbon and London, is described by Japanese sources as showing "the bearded, weary heroes of the epic defense of Corregidor, rock fortress of Manila bay in the Philippines, being marched away to captivity after the capitulation."



Associated Press Wirephotos.]

The Jap sources said this picture shows Americans held in a prisoner of war camp after Corregidor's surrender. The man at the right, wearing a steel helmet, is identified as Maj. Gen. Jonathan M. Wainwright of the American forces.

ALLIED PLANES BOMB FORMOSA, CHINESE HEAR

CHUNGKING, China, Aug. 12 (AP).—It was rumored here tonight, without confirmation, that allied airplanes bombed Formosa today. This Japanese island off the east China coast is one of Japan's principal troop staging areas for offensive operations.

The Chinese high command reported continued fighting around Linchwan [Fuchow] in Kiangsi province, with Japanese attacks in the western suburbs being repulsed.

RAF Bombs Burma Bases.

NEW DELHI, India, Aug. 12 (AP).—A royal air force communique said today that targets in the Myittha valley in northwest Burma again were attacked by bombers on Monday and that enemy occupied points in the neighborhood of Kalewa were successfully bombed and machine gunned.

Jan Henrik Marsman, business man and mine owner, who escaped after long imprisonment by the Japanese at Hongkong, will address the Union League club at Chicago Wednesday.

CORRESPONDENT FOR A. P. LOST IN PLANE ON PACIFIC

GEN. MacARTHUR'S HEADQUARTERS, Australia, Aug. 12 (AP).—Vern Haugland, Associated Press staff man, was listed as missing today, five days after a plane in which he was a passenger disappeared in a storm en route to the New Guinea war front.

Vern Haugland.

There still was hope that the plane might have made an emergency landing at some inaccessible spot. Haugland, 34, waited at Townsville, for several days for transportation to New Guinea. The opportunity came Aug. 7, when by a toss of a coin he won a seat in the plane. An Australian reporter who lost the toss boarded a second plane, which reached a New Guinea base safely.

Haugland was born May 27, 1908, in Litchfield, Minn. He was graduated in 1931 from Montana State college and worked on papers in Missoula and Butte, Mont., before he joined the Associated Press bureau at Salt Lake City, Utah, in 1936. In 1939 he was transferred to the AP bureau in Hollywood.

GROUP PLEDGED TO GIVE CHINA $5,425,000 IN AID

Relief projects in China for which United Chinese Relief is already committed will require $5,425,000, it was announced yesterday by Paul G. Hoffman, national chairman. This, he added, is for the period from last April to next April. The organization is sponsoring a national campaign to raise $7,000,000, of which Chicago's share was set at approximately 10 per cent.

NAZIS PUSH REDS BACK AGAIN ON ROAD TO BAKU OIL

Break Thru on Caucasus Front, Moscow Admits.

MOSCOW, Aug. 13 [Thursday]—(AP)—German troops have punched another hole in Russian positions astride the Rostov-Baku railroad in the Cherkessk area, but the red army is holding firmly on the approaches to Stalingrad, far to the north, the soviets announced early today.

"In the area of Cherkessk our troops have retired to new positions," the Russian communique said.

Cherkessk is 70 miles southeast of Armavir and about 200 miles from the rich Grozny oil fields, and the Germans thus are continuing their hard drive southeastward along the northern fringe of the Caucasian mountains.

The Red army was still fighting heavy defensive battles in the Maikop oil fields 130 miles southwest of Cherkessk, and also at Krasnodar on the Kuban river 60 miles northwest of Maikop.

Slay 2,000 Germans.

Nearly 2,000 Germans were reported killed and 22 tanks destroyed during the last 24 hours in Nazi efforts to bridge a waterline [probably the Kuban river] in the Krasnodar sector, the Russians said.

The apparent German goal in the west is twofold: To reach the soviet Black sea ports of Novorossisk and Tuapse. A railroad from Krasnodar leads to the former, and another spur from Maikop goes thru 3,000 foot mountains to Tuapse.

Northwest of Stalingrad, in the Don river bend, the Red army was reported to have fought off repeated German attacks at Kletskaya and south of that city, which is 75 miles northwest of Stalingrad.

Attack Near Stalingrad.

South of the Don, in the Kotelnikovo sector, the Russians reported offensive successes. The communique said the Germans in some regions had been forced onto the defensive and added: "Our troops launched a series of successful attacks and are mauling the enemy, not giving him a chance to consolidate."

Whole towns and forests were ablaze as the battle tide in the Kuban river country of the Caucasian foothills menaced the region of Pyatigorsk and the Grozny oil fields.

May Try to Scale Mountains.

The presence of Alpine units in the Cherkessk area led to speculation as to whether the Nazis would try to get over the Caucasus via the ancient Sukhum military road, winding southward from Cherkessk to Sukhum on the Black sea.

There are three ways to the Baku oil wealth on the Caspian sea: the first along the rail line from Rostov; the second along the Sukhum highway to the Black sea, thence by railroad or highway along the southern side of the great Caucasian range; the third by cutting across the mountains themselves at two or three places.

On the Germans' exposed upper Don flank before Voronezh, 325 miles northwest of Stalingrad, the Russians recrossed the river to the west in several more places and captured at least five villages on the west bank in 24 hours. South of the city German counterattacks were reported generally halted, altho the Nazi tanks wedged themselves into one Red army position.

Claim Don Bend Battle Ended.

BERLIN, Aug. 12 [from German broadcasts]—(AP).—The German high command announced today that the battle of the big Don bend has ended with the destruction of the mass of the 62d soviet army and said that 1,044,741 soviet soldiers had been captured since the beginning of fighting this spring.

[This report raised to at least 4,908,412 Russian prisoners the total reported by Adolf Hitler and the high command since Germany invaded Russia June 22, 1941.]

In its summary of fighting since the beginning of the battle of Kerch, when the German spring drive began, the high command said the German and allied troops captured or destroyed 6,271 tanks [bringing the total figure to at least 28,622] and 10,131 guns of every kind [raising the total to at least 44,461.]

Wins Custody

HELEN JEPSON.

Mineola, N. Y., Aug. 12 (AP).—Helen Jepson, Metropolitan opera singer, won custody today of her 9 year old daughter, Sallie, during summer months in an agreement reached with George Possell, her former husband, in the chamber of Supreme Court Justice Meier Steinbrink.

While the mother is following her musical career during the winter, the child is to stay with Possell at his Seaford, N. Y., home.

The couple married in 1931. At the time of their separation in 1939, Miss Jepson said an out of court agreement gave her custody of Sallie. This agreement was modified, she said, in June, 1940, to allow the father to keep the child with the provision that Sallie could visit her mother at any time.

Last July 21 Miss Jepson obtained a divorce in Mexico from Possell and four days later married Walter de Lerra. She declared she asked Possell last month to be allowed to take Sallie with her to her hunting lodge in Wurtsboro, N. Y., but he refused in violation of their agreement.

Britain Bans Use of Quinine Except to Treat Malaria

[Chicago Tribune Press Service.]

LONDON, Aug. 12.—The supply ministry tonight ordered the use of quinine confined to the treatment of malaria. The order applies to other alkaloids of cinchoma, as well as any synthetic substitute used in the treatment of malaria. Hereafter the public will be able to purchase these only by prescription. The order was necessitated, it was explained, by the loss of Java from where the supplies formerly were obtained.

MURMANSK: CITY OF 24 HOUR AIR RAIDS BY NAZIS

Ship Officer Tells of Reds' Lend-Lease Port.

New York, Aug. 12 (AP).—A Danish-American ship officer who returned to this country recently from a convoy trip to Murmansk described one day in that Russian port city, a major terminal for lease-lend aid to Russia, as "24 hours of continuous German air raid."

Charles A. Paludan of Lapine, Ala., 2d officer of an American ship, said that "during our stay alongside the wharf the discharge of cargo never stopped except during air raids—and we never had less than three raids in the 24 hour long Arctic daylight.

German bombers, he said, had damaged many of the fine, large and modern buildings erected in the last few years but many large log buildings, some three stories high, had withstood the bombings better.

Children Sing in Shelter.

During one air raid, he said, he went to a shelter in the basement of a wrecked concrete building. It consisted of three rooms, well reinforced with steel doors and one room was filled with children singing under the leadership of uniformed matrons.

Altho the temporary wooden sidewalks were crowded with people between raids all the window and door openings of the shops were boarded up. One hotel was still open altho overcrowded with officials. He said he was told that most of the women had already been moved out.

The Russian government gave each crew member an extra month's pay, but food was short and the ship was unable to obtain provisions for its return voyage, Paludan said.

Difficult Trip fr m U. S.

The trip from the United States, he said, was a difficult one with constant attacks by planes on the last lap to Murmansk. Describing one attack by four bombers, he said:

"We met them with a hail of lead that made three of them turn tail and flee. One big dive bomber kept coming, but dropped his bombs without doing any damage. When he got over our column of ships, less than 1,000 feet up, he made his last dive into the sea and not one of its crew got out of the plane."

The following day German torpedo planes attacked and some ships were hit. Two planes dove into the sea, hit by the continuous gun fire from the ships and their escorts.

SOLDIER DEFENDS HIMSELF AT RAPE TRIAL IN ENGLAND

U.S. Court Martial May End Today.

BY SEYMOUR KORMAN.

[Chicago Tribune Press Service.]

A NORTHWEST ENGLAND TOWN, Aug. 12.—Travis B. Hammond, 25 year old United States army private who is facing a possible death sentence in the first American court martial ever held in this country, testified in his own behalf today. He admitted having been intimate with a 16 year old shop girl on July 17 in an air raid shelter in this town, but insisted that the girl consented to his advances and therefore he had not committed the rape charged against him.

Hammond's story was told to 11 army officers holding court in the town's council chamber. Squeezed into the tiny room local businessmen, farmers, and reporters listened to the proceedings.

During the day, the court, headed by Col. Milton M. Towner of El Paso, Tex., visited the air raid shelter—a small brick building with a concrete roof. A crowd of curious townspeople followed in their wake.

Tells of Meeting Girl.

Hammond, whose home is in Keltys, Tex., related under questioning by his attorney, Capt. Lester Prichard of St. Louis, Mo., that he met the girl in the local YMCA. With another soldier and girl, they had some beer and wine and walked by two air raid shelters before reaching the one in question, Hammond said. He testified the other couple then left them.

"She made no objections," Hammond testified. "Afterward she asked me 'What will my mother say?' and I said, 'I don't know.' She did not say any more, but slapped me on the face and scratched me and then she left to catch a bus home."

Rules Out "Confession."

Hammond was subjected to a long cross-examination by the trial judge advocate, Capt. Ronald S. Reed of St. Joseph, Mo. Reed sought to show that other scratches Hammond suffered were caused by the girl's struggles with him, but Hammond declared that these scratches were inflicted in a fight with some other American soldiers on his way back to camp.

Reed also questioned Hammond concerning statements the private had made to his superior officer, Maj. Lawrence Wogan of Boston, the prosecution contending that these were in the nature of a confession of the crime. Maj. John M. Campbell, Kirksville, Mo., law member of the court, ruled out this line of questioning because Maj. Wogan had not given Hammond sufficient warning that any such statement might be used against him.

Earlier in the day, one of the last of the prosecution's witnesses, Pvt. Owen P. Clark of Douglasville, Ga., told of talking with Hammond in the guard house several days after the alleged attack.

"Hammond said that he might get shot at sunrise, but guessed he had it coming to him," Clark testified.

The trial is expected to end tomorrow.

NAVY TO PUNISH PETTY OFFICER INVOLVED IN DEATH OF LARSON GIRL

After a conference with officers at Great Lakes Naval Training station yesterday, State's Attorney Harry A. Hall of Lake county agreed to drop charges of murder and manslaughter against Chief Petty Officer Franklin Donald Cathcart III. of Palo Alto, Cal., in connection with the death of Miss Thoried Arna Larsen, 24 years old, of Waukegan, last June 25.

Hall said he agreed to drop the charges after a conference with the girl's relatives and an agreement by Lieut. Comm. Robert Cunningham, disciplinary officer at the station, that the navy will "take appropriate disciplinary action."

Miss Larsen was found in a wooded section west of Waukegan on June 21 in a dying condition. She died in St. Therese hospital, Waukegan, June 25, without making a definite statement. Cathcart gave himself up on June 27 and admitted the girl had gone to his room in Lake Forest with him. He said she fell down 17 stairs and that several hours later he drove her to the spot where she was found and where she insisted upon getting from his car. Both had been drinking.

AERIAL LOOKOUTS OF RAF TELL HOW IT RIPPED MAINZ

Countless Fires Set Off in Key Nazi City.

BULLETIN.

BERLIN, Aug. 13 [Thursday]—[From German broadcasts]—(AP).—Royal air force bombers attacked Mainz for the second successive night last night, DNB reported today. It said fires were started and mentioned damage in residential quarters of the city. Four of the invading bombers were reported shot down.

[London reported that German raiders dropped bombs on the outskirts of the city early today. There were no immediate reports of damage.]

LONDON, Aug. 12 (AP).—Picked bomber crews who circled over the German city of Mainz thruout a heavy raid last night in a new technique of RAF observation tonight told how the bursts of hundreds of tons of bombs flickered across the target like "lights of a pinball table" and started more fires than they could count.

The air ministry's report of the stories related by these special observers said the bombs, including more than 50,000 incendiaries, blasted and enflamed the city, an important industrial rail center and river port.

The observation crews hovered over the city for 46 minutes while plane after plane roared in, dumped its bombs, and streaked for home. Their task was to obtain a coördinated picture of the attack.

Like Pinball Lights.

Squadron Leader G. L. Cheshire, captain of a bomber and one of the picked crews, said:

"Within four minutes of the first bomb dropping three large fires were raging and by the end of the attack these had increased to more than we were able to count.

"For some 20 minutes the pattern of bomb bursts flickered ceaselessly across the objective like lights of a pinball table. It was indeed a memorable night."

Large fires still were burning in Mainz this morning, the British air ministry announced.

Calais Area Bombed.

This afternoon the RAF battered the Nazi-held Calais region of the French channel coast.

This evening two German planes bombed a place on the southwest coast of England, causing a few casualties.

French railroad workers in strategic northwestern France were warned by the BBC tonight in a broadcast that "it is the object of the RAF to disorganize railroads in France and Germany."

"You must realize," the BBC message said, "how highly important your railroads are to the Germans for the transport of their troops. The RAF attacks will be concentrated mainly on locomotives and freight trucks and will become heavier each time."

How Nazi Sub Was Captured at Sea by Canadian Warship

HALIFAX, N. S., Aug. 12 (AP).—The capture of a Nazi submarine by a Canadian warship after the submarine had been disabled by aircraft was described tonight in a broadcast by a royal Canadian navy seaman from Ingersoll, Ont.

Without disclosing the area or time of the capture, James Kay Crotty, a petty officer, told how his ship captured 32 Germans aboard the U-boat and then took it in tow.

His ship was in port, he said, when it got an emergency order to proceed to sea. Soon the word went around on board that the vessel was after a U-boat that had been attacked from the air.

"Finally we picked up the sub," he continued. "Apparently it couldn't dive, for it was still on the surface. Our planes were still overhead, waiting for us to go to work. Of course, our job was to seize the submarine and take the crew off.

"There to Keep It Afloat."

"It would have been easy to sink it, but we were there to keep it afloat. There was a full gale blowing and a heavy swell and we had to stand by until the weather moderated. That was late in the day.

"By that time more ships had arrived and they helped to screen us from other U-boats that might have been in the neighborhood while we got a line to the one on the surface."

Most of the Germans, he said, were clustered on the conning tower, altho the "seas were so heavy they were breaking right over the tower."

Crotty said his ship took off "all that were alive."

"We got 32 prisoners, including the captain," he went on. "He had an iron cross and was quite a dude. He had a fine pair of watertight goggles. He showed them to one of the sentries and, when the sentry reached for them he laughed and tossed them overboard. He seemed to get a big kick out of that.

"Hungry as Wolves."

"We took them on board our ship and fed them. I don't think they'd had much to eat for a day or so, for they were hungry as wolves. They seemed very surprised that we had butter and canned milk. They'd pass the butter around and look at it as if they'd never seen anything like it before."

The Canadians had no trouble with their prisoners, the seaman declared.

"We were waiting for them to start cutting up rough," said Crotty, "but most of them seemed darn glad to be aboard. Most of them were youngsters. One kid came over the side pointing to himself and saying, 'Me glad. Me glad.'

"Some of the others wouldn't talk to us or have anything to do with us at first, but there was one who had been in Canada. He must have told his mates they were lucky to be with Canadians, because they warmed up a little later."

BRITISH RESCUE 930 FROM LOST PLANE CARRIER

Eagle's Captain Saved in 4th Sinking.

LONDON, Aug. 12 (AP).—The British admiralty announced tonight that 930 survivors of the torpedoed aircraft carrier Eagle have been accounted for, including Capt. L. D. Mackintosh, the commander, 67 officers, and 862 seamen. Apparently most of the men were saved, for the normal complement of the carrier was only 748.

Capt. Mackintosh, heir to 125,000 acres in Scotland, previously had served on three other aircraft carriers, the Courageous, Glorious, and Hermes, all of which have been sunk in this war.

Loss of the 22,600 ton carrier in the Mediterranean was admitted by the British only today, altho the Germans claimed to have sunk her with four torpedo hits on Tuesday. The Nazi report said the Eagle was in the escort of a great British convoy which included most of the British Mediterranean fleet and was en route east from Gibraltar.

Berlin's version of the Eagle sinking indicated the convoy still was under attack. While the British report did not refer to a convoy raid, it did say British craft sank at least one enemy submarine in the same area where the Eagle was lost.

U. S. Flyers in Egypt.

CAIRO, Egypt, Aug. 12 (AP).—United States army fighter pilots have arrived in the western desert to learn flying conditions at first hand, it was announced today.

LAKE BLUFF FIREMAN TELLS OF BRAVERY ON TORPEDOED WARSHIP

The courage of the navy as exemplified by the crew of a torpedo-scarred destroyer hunted on the Atlantic by a pack of axis U-boats was revealed yesterday by William Leonard Wortley, the first Lake county resident to return home after being wounded in the armed services.

William L. Wortley.

Wortley, a fireman 1st class, came home yesterday on a 20 day furlough to visit his parents, Mr. and Mrs. Charles Wortley, 1 Sheridan road, Lake Bluff.

Twenty-one years old, red haired and tanned by the southern sun, Wortley told how his ship, the 1,090 ton United States destroyer Blakeley, was torpedoed May 25 in the Carribean. The explosion rocked the ship, he said, killing at least six of his mates. Wortley said he was thrown to the floor at his post and suffered severe burns on his arms from an exposed steam plate.

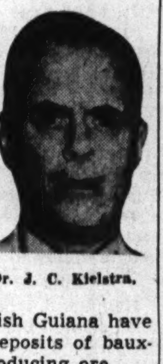
END SUB PERIL, DUTCH GUIANA'S GOVERNOR ASKS

Roosevelt Hears Official's Views on Menace.

BY WALTER TROHAN.

[Chicago Tribune Press Service.]

Washington, D. C., Aug. 12.—The necessity for ending the submarine menace in American waters was laid before President Roosevelt today by Dr. J. C. Kielstra, governor of Dutch Guiana. The governor urged emphasis on an anti-submarine campaign during a discussion of the bauxite production of his province. Dutch and British Guiana have the world's richest deposits of bauxite, the aluminum producing ore.



Dr. J. C. Kielstra.

"A great quantity of bauxite has been exported, but shipping is now the great problem," he said. "Ways must be found for transporting the ore so that aluminum can be had for war purposes. We sincerely hope that a way may be found to make shipping safe from the submarines."

U-Boat Toll Hits 420.

The Nazi war against American shipping in American waters is regarded as the major war problem by the army and navy high command. Since Pearl Harbor the submarine campaign has taken a toll of 420 ships in the Atlantic, according to the Associated Press, and has made a serious dent in American offensive capacity. There also has been an undetermined number lost elsewhere.

Military experts regard the submarine campaign as the most serious handicap to second front operations. The navy high command is confident that the submarine menace can be overcome but is asking more time. However, heavy Nazi gains in Russia are considered as making an immediate solution more imperative.

World-Wide Losses Estimated.

The total world-wide shipping losses since Pearl Harbor have been estimated at about 5,000,000 to 7,500,000 tons. Of this possibly about 3,000,000 tons were lost in American waters. At the outbreak of the war the total ocean going tonnage of the United States merchant marine approximated 8,500,000 tons.

Building has to some extent filled gaps in the merchant marine, but it remains far behind the enemy destruction total. The subs are sinking more ships than have slid down construction ways.

Without sufficient ships the United States cannot carry and maintain troops abroad. It has been estimated by the army and navy that it takes 17 deadweight tons of shipping to transport a soldier 3,000 miles from home and 3.4 tons of shipping to keep him supplied in Europe.

The ships already lost in American waters could have carried an army of about 175,000 overseas. They could have carried supplies for an expeditionary force of approximately 900,000 men.

Military experts hold that a force of 175,000 men could not conduct landing operations alone against Europe, but would constitute a sizable addition to an expeditionary force.

LIEUT. JAMES FREEMAN OF COAST GUARD DIED A HERO, FAMILY HEARS

Lieut. James Stewart Freeman of the coast guard died a hero at Norfolk, Va., on Monday, according to a letter from a friend received yesterday at the lieutenant's home, 312 Lee street, Evanston, after the family had been notified of his death by the navy.

Lieut. Freeman.

The letter said that some sailors were playing ball beside the ocean when one of them touched an electric wire and was killed while trying to retrieve a ball that had fallen into the water. A professional diver failed to recover the body. Lieut. Freeman then descended in the diver's suit. The helmet came off and he was drowned.

Lieut. Freeman was 29 years old. A graduate of Northwestern university, where he was an athletic star, he joined the coast guard a year ago. Surviving are his parents, Mr. and Mrs. Howard B. Freeman, and a brother, Norman Freeman.

DUTCH SHIP SUNK IN 3 MINUTES IN U-BOAT ATTACK

[BY ASSOCIATED PRESS.]

420

In its first announcement of a ship sinking in four days, the navy yesterday disclosed that a small Dutch merchantman was sunk off the east coast of South America late in July with the loss of 23 crewmen.

It was the 420th ship sinking in the western Atlantic announced by the navy since Pearl Harbor, according to Associated Press records. In these sinkings, 2,369 lives have been lost, 1,630 persons are missing, and 12,911 have been rescued.

Only 14 aboard the Dutch ship were rescued when their ship was struck by a torpedo from an unseen submarine. In exactly three minutes the ship cracked in the middle and sank.

BRITISH PREDICT NAZIS WILL RAID SOUTH ATLANTIC

Supply Route to India and Egypt Periled.

LONDON, Aug. 12 (AP).—A large scale offensive by German surface and submarine raiders against the heavy allied merchant traffic in the South Atlantic was predicted today by informed British naval sources.

Reports from neutral and axis sources indicated, it was said, that the attacks already had started. These sources cited Rio de Janeiro's receipt of SOS messages reporting an enemy surface raider 1,000 miles off the Brazilian coast and the German high command's claim of yesterday that 45,231 tons of shipping bound for Egypt had been sunk recently by German submarines off the American and west African coasts.

Raiders in Atlantic.

Not only is the South Atlantic the chief supply route to India and Egypt, but under present conditions it is probably the most important means of sending supplies to Russia via Iran. Wheat and beef from South America also traverse the new danger area en route to Britain.

A naval source reported that a number of armed axis merchant raiders had reached the South Atlantic from ports on the Bay of Biscay since the fall of France. Two were destroyed by the British cruisers Devonshire and Dorsetshire in December, 1941.

Believed Merchant Cruisers.

Dispatch of another axis merchant cruiser to the area, and increased submarine activity there indicates that as anti-submarine defenses along the north American coast improve the German major undersea effort may be transferred to the new hunting ground.

The possibility that the German surface raider is one of the two surviving pocket battleships, the Admiral Scheer and the Luetzow, or a cruiser of the Hipper class, is slight, said a naval source. Nor did he think it likely that a Japanese warship had ventured into the South Atlantic.

The Germans, he said, would be more likely to risk a merchant cruiser than a warship.

Nazis Report Two Sinkings.

BERLIN, Aug. 12 [from German broadcasts] (AP). — German military sources reported today that a straggling British steamer en route from South Africa to England had been sunk by submarine torpedoing and an American freighter destroyed by gunfire off the coast of Florida.

The Berlin radio said the British ship became lost from its convoy and was sent down near the Azores. Twenty-one survivors were said to have been landed at Las Palmas.

Survivors of the American freighter, also sent down by a U-boat, have landed on the United States southeast coast, the radio added.

Two Russian Ships Safe.

MOSCOW, Aug. 12 (AP).—The newspaper Pravda reported today the soviet ships Arkos and Donbas had arrived at a Russian port from the United States after having escaped dive bombing and submarine attacks.

Complete for Only $5.00 Per Year

To protect civilians against injury, hospital or medical expense, or loss of life resulting directly from an attack by the armed forces of any country with which the United States of America is at war or from resisting such attack, Federal Life announces the issuance of a Special Civilian War Injury Insurance Policy that pays all hospital and medical expenses up to $500.00 and other indemnities up to $5,000.00 for only $5.00 per year.

This value is made possible by the establishment of a Reinsurance Pool representing companies whose combined assets exceed $750,000,000.00. Federal Life is one of these companies.

Most insurance policies do not cover the war hazards covered by this insurance. It is therefore important to get this protection.

These policies will be issued to all risks regardless of age, sex, occupation, race or physical condition, except persons in the military or naval service of any country at war. Only one policy will be issued to any one person. Policy is in force the day insurance is issued.

To obtain a policy send the coupon below with $5.00 covering the first year's premium. No medical examination is required.

Agents and brokers whose companies are not members of the Reinsurance Pool are invited to write us for particulars.

FIFTH COLUMN'S ROOTS DIG DEEP, WIDE IN ECUADOR

Finds Good Will Efforts by U. S. Misfire.

Chile Has Censorship

SANTIAGO, Chile, Aug. 12 (AP).—The Chilean government today ordered a strict censorship of communications with "countries at war with American nations," and forbade transmission of information which "might endanger the security of American states."

The move was in accord with decisions reached at Rio de Janeiro's Pan-American meeting last winter. The sending of information concerning ship movements was specifically forbidden, as well as news considered "false or designed to disturb the order, tranquility, and security" of Chile.

Chile and Argentina are the only two Pan-American countries which have not broken diplomatic relations with the axis.

BY CLAY GOWRAN.
[Chicago Tribune Press Service.]

QUITO, Ecuador [by air mail].—The carefully drawn Nazi swastikas which can be seen on the façades of numerous little shops in this ancient capital are symbolical of the highly organized, richly financed fifth column which is spreading axis propaganda far and wide thru Ecuador.

This correspondent has seen the swastikas time and again in roaming Quito's narrow, cobbled streets. And I have been told by persons who have lived for years in Ecuador why in their opinion the government of President Carlos Alberto Arroyo del Rio is lukewarm in its attempts to stop or even control the fifth column organization:

1. Ecuador is angry over the United States negotiated peace treaty made in January at the Rio conference, by which Ecuador lost much territory to Peru.

2. Ecuador is not certain yet that the united nations will win the war—and so she remains on the fence.

3. Thousands of Germans and Italians who came to Ecuador years ago are intermarried with Ecuadorians, and constitute a powerful group which would oppose any such action.

Two Propaganda Centers.

It is no secret in Ecuador that there are two great clearing houses in the country for propaganda directed against the united nations, and more specifically against the United States itself. They are the Spanish legation in Quito and the great bloc of Falangist minded priests in Ecuador's tremendously powerful churches. [The Fascist Falange is Spain's only political party.]

The man thought responsible for the great propaganda organization is Max Rueff. Rueff, altho no diplomat, is "attached" to the Spanish legation to "care for" the affairs of his German fatherland.

With no cable or radio censorship set up by the Ecuadorian government, Rueff can receive orders regularly from Berlin via Spain. It is known that lengthy cables reach him at the Spanish legation here, outlining propaganda stories, directing the expenditure of funds, and in general coordinating activities of the fifth column in Ecuador with the columns in other Central and South American nations.

How U. S. Fights Propaganda.

The United States, as I mentioned in a previous article, attempts to combat enemy propaganda and the pro-axis feeling which it foments by a generous pouring of money into Ecuador. Also by attempting to bring North American culture to Ecuador by sending musical ensembles and artistic exhibits to this country.

The money may help some, but the cultural attempts thus far have made the United States look silly in the eyes of the extremely cultured and sophisticated upper classes of Ecuador.

"Recently your country sent us an ensemble of musicians, not very good musicians," an Ecuadorian friend told me. "Out of politeness—our people are very polite—we went to hear them. It was an ordeal. If that is the best music your country can offer, I think we should send our musicians to you."

The exhibit of oil paintings struck the same note. It was shown in old Quito, where every church has famous paintings dating from the 17th and 18th centuries.

ORDER AMERICAN SOLDIERS NOT TO BATTLE INDIANS

AEF Warned to Shun Internal Rows.

Washington, D. C., Aug. 12 (AP).—The state department made it clear tonight that American armed forces in India would not participate in the suppression of internal disorders there.

They have, on the contrary, been ordered to "exercise scrupulous care to avoid the slightest participation in India's internal political problems, or even the appearance of so doing."

Their sole purpose in India, the department said, is to prosecute the war against the axis powers, and their primary aim in that area is to help China.

Troops Mostly Air Units.

American armed forces—mostly aerial personnel—have been stationed in India for some time, engaged principally in relaying air materials and planes to embattled China by air, or in aerial action against the Japanese in Burma.

Their status in India suddenly became a vital political issue when Mohandas K. Gandhi's campaign for "freedom now" exploded into rioting and bloodshed and news dispatches told of troops, as well as police, being called out to quell the disorders.

Gandhi and his colleagues more than once, in the critical days preceding Gandhi's arrest and the outbreak of rioting, made statements implying that Americans in India might be used against them.

State Department's Edict.

Tonight's disclosure of the policy governing American military forces in India definitely rules out such a possibility.

The statement of policy made public by the state department follows:

"The following statement of this government's policy has been made a part of the orders to the American military forces in India:

"1. The sole purpose of the American forces in India is to prosecute the war of the united nations against the axis powers. In the prosecution of the war in that area, the primary aim of the government of the United States is to aid China.

"2. American forces are not to indulge to the slightest degree in activities of any other nature unless India should be attacked by the axis powers, in which event American troops would aid in defending India.

"3. American forces in India will exercise scrupulous care to avoid the slightest participation in India's internal political problems, or even the appearance of so doing.

"4. In event of internal disturbances, American forces will resort to defensive measures only, should their own personal safety or that of other American citizens be endangered, or for the necessary protection of American military supplies and equipment."

RIOTING LESSENS IN INDIA AFTER 5 DAYS OF TURMOIL

BOMBAY, India, Aug. 12 (AP).—The upheaval of riot and bloodshed which has marked Mohandas K. Gandhi's do-or-die independence movement showed signs of wearing itself out in its fifth day today, altho gunfire twice resounded in Bombay, where violence has been at its height.

There was marked improvement in the attendance of millworkers in the factory area, train and street car services were fairly normal, street barricades erected by rioters were being pulled down, and the mill area presented an appearance of comparative quiet.

The looting of a government grainship and two government food trucks were the only major outbreaks, altho in the late afternoon troops fired on a crowd which stoned a military truck and again when a mob attempted to destroy a postoffice box.

Mobs Believed Tiring.

However, violence flared in some cities. At Poona, where Gandhi is interned, four persons were reported killed by gunfire. At Allahabad a 7 p. m. curfew was imposed after crowds attacked a police station, two police outposts, several branch post offices, and an air raid center. Two persons were killed by police bullets.

Police said the mobs appeared to be getting tired of their activities. Most of the rowdyism in Bombay could be traced to not more than 50 persons using students and others to keep it going, officers asserted, and so far few members of Gandhi's All-India Congress party had taken part.

The Congress party press also asserted the rioters contained few genuine Congressmen.

So far the toll of violence stood at 31 dead and 250 wounded in Bombay alone, but reports from other Indian cities indicated at least 56 had been killed and probably 300 injured.

At the moment, unrest in New Delhi appeared to be more intense than in Bombay.

More Troops Called Out.

Additional troops were sent to New Delhi to meet what was officially described as an "ugly" situation.

A large crowd set fire to the town hall there and burned the income tax office. A Moslem police officer was slain by the crowd. The death of 12 persons in New Delhi already had been announced.

The big industrial city of Calcutta, with its war important mills, was quieter.

"Situation in Hand."

LONDON, Aug. 12 (AP).—The India office today said: "Authorities in India have the situation completely in hand and it is emphasized that any picture of widespread disorder in that country is utterly distorted."

VULTEE TO MAKE TRAINING PLANES BY NEW PROCESS

Downey, Cal., Aug. 12 (AP).—The southern California plant of Vultee Aircraft, Inc., is to be converted largely to production of training planes, made mostly of steel, thus releasing additional aluminum for fighter and bomber planes.

G. M. Williams, vice chairman of the Vultee board of directors, made the announcement, explaining that steel plane construction is possible thru a new process of combining thin sheet steel with what is termed "expanded metal," developed at the company's manufacturing research division at Detroit.

The expanded metal, a steel grillwork similar to metal lath used in building construction, is welded to thin steel plates, providing increased rigidity and strength in relation to weight.

DEMANDS KNOX CONDUCT PROBE OF SHIP BUREAU

Washington, D. C., Aug. 12 (AP).—Chairman David I. Walsh [D., Mass.] of the senate naval committee called upon Secretary of the Navy Frank Knox today to investigate "the conduct and attitude" of the bureau of ships in its dealings with the Higgins industries, New Orleans shipbuilders.

His request followed a letter sent by Chairman Harry S. Truman [D., Mo.] of the senate defense investigating committee to Knox, charging the bureau with negligence and wilful misconduct in handling the designs for an "invasion vehicle."

Asked Committee Inquiry.

Truman said later that he was referring to landing barges. Upon receipt of that letter, Knox suggested that a naval subcommittee inquire into the charges.

"Before any action is taken by the committee on naval affairs of the senate," Walsh wrote Knox today, "I will appreciate your conducting an investigation into this matter and letting the committee have your views and all information in your possession.

"Upon receipt of this information from you, the committee will be glad to give consideration to what further steps it should take in connection with this matter."

Bureau Charged with Bias.

The Truman letter accused the bureau of ships of bias and prejudice against the Higgins company. It was sent to Knox in the midst of another controversy, which developed over the action of the maritime commission in canceling a contract with Higgins for construction of Liberty ships. The commission said its decision was based on a shortage of steel.

Mrs. Edward Charvat Sr., 3832 West 60th street, celebrated her birthday yesterday by looking on as her family made two contributions to the war effort in a ceremony at the Treasury Corner, State and Van Buren streets. Her son, Edward Jr., 21 years old, was inducted into the navy, then invested $200 in war bonds. Her husband, a World war veteran, converted about $2,000 of veterans bonus bonds into war bonds. "The privilege of giving my son and our money to the war effort was the nicest birthday gift I could ask for," she said. She wore a corsage of war stamps.

BLACK-OUT TEST SUCCESS, MAYOR, MILITARY REPORT

Ground, Air Reports to Be Studied.

[Continued from first page.]

men and firemen, as block captains, air raid wardens, and fire watchers, gave their time and effort without stint. The regular police and fire services and the military did their part in equal measure. Few violations of law, including the rules for the black-out, were noted and in nearly every case the offender was ignorant he was committing an offense.

Beauty of Scene Impressive.

Watchers on the tops of tall downtown buildings were impressed by the beauty of the scene as the lights of the biggest city of the American interior were snuffed out at 10 p. m., six minutes after the first pulsating wail of the warning sirens went on the air.

A typical story was told by one who stood on the observatory platform of Tribune Tower to witness the blacking out.

"Below us was Chicago as it normally is," he said. "Light shone from big buildings. It lay in rectangular patterns along the streets, along the great drives beside the lake. Automobiles dashed along, each a blur preceded by a burst of illumination.

North Side Leads Way.

"Then came the warning signal. The motorists halted, pulled to the roadsides, doused their lights. Scarcely one was to be seen in a couple of minutes. Then the city's lights began to go out. The north side went first, then the loop, then the south and west sides. Only a few lights were visible anywhere, except the red and green of railroad signal devices and a huge candy company sign that held on for 10 minutes more. It was truly impressive."

What happened during the black-out? Many things.

There was so little crime, what with the police being reënforced by 6,000 volunteer auxiliaries, that none was reported. Within Chicago there wasn't a single fire to fight. Traffic on the streets was light, with official cars and a few emergency ambulances dashing about.

Passengers Kid Each Other.

Along the Outer drive thousands of cars were halted and their occupants saw the black-out. On buses and street cars and elevated trains, halted for the duration of the test, folks kidded each other and [in some instances] smoked cigarets, forbidden by law and by regulations.

At home the citizens sat at leisure, ears glued to their radios, and lights out. As an example, one zone leader on the north side said just one householder in six blocks had to be warned of light.

A couple of northwest side store owners, probably forgetful, had left their signs ablaze. Wardens broke in and turned them off. In the loop a few buildings showed lights for five to ten minutes after the raid signal went out.

Observation Planes Overhead.

Several observation planes flew over the city during the dark period, with army officers taking photos and making up reports on how the protection could be improved. On one plane, chartered by radio station W-G-N, were navy and OCD officials who broadcast to the station a description of what could be seen, without exposing military secrets, of course.

Observers in the Pittsfield building said that the railroad lights and the sky glow of the steel mills to the south were visible. There also were complaints that a few vessels in the lake and the river were not blacked-out sufficiently. Flicker lights on boulevards and the red lights on the saw horses in the north Outer drive also were visible.

Church Vigil Lights Dimmed.

The Rev. J. F. Henry of the Holy Family church at 1076 Roosevelt road reported that seven vigil lights burning in the church were dimmed for the first time in 71 years.

In Park Ridge volunteer firemen worked to put out a débris fire at 540 Northwest highway during the black-out.

Mrs. Leo Phillips of 1516 South Springfield avenue, an expectant mother, was hurried to Mount Sinai hospital just as the black-out began. The delivery room was in use and an auxiliary one, with special lighting and blankets draped over the windows by nurses, was prepared for her.

In the dark half hour babies were born to Mrs. Anna Rudinski, 1527 South 49th avenue, Cicero, in the Women's and Children's hospital; and to Mrs. Alexandra Herrara, 1550 Taylor street, at the County hospital; and to Mrs. Howard Darsch, 6363 South California avenue, at St. Bernard's hospital.

Black-out Baby

(Story starts on page 1.)

[TRIBUNE Photo.]

Nurse Martha Rohm holding baby girl born during last night's black-out to Mrs. Elvida Gunnarson in the Norwegian-American hospital.

Mrs. Ava Harris, 46 years old, of 1445 South 19th avenue, Maywood, suffered a broken leg during the black-out and was hustled by ambulance to the County hospital in a police car.

Parts of Three States.

The black-out covered the northern one-third of Illinois [with Springfield outside the plotted area holding a separate test]; the steel making cities of northern Indiana; the lake shore counties of Wisconsin, and the southern half of Michigan's lower peninsula. Michigan's test was held on eastern time, an hour before the other states. Everywhere it was reported that the volunteer groups functioned with calm efficiency and that while the test was not perfect anywhere the results were as good as had been anticipated.

CHICAGO NAVY MAN PRAISED FOR HEROISM

Washington, D. C., Aug. 12 (AP).—Secretary of the Navy Frank Knox bestowed commendations today on 28 enlisted men in the navy for heroism and outstanding performance of duty in a naval battle with the Japanese south of Java.

Among the men commended were: Robert Wesley Stoner, 23 years old, son of Wilbur Stoner, 2849 Monroe street, Chicago; Reginald Mills, 22, son of Charles Mills, Orient, Ill.; Robert Benjamin Christensen, 21 son of Benjamin Christensen, Green Bay, Wis., and Alfred Charles Moyle, 27, whose wife, Mrs. Louise G. Moyle, lives in Oelwein, Ia. [Moyle was listed as "missing in action."]

TRIBUNE, W-G-N WORK GOES ON IN BLACKOUT TEST

Only a minimum of work was interrupted in Tribune Tower and W-G-N studios last night in the 30 minute black-out.

No radio programs were halted on W-G-N and the Mutual Broadcasting system, with the studio carrying a full story of how Chicago reacted under the lights-out edict.

Work in THE TRIBUNE's editorial department proceeded as usual, all light seepage to the outside being stopped by paper and cardboard shields over the windows. In the mechanical departments, only a minimum of operations were halted.

FIND BLACK-OUT GOOD ENOUGH TO FOIL AERIAL FOE

Office of Civilian Defense and navy officials riding in a plane chartered by W-G-N for part of its black-out program last night said Chicago with lights out would be unrecognizable to enemy pilots. Walter Roy, OCD liaison officer, said the light pattern was recognizable to him despite the black-out, but claimed pilots not familiar with the area would be baffled. The same opinion was expressed by Lieut. Comm. Yale Rice, assistant district security officer of the 9th naval district.

Two Boys Flee Michigan School in Black-out

Lansing, Mich., Aug. 12 (AP).—Officials of the state's vocational school for boys reported that two inmates escaped during tonight's black-out of southern Michigan, fleeing unobserved from a dormitory cottage and clad only in their night shirts.

AMERICAN RCAF FLYER KILLED.

OTTAWA, Ont., Aug. 12 (AP).—Pilot Officer Lawrence Robert MaGuire, whose mother, Mrs. L. A. MaGuire, lives at East Orange, N. J., was reported by the RCAF today as killed in active service.

BLACK-OUT CUTS ELECTRICITY USE 54% AT LOWEST

Consumption Drops Some 700,000 Kilowatts.

Consumption of electricity dropped 54 per cent below normal during the darkest portion of the black-out in territory served by the Commonwealth Edison company, it was learned from a spokesman last night. But during the day more "juice" was used because many commercial and industrial establishments had black-out screens and curtains in place early, keeping out natural light.

Normally at 10 p. m. the Edison company meters register a flow of 1,300,000 kilowatts. Last night the figure was only 690,000, and within a few minutes this went down to 600,000.

By 10:10 p. m. the consumption was up to 660,000 kilowatts, at 10:20 to 680,000, and at 10:30 to 700,000.

Plants Act Voluntarily.

The principal reason for this rise, the company said, was that many war industry plants exempted from the black-out voluntarily underwent brief black-outs to test their readiness for real emergencies.

The public was slow in taking advantage of the "all clear" signal, altho it was believed that an unusually large week night crowd attended theaters. Thus the company explained the fact that at 10:35 the meters read 935,000 kilowatts, or 290,000 below normal for this time.

By 10:40 the rate of consumption was up to 1,090,000, five minutes later to 1,120,000, and at 11 p. m. it was back to normal at 1,100,000.

The 10:30 figure of 700,000 is the same as is normally encountered on the company meters at 4 o'clock in the morning.

Sanitary Power Cut Off.

Chicago street lights get most of their current from the generators of the Chicago sanitary district, produced by water power on the Illinois waterway. This requirement was completely cut off.

Company officials said there was no way of determining the daytime increase caused by the use of black-out devices because weather conditions are the main factor in controling the normal consumption.

During the five minute black-out at generating stations and switching centers of the Edison group of companies armed guards were doubled in number as an extra precaution against sabotage.

TRIBUNE PHOTOS TAKEN WITH NEW BLACK-OUT BULBS

TRIBUNE photographers were busy taking news pictures as usual in last night's black-out. Altho some were long time exposures, many were taken with the aid of infra-red flashlight bulbs. These bulbs give off only a dull red glow which is invisible at a distance of 10 feet. Thus some persons who were photographed did not know a flashlight was being used.

The bulbs are ordinary flashlight bulbs, coated with an infra-red film which filters out the white light. They are available at present to the government service and newspapers only. Their cost is somewhat higher than ordinary bulbs. They have been on the market about seven months.

The bulbs and the infra-red films upon which the pictures are taken produce some strange and often unpredictable effects. The white of an eye often is black in the picture, while the pupil may be white. Pallid faces look the whiter, and men who have just shaved sometimes look as if they had a day's growth of beard. White hats generally look dark in the pictures. Dark clothes, such as a policeman's uniform, come out light sometimes, and the uniform of one policeman may look several shades lighter than that of another policeman in the same picture.

GIRL, 12, BURNED DURING A 'PLAY,' DIES OF INJURIES

A children's make-believe drama in a playhouse in the rear of 6117 North Meade avenue ended in death last night for Patricia Wilke, 12 years old, 6129 North Meade avenue.

Patricia's dress caught fire Tuesday night while she and Vivian Palermo, 10, and Rosemary Palermo, 9, were staging a play with Sam Zangri, 30, of 2456 South La Salle street, the Palermo girls' uncle, as the audience.

When she ran screaming from the house Zangri pursued her and wrapped her in his coat to extinguish the flames.

Four Evanston young men, who appeared yesterday before United States Commissioner Edwin K. Walker for final arraignment on charges of impersonating federal agents, found their case unexpectedly continued. Miss Mary Bailey, assistant district attorney, told the commissioner she had received the reports on the case from the federal bureau of investigation only yesterday and had not had time to prepare her case. A continuance to Sept. 1 was granted. The four young men are John Kirby Roche, 16 years old, 1316 Lake street; John Knox Sparrow, 17, of 1214 Forest avenue; Eugene Glass, 18, of 1422 Wesley avenue, and James Conway Ringling, 16, of 1200 Forest avenue, all of Evanston.

CHICAGO SAILOR IS HONOR MAN OF NEGRO COMPANY

Henry Ambrose Martin Jr., 34 years old, a Negro apprentice seaman, has been chosen honor man of his company at Great Lakes, the station announced yesterday. Martin will go to one of the navy's service schools when he is graduated from basic training Saturday. He enlisted from 4746 Forrestville avenue several weeks ago and has been a Chicago resident eight years. He had been an electrical trouble shooter for the Commonwealth Edison company before he went into the navy.

ASHER'S APPEAL TO WITHDRAW HIS BOND REJECTED

Indianapolis, Ind., Aug. 12 (AP).—United States Commissioner Howard S. Young denied today a request by Court Asher, Muncie, Ind., publisher, for permission to withdraw a $5,000 bond posted for Asher's appearance in Washington, where he and 27 others were indicted recently on sedition charges.

Asher previously had waived a hearing before the commissioner and posted bond. His attorneys explained he now wished to withdraw the bond and be given a hearing, but Young explained the bond had been sent to Washington and the case was out of his hands.

'MORE THAN SIX' SPY AIDS TO FACE TREASON CHARGE

Biddle Will Seek Writs Within Ten Days.

[Chicago Tribune Press Service.]

Washington, D. C., Aug. 12.—Immediate grand jury indictment of 12 of the 14 alleged accomplices of the eight Nazi saboteurs convicted recently by a military commission will be sought by the government, Attorney General Francis Biddle announced today. Grand jury action will be in Chicago and New York.

In all cases where the evidence warrants, indictments will be sought on charges of treason, the supreme penalty for which is death, according to the justice department.

Biddle said at a press conference that "more than half" of the 12 probably will be tried on treason charges. In cases where the evidence does not justify treason charges, indictments will be asked for violation of the trading with the enemy act, the foreign agents act of 1917, or other criminal statutes.

Await Transfer to Prison.

Six of the convicted saboteurs were executed here last Saturday in accordance with the verdict of a special military commission, as approved by President Roosevelt. The other two are confined in the District of Columbia jail awaiting transfer to a federal prison, where one will serve 30 years at hard labor and the other will serve for life.

No decision has been reached on where George John Dasch and Ernest Peter Burger will be imprisoned, said Biddle, and there is doubt that the prison will be disclosed. They will be separated from other prisoners and guarded carefully, he said.

Two Already Interned.

Two of the 14 alleged accomplices of the saboteurs will not be prosecuted by the government, Biddle announced. They are Mrs. Maria Kerling, wife of one of the executed Nazis, and Ernst Herman Kerkhof, both of New York City. Kerkhof has been stripped of his American citizenship. Both have been interned, and will remain interned for the duration of the war.

"No criminal action is contemplated against Kerkhof or Mrs. Kerling," said the justice department announcement. "After full investigation it was determined that evidence against them would not justify prosecution."

Eight of the actions for indictments will be handled in Chicago under the direction of United States Attorney J. Albert Woll. These involve Mr. and Mrs. Hans Max Haupt, parents of one of the executed saboteurs, Herbert Hans Haupt; Mr. and Mrs. Wilhelm Froehling; Mr. and Mrs. Otto Richard Wergin, and Mr. and Mrs. Harry Jaques, all of Chicago.

Others in New York Courts.

Three of the cases will be handled in New York City by United States Attorney Mathias Correa. These involve Helmut Leiner of Astoria, N. Y., and Anthony Cramer and Miss Hedwig Engemann, both of New York City.

The 12th case, involving Herman Heinrich Faje of Astoria, will be handled in Brooklyn.

All of the above, with the exception of the Jaques, are in federal custoday on complaints charging them with being accessories after the fact to an offense against the United States. The Jaques have been interned as dangerous enemy aliens.

The 14 are accused of being familiar with the intended sabotage plans of the eight saboteurs and giving them aid. Biddle said that evidence will be presented to the grand juries within 10 days, and that indictments may be expected a few days later.

Trial Establishes Precedents.

Reviewing the trial of the eight saboteurs, Biddle said they were not tried for any civil crime, but for violating the laws of war and offenses against the army and the commander in chief. These offenses consisted of "crossing the line" with intentions of sabotage and espionage, Biddle continued.

Special attention was given the case by the justice depeartment because it constituted precedent-establishing proceedings. The department participated in the case from the beginning said Biddle, because it anticipated that counsel for the saboteurs would attempt to carry the case to the courts, in which case the department would represent the government. This was done and the Supreme court upheld a test of the President's war powers to try the saboteurs before a military commission.

PREPARE CHICAGO CASE.

Earl J. Connelley, assistant director of the Federal Bureau of Investigation, arrived yesterday from Washington, D. C., to confer with United States Attorney J. Albert Woll on preparation of the government's treason case against the eight Chicagoans held as aids to the six executed saboteurs.

Woll said the government will begin producing its evidence before the grand jury next week. "We will be ready for trial the day after the indictments are returned," he said.

Keys for Victory

Seventeen pounds of keys, including the keys to almost all the old roll top desks installed in the City hall when it was opened in 1910 were contributed to the Keys for Victory drive by Oscar E. Hewitt, commissioner of public works, yesterday. Almost all the old desks have been abandoned and the 420 keys are no longer needed.

Keys for Victory week, which will continue thru Sunday, is sponsored by the Junior Association of Commerce. Proceeds of the sale of the keys to salvage companies will be given to United China relief. Red, white, and blue barrels for their collection have been placed thruout the city.

Enough metal to plate the instrument panels on five army bombers can be salvaged from the more than 1,000 keys contributed by W. H. Pitann, in charge of the lost and found department at the Marshfield avenue elevated station. Members of the Chicago Cubs gave keys to the drive yesterday. The Plymouth Court garage, 711 Plymouth court, is the central receiving station for the drive.

PELLEY GETS 15 YEAR SENTENCE FOR SEDITION

Aid Given 5; His Firm Fined $5,000.

Indianapolis, Ind., Aug. 12 [Special].—William Dudley Pelley, convicted of sedition in federal District court here last week, was sentenced today by Judge Robert C. Baltzell, to serve 15 years in prison.

Pelley, organizer of the now defunct Silver Shirts of America and an anti-semitic agitator of long standing, showed no emotion nor did he make any comment.

Lawrence A. Brown, editor of Pelley's numerous publications at Noblesville, Ind., was sentenced to 5 years imprisonment. Miss Agnes Marian Henderson, Pelley's private secretary, received a suspended sentence of two years.

"I'm glad for Miss Henderson," Pelley said in an undertone.

Firm Is Fined $5,000.

In addition to the sentence, the judge also imposed a fine of $5,000 against the Fellowship Press, the publishing firm Pelley set up at Noblesville, Ind., about two years ago.

Preceding the sentencing, Judge Baltzell overruled a motion for a new trial, asserting he had studied the record carefully and was convinced there had been no errors. He spoke for nearly an hour, reviewing the case and asserting it was important that Pelley's activities be halted.

"I have read all your articles presented in the case," said the judge. "Such things must not be permitted when the country is fighting for its very life, and our boys are being sent out to face death."

"Must Be Severe.

Judge Baltzell said the punishment against Pelley "must be firm—rather severe, in fact—because you are the leader and without you it [the Silver Shirt philosophy] cannot go on."

The judge also asserted there could be no question of intent in the case, and that this was one of the most important questions in the trail. In reference to Miss Henderson the judge said he regarded her actions largely those of a loyal employé, but that if she takes any part whatsoever in Silver Shirt activities in the next five years of her probation he will recall her into court and impose a heavier sentence.

Altho it has not yet been decided where Pelley and Brown will serve their sentences, it was indicated they may be taken to the new federal prison at Terre Haute, which receives federal prisoners who have had no previous criminal records.

WOMAN ASSAILS SLUR OF ARMY'S MARKER HOAX

Hurt by Unfair Reflection on Loyalty, She Says.

Kiptopeke, Va., Aug. 12 [Special].—Mrs. C. Russell Bull, whose farm near here was the locale of one of the "enemy ground markers" now disclosed as a hoax, said in an interview tonight that the overzealous army press agentry was an unwarranted and unfair imposition on loyal American citizens.

One of the three pictures released by the 1st air force, supposedly showing markers pointing the aerial way to vital war objectives, was a photograph taken from the air over the Bull farm. It purported to show grain sacks arranged in the shape of the figure "9" on an open field, the trail pointing to a plane factory.

Figure Made Accidently.

Mrs. Bull explained that sacks were fertilizer bags dropped in the field from a truck last March to let the rain wash them, and that the figure was accidently made by the truck going thru a gate and making a circle. She said she and her husband knew nothing about the aerial photography nor the army's story until it was released to newspapers.

"My husband, who is a 'sport fisherman' and farmer, was born and raised on this farm, his father and grandfather lived here and all of them were loyal Americans," Mrs. Bull said. "Naturally we are hurt by any reflections on our loyalty, for there are always people willing to believe such stories however untrue. We are glad it has been cleared up but it never should have taken place."

Reports Army Investigating.

Meantime, in New York, Gen. Hugh A. Drum, commanding general of the army's eastern defense command, characterized the marker incident as without "hostile motive" and said that the release was under investigation and action would be taken with regard to those responsible. He said the case had otherwise been dropped.

The marker story was released by the air force at Mitchel field, New York, for newspaper use last Monday morning. Accompanying the story were photographs showing the fertilizer sacks on the Bull farm, an obscure clearing resembling an arrow said to point to an eastern war base, and a field plowed in the shape of an arrow presumably pointed toward an airplane factory.

Following the war department's announcement in Washington yesterday that the story "may be untrue," it was disclosed that all the pictures were taken months ago and that the army apparently had satisfied itself thru investigation that the conformations were the products of chance.

2 Army Flyers Killed at Gray Field, Washington

Fort Lewis, Wash., Aug. 12 (AP).—An army airplane crashed near Gray field last night, killing Lieut. James F. Faircloth, 22, the pilot, of Troy, Ala., and Pvt. Robert L. Gilbert of Hardinsburg, Ky.

PASTOR ON TRIAL DENIES WEARING NAZI SWASTIKA

Tells Court: Displayed U.S. Flag in Germany.

Hartford, Conn., Aug. 12 (AP).—The Rev. Kurt E. B. Molzahn, vigorously denying that he ever wore the Nazi emblem, as charged by a government witness, declared today that he pointedly displayed the American flag in his buttonhole while in Germany in 1937 so he would not be compelled to give the Nazi salute.

The stocky clergyman, fighting a charge that his parsonage in Philadelphia's Franklin Square was used as a "post office" for a Nazi spy ring, told a federal court jury that, among his reasons for wearing the red, white, and blue, was:

"I did not want to be molested by the Nazis by being forced to raise my hand."

Three Plotters to Testify.

Earlier today, Federal Judge J. Joseph Smith ruled that three men who have pleaded guilty to charges of conspiring to furnish the axis with American military secrets might testify in behalf of Molzahn. The three who will be called by the clergyman's lawyers are Gerhard Wilhelm Kunze, former national leader of the German-American bund; Dr. Otto Willumeit of Chicago, midwestern leader of the bund, and Dr. Wolfgang Ebell, El Paso, Tex., physician. All are in the Hartford county jail.

In resuming the story of his life from the witness stand, Molzahn told of declining an offer of the German iron cross, first class. He said he learned of the proffered award in 1925 thru a letter from his father in Germany.

World War Army Award.

"I wrote my father that I could not accept it because I had taken out my first papers and had pledged allegiance to this country," he asserted.

The preacher was awarded the iron cross, second class, in 1916, when he was 21 years old, for his service with the German army in the World war.

Molzahn spent a large portion of the forenoon session denying the testimony of government witnesses, including the Rev. Aleksi Pelypenko, Ukrainian Catholic priest who worked last year as a Federal Bureau of Investigation agent.

SEDITION JURY TO QUIZ LEADER OF SIX 'SECTS'

An investigation of the activities of Edwin Paul Richter, 56 years old, in sponsoring allegedly religious and marching organizations will be started today by the special federal grand jury probing sedition in the Chicago area.

A subpena issued yesterday for Richter by Judge William J. Campbell directed Richter to supply information about six religious organizations and also for the American Rangers, a private uniform group once barred from meeting in the 132d infantry armory here on grounds that its members had Nazi leanings.

Richter was also ordered to produce alleged correspondence between him and William Dudley Pelley, leader of the Silver Shirts who was convicted of sedition last week at Indianapolis and sentenced to 15 years in prison yesterday.

TEAR GAS IS USED IN MANEUVERS TO HALT ATTACKERS

Cavalry Prevented from Crossing River.

BY CAPT. M. M. CORPENNING.

[Chicago Tribune Press Service.]

Wadesboro, N. C., Aug. 12.—Red forces resorted to tear gas today in a successful attempt to prevent the attacking Blue army from throwing pontoon bridges across the Pee Dee river.

Furious fighting all along the line characterized the second day of the Blue attempt at an invasion of Red territory, the third problem in the maneuvers under way here under direction of Maj. Gen. E. J. Dawley, 6th army corps commander.

The numerically superior Blues, commanded by Maj. Gen. W. D. Critenberger, were handicapped thruout the morning by a heavy overcast which kept Blue bombers grounded. Without air support, the Blue mechanized forces were unable to force a river crossing in the face of concentrated Red artillery fire.

Rafts Turned Back.

The tear gas barrage was laid down by the Reds when a mechanized cavalry unit attempted to establish a bridgehead near the southern maneuver limits. Assault boats and improvised rafts were launched but driven back by the gas bombs.

More gas was used by the Reds during the afternoon as favorable atmospheric conditions made it an effective weapon in sections not covered by immediate artillery fire. The umpires allowed a small Blue penetration during the afternoon when cavalry men, wearing gas masks, crossed the river under protection of massed Blue fire power.

Appearance of sunshine late in the day was the signal for the release of Blue bombing planes, which immediately began attacking Red artillery positions. A highway between Morven and Wadesboro was another aerial target, and civilian spectators got a thrill watching the bombers roar by at 300 miles per hour only a hundred feet above the highway.

Pleased by Communications.

Maj. Gen. R. T. Gerow, commanding the Red army, stubbornly maintained tonight that the Blues will be kept on the eastern shore of the river in spite of the bombing. He was pleased with the operation of his communication system, which enabled his headquarters to learn promptly of the capture of a senior Red officer and to take steps leading to his rescue.

Blue forces were reported determined to throw pontoon bridges across the river under cover of darkness, and action was expected to continue thruout the night.

The men taking part in the maneuvers say the hardest job in the operation is driving heavy trucks under black-out conditions. The tanks are not so difficult, the men say, because the caterpillar treads absorb the shocks of bumps and compensate for errors in driving.

SEIZE 'BOLDEST, MOST BOASTFUL' SABOTEUR IN N. J.

Newark, N. J., Aug. 12 [Special].—Agents of the Federal Bureau of Investigation said here today they have arrested "the boldest, most boastful saboteur" yet to come their way. He is Alex Nutkowitz, 22 years old, of Passaic, N. J., who has been employed as a grinder by Electromatic Mechanice, Inc., at Clifton. He attended Purdue university in 1938 and 1939.

Nutkowski entangled a water hose in a grinding machine's gears, putting it out of operation for hours and remarking to fellow workers, "I hope the boss doesn't think that's unintentional. That's sabotage," according to the FBI men. On another occasion he squirted water into the grinder's motor, burning it out and tying up the plant for an entire day.

Tegar Jumbo Frankfurters
GOOD-BYE NOW
This'll be a shock to thousands of Chicago Epicures, Gourmets or just PLAIN people, for Tegar Jumbo Frankfurters are one of the foods that have made QUALITY history for Stop & Shop. But the man who makes them for us can't get materials that are up to Tegar quality . . . so he won't make them . . . and we won't give the name to some other frankfurter (your palate would know the difference, anyhow). So maybe for a few weeks, a few months or for the duration, Tegars will be "out." We'll have other good frankfurters and wieners . . . the best we can buy . . . and when TEGARS come back we'll be telling you in a great big way.

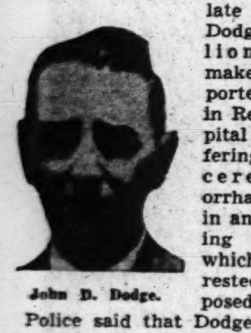
FEAR DODGE HEIR IS DYING AFTER ARREST INCIDENT

Seized as Prowler in Detroit Home.

Detroit, Mich., Aug. 12 [Special].—John Duval Dodge, eldest son of the late John F. Dodge, multimillionaire auto maker, was reported near death in Receiving hospital tonight suffering from a cerebral hemorrhage incurred in an early morning incident in which he was arrested as a supposed prowler.



John D. Dodge.

Police said that Dodge, who is 43 years old, was intoxicated and that he collapsed and struck his head on the floor of a police station while being questioned. However, Prosecutor William E. Dowling expressed the belief that some excitement prior to Dodge's arrival at the station caused his condition.

Dodge was arrested in the home of Howard E. Lange, real estate dealer who was vacationing with his wife in Canada, after police were summoned to the home at 3:30 a. m. by a neighbor woman who reported a prowler about the supposedly closed house.

Hint Disturbance in House.

Dowling said that late information given him indicated that Dodge was admitted to the home by another person, whose identity has not been disclosed. There also are indications, he said, that "there was some excitement in the house sufficient to awaken the woman next door." and added, "I seriously question the theory that excitement in the police station brought the ruptured blood vessel."

Lange, who returned to Detroit to aid the investigation, said he could not account for Dodge's presence in his home but said: "Dodge has been my good friend for 12 years and can come to my home any time he wants to whether I'm there or not."

Patrolmen Alfred Arman and Lee Brown, who responded to the neighbor woman's call, said they arrived at the Lange home just as the lights were turned on in the house and that Dodge opened the front door for them.

Charge He Was Drunk.

"The man was very drunk," Patrolman Arman related. "He said he was a guest there but couldn't explain how he had entered the house. He said he was a state policeman and that we would be fired if we arrested him. He swung at me and missed. Then Brown and I grabbed him by the arms and took him to our car."

Lieut. William Woodworth, in charge of uniformed police at the station, said that Dodge, whose identity was not immediately established, was "terribly drunk" when he was brought to the station. He said Dodge flailed his arms violently and threatened, "You are going to the sticks if you book me."

"I told Patrolman Alex Gabriault to take him to another room," Lieut. Woodworth said. "At that time I discovered, thru papers on his person, that he was John Duval Dodge. He told me, 'Now that you know who I am, I'll bet you won't book me.'

"He stiffened his legs and it was difficult for Gabriault to get him into the other room. A minute later the patrolman reported Dodge had passed out. Gabriault said he had been placed in a sitting position on the floor and that he suddenly threw himself forward, hitting his head on the floor."

Name Taken Off List.

Inspector John O. Whitman said Dodge's name was removed from the prisoners' list after his wife and his physician, Dr. Edward K. Carmichael, established his identity.

Dodge remained unconscious from the time of his collapse and at the hospital. Dr. Donald M. Morrill, superintendent, said the patient "may not live thru the day." Some of the examining doctors suggested Dodge may have suffered a stroke.

Dodge has been known as a playboy and has had other brushes with authorities over his escapades. He was reported virtually penniless in 1939, altho he had received $1,700,000 in settlement of a suit to break the will of his father who left a fortune estimated at 80 millions when he died in 1920.

The auto magnate willed his eldest son an annuity of only $150 a month for life.

5 CHICAGO BUSES TEST SYNTHETIC RUBBER TIRES

Condition After 8,000 Miles Favorable.

Twenty-eight tires constructed largely of synthetic rubber have been in regular use on five buses of the Chicago Motor Coach company for two months, Benjamin Weintraub, president, disclosed yesterday.

Synthetic rubber tire on motor coach after running 10,000 miles.

Officials of the coach company and the B. F. Goodrich company, which built 16 of the synthetic tires, said after an inspection yesterday that performance so far compares favorably with that of natural rubber tires. The 12 other tires of synthetic rubber were built by the Firestone Tire and Rubber company.

The 28 tires have been driven an average of 8,000 miles each, said Robert J. Jurgensen, operating vice president of the bus company. Four single deck buses are completely equipped with six tires each and one double deck coach has four synthetic tires on the rear wheels and natural rubber on the front wheels, he said.

Others Last 45,000 Miles.

Natural rubber tires on the coaches have an average life of 45,000 miles, so it is too early for a final judgment on the synthetic rubber, Jurgensen explained.

Bus drivers reported to Jurgensen and Goodrich officials that the synthetic rubber tires skid much less on wet streets than do ordinary tires. It is almost impossible to skid the synthetic tires even on the most slippery streets, drivers said. They added that the drivers scramble for one of the coaches with synthetic rubber on a rainy day.

The Goodrich tires were examined at the motor coach system's garage at 4221 Diversey avenue.

A. C. Kelly, Chicago district manager for the Goodrich company, said the composition of the tires is largely synthetic with a small proportion of natural rubber. The tread is entirely a synthetic product and the side walls are made from natural crude rubber. Such tires have been thoroly tested by Goodrich, Kelly added.

The synthetic product, trade named "Ameripol" by Goodrich, is manufactured from petroleum, Kelly said, thru a process developed about two years ago. The Goodrich company recently has developed tires almost entirely of the synthetic material, including side walls, he added.

4,000 Now in Use.

Such tires probably will require some natural rubber for the "binder" which cements the tread to the side walls, Kelly said. A binder of the natural product is needed because the adhesive quality of synthetic rubber is much lower than that of natural rubber, he explained.

Kelly said from 4,000 to 5,000 partly synthetic rubber tires for passenger cars, similar to the type now in use on motor coaches, have been sold thruout the country and are giving satisfactory service. He estimated such tires are 80 to 100 per cent as efficient as those of natural rubber and placed the manufacturing cost at present about 28 per cent higher for the synthetic rubber tires.

Kelly said he was not authorized to say how many synthetic rubber tires the company is producing or can produce, but added that facilities are available to construct substantial quantities.

Jurgenson said the 12 synthetic rubber tires built by Firestone appear to equal the other tires in performance to date.

ARNOLD FAVORS CARGO AIRCRAFT; 'FIGHTERS FIRST'

Approval of 70-ton cargo planes being constructed in the west coast shipyards of Henry J. Kaiser—providing they do not interfere with combat ship production—was expressed yesterday by Lieut. Gen. Henry H. Arnold, chief of the army air force.

In Chicago with Brig. Gen. David N. W. Grant, army air force air surgeon, to visit the new army air force technical schools at the former Stevens and Congress hotels, Gen. Arnold told reporters:

"I told Kaiser I'd be tickled to death to have all these planes, but I also told him their construction must be accomplished without interfering with combat plane production."

Gen. Arnold declared that several thousand cargo planes, tho not as large as Kaiser's models, were in production because of the need for them as proven in the battle to hold Crete.

Gen. Grant, who returned to Washington last night with Gen. Arnold, said that the army air force was doing superb work in utilizing all developments in medical science to select and protect pilots.

STIRRING NEGRO CHORUS TO SING AT MUSIC FETE

It Will Keep the 'Old Flag' Flying Saturday.

Festival a Sellout!

All reserved seats for the 13th Chicago Music Festival have been sold. There will be no more tickets available until 7:30 p. m. Saturday at Soldiers' field, when 10,000 general admission tickets will be offered for sale at gates 15, 16, 27, and 28.

Holders of 55 cent and $1.10 tickets are urged to be in their seats at 7 p. m. when the grand entry begins. Because this year's festival is unique and will be the most magnificent and spectacular of them all, an enormous crowd is expected to try for the general admissions. To protect reserved seat holders, this sale will not start until 30 minutes after the show opens. It is important, however, that they be in their places before 7:30 p. m. An early dinner and an early start are suggested to all.

BY CHARLES LEAVELLE.

A rousing song and a chorus of soaring voices that are credited with inspiring Chicago's most fervent war savings rally since Pearl Harbor will thrill the massed thousands at the 13th Chicago Music Festival Saturday night in Soldiers' field.

J. Wesley Jones.

The rally was held last May 27 in the International amphitheater. It was estimated that more than 9,000 persons were converted to regular bond and stamp buying.

The song was "The Old Flag Never Touched the Ground." The singers were selected from among Chicago's finest Negro vocalists and were directed by J. Wesley Jones, who is in charge of music at the Metropolitan Community church, 41st street and South Park way.

Thousand Voices in Group.

These singers and others, numbering 1,000 in all, will be directed Saturday night by Jones. They make up the festival Negro chorus, one of the outstanding organizations that have participated in all of the festivals since the first one in 1930. Their song will be heard during the grand entry ceremonies when the big show's entire cast of more than 6,000 will be massed on the field.

With the festival's 50x100 foot flag drawn across the north end of the field and at the close of the mass induction into the navy of 200 aviation cadets, the great colored chorus will swing into stirring song. The words:

"The old flag never touched the ground, boys,
"The old flag never touched the ground,
"She been in many a fix since 1776,
"But the old flag never touched the ground."

"I have been using that grand old number more than 40 years," Jones said yesterday. "It never has failed to stir deeply both the singers and those who hear it. 'The Old Flag' was written by James Rosamond Johnson, one of the great composers of our race."

Represent Many Churches.

The leading colored choirs of the area will be represented in this year's Festival Negro chorus. The churches, with their pastors and musical directors, follow:

Metropolitan Community church, the Rev. Joseph M. Evans, pastor, and Jones, Magnolia Lewis, C. V. Blackman, Halbert Landers, Susie McDonald, Cary Bell, Georgia Jones, Daisy O'Toole, and Bennie Carter, directors; First Church of the Deliverance, the Rev. Clarence Cobbs, pastor, and Maurice McGhee and Curtis Jackson, directors; Pilgrim Baptist church, the Rev. J. C. Austin, pastor, and Thomas A. Dorsey, director; Progressive Baptist church, the Rev. T. E. Brown, pastor, and Antoinette Tompkins and Luschad Allen, directors; St. Mark's Methodist church, the Rev. M. W. Clair Jr., pastor, and Walter E. Gossette, director; South Park Methodist church, the Rev. B. F. Smith, pastor, and James T. Campbell, director; West Point Baptist church, the Rev. Brown, pastor, and James A. Williams, director; Shiloh Baptist church, the Rev. Thomas E. Chapman, pastor, and Daniel Smith, director; Englewood Church of God, the Rev. P. Heard, pastor; The Young People's Community Church of Englewood, E. J. Morris Jr., director; Original Providence Baptist church, the Rev. R. W. Phillips, pastor, and John Greene, J. Upchurch, and Mae Chrisman, director; Zion Hill Baptist church, the Rev. Hawkins, pastor, and James P. Kirksey, director; The Shining Light Choral society, Tallman Thomas, director; Gammon Memorial, the Rev. D. H. Jordan, pastor, and R. T. Johnson and Ruth Jackson, directors; Greater Union Baptist church, the Rev. N. G. Henderson, pastor, and Bessie Harding, directors; Friendship Baptist church, the Rev. Twine, pastor, and Tallman Thomas, director, and the Olivet Baptist church, the Rev. Jackson, pastor, and Napoleon Reed and Theodore Frye, directors.

Jones a Leader of Race.

Jones is one of the leaders and great musicians of his race. He was born in Nashville, received his early schooling there and was graduated from Walden university before coming to Chicago to study. Since then his fame has spread nationally.

He has conducted music festivals in more than 50 cities. For two years Jones was president of the National Association of Negro Musicians and now is executive secretary.

New Ruling on Registration Spurs G. O. P. to Bigger Effort

The great Republican drive to register voters downstate under the new permanent registration act came up to a hurdle yesterday, in the form of a ruling by Attorney General George F. Barrett that neither branch offices of the county clerks' nor house to house registration is legal.

"This means that even greater efforts must be made by our party organization to bring the voters to the county seats to register," said Chairman Ben Berve of the Republican state central committee. "We are determined not to be beaten in November by the effects of this law, which inconveniences rural citizens."

Lake County Continues Branches.

In Lake county, one of those which has set up branch registration offices, County Clerk Jay B. Morse said that he will continue to use them despite the Barrett ruling.

"We have 80,000 voters and it would be physically impossible to register them all in the Waukegan office or in precinct polling places on the two days set aside by law, Sept. 19 and Oct. 6," Morse said. "With the help of branch offices we have registered about 15,000."

Attorney General Barrett's informal opinion was in a letter to State's Attorney Ward P. Holt of Marion county.

Numerous other inquiries had been received by Barrett, who is now absent on vacation. Next week he is expected to issue a formal opinion on this point, and also one on absentee voting by men in the armed services.

Concerned because county officials had predicted a loss averaging about 15 per cent in the Nov. 3 vote, the G. O. P. leaders have been giving the matter their full attention. Letters urging action have been sent to all members of the state committee, the 101 downstate county chairmen, and the 4,060 precinct committeemen of the state outside Cook county.

Democrats Fear Farmers.

That the downstate vote bulks large in the worries of the Democrats was indicated yesterday at a meeting of their Cook county central committee in the Morrison hotel. Chairman P. A. Nash ordered ward and township committeemen to begin holding meetings next week to organize a campaign for registration of unlisted voters here, where permanent registration has been in effect for six years.

"We've got to turn out an unprecedented Democratic vote in Cook county to beat the Republican downstate margin," Nash said.

State Chairman Edward P. Allen of Quincy also declared that the Democrats' big job is to overcome the G. O. P. downstate lead.

"We are depending on Cook county," he said.

Some Republican preconvention fireworks were promised yesterday by Tom Patrick, executive secretary of the Illinois Republican Servicemen's league. The day before the convention Aug. 20 in Springfield, 150 representatives of war veterans will gather to draft their own proposed plank for the G. O. P. platform.

DON'T JUST CUT RAGWEED DOWN; PULL PLANTS OUT

Under the city's new anti-ragweed ordinance, it is not enough for a ragweed grower to cut the plants down to conform to the law, they must be "pulled and destroyed," Corporation Counsel Barnet Hodes said yesterday. His opinion was in reply to questions raised by Dr. Herman N. Bundesen, president of the board of health. The ordinance requires that a property owner must destroy ragweed on his property between July 1 and 15 and between Aug. 1 and 15, each year.

DIES OF HEART ATTACK.

Mrs. Amelia Kirchhoff, 2949 North Linder avenue, died at her home yesterday apparently of a heart attack. She would have been 71 years old Monday.

BIDDLE DECLINES TO DISCUSS CASE AGAINST TRIBUNE

And Never Heard of Purge Groups Either, He Says.

[Chicago Tribune Press Service.]

Washington, D. C., Aug. 12.—Attorney General Francis Biddle declared today that he could not discuss the grand jury investigation of THE CHICAGO TRIBUNE, which he ordered, because: "We're not in the habit of commenting on a grand jury investigation."

When asked what he intends to do about "purge" organizations allegedly violating the law, he claimed never to have heard of such organizations.

On Monday Biddle was assailed on the senate floor by Sen. Robert Taft [R., O.] for announcing in advance, last Friday, that he was ordering a grand jury to investigate "certain newspapers" upon the recommendation of the navy department.

Names Are Publicized.

In his press release last Friday, Biddle did not name the "certain newspapers," but the administration made certain that their names were publicized. An official spokesman, Robert W. Horton, head of the news bureau of the Office of War Information, disclosed immediately that the investigation involved THE CHICAGO TRIBUNE, the New York Daily News, and the Washington Times Herald—all opposed by the administration and the purgers.

As to organizations attacking THE TRIBUNE and attempting to purge congressmen who opposed administration foreign policies prior to the Jap attack on Pearl Harbor, the record shows that Rep. Cliff Clevenger [R., O.] presented data on alleged violations of the corrupt practices act by two purge outfits and that Biddle answered Clevenger's letter, acknowledging names of the organizations concerned but declining to act against them.

Take Evidence Today.

When asked at his press conference today for comment on progress of the grand jury investigation of THE TRIBUNE, Biddle made his reply that he doesn't comment on grand jury investigations and then added: "I don't know why you call it the Chicago Tribune investigation. I never called it that."

The assembled correspondents laughed. Then Biddle said that he expected evidence to be presented to the grand jury in Chicago beginning tomorrow.

Asked what action he planned to take against "organizations purging congressmen," as cited in the letter from Rep. Clevenger, Biddle replied: "I don't know of any organizations purging congressmen."

Sidesteps PM Inquiry.

"That's a pretty serious charge and I'd like to know about it," he continued. "If you can furnish me a list of them, I'd be glad to investigate."

"What about PM?" inquired a reporter, referring to Marshall Field's so-called newspaper in New York which has been a leader in the purge drive.

"I didn't think of PM as an organization," replied Biddle.

Biddle claimed that he never saw the Clevenger letter. Despite this assertion, Clevenger received a reply from Biddle, signed by Biddle, dated July 31, and acknowledging receipt of the information. Biddle's reply of that date read:

"I have your letter of July 23, 1942, inclosing a portion of the Congressional Record for July 18, 1942, dealing with alleged violations of the federal corrupt practices act by the Citizens for Victory Committee and the Union for Democratic Action.

Rules Out Primaries.

"Your attention is called to the difficulty of considering such evidence of possible violations of the federal corrupt practices act at this time. Political committees within the meaning of the act are those which accept contributions or make expenditures for the purpose of influencing the 'election of candidates for federal office' but the definition of the term 'election' in the second section of the act excludes primary elections. Section 241 [2], Title II., United States code.

"For this reason it is not practical to assume in advance that the action of a political committee prior to primary elections will become violative of that act at a later date. Accordingly, the evidence you have submitted will be included in the department's files for subsequent consideration."

Stresses Political Aims.

"The aims of Citizens for Victory are now almost wholly political," said a letter from Robert Ross Jr., in charge of local chapters, dated June 3, 1942.

"We are working against the reelection to congress of obstructionists and appeasers," the letter to a Massachusetts voter continued. It then asked for the defeat of Sen. Henry Cabot Lodge Jr. [R., Mass.], and Rep. Allen Treadway [R., Mass.].

A similar letter distributed by the Union for Democratic Action included the names of congressmen on the purge list, attacked THE CHICAGO TRIBUNE, and wound up by requesting funds to finance the campaign.

In requesting Biddle to investigate these organizations, Clevenger said: "I have had the record examined and find that neither organization has filed a report of its receipts and expenditures, such as is required under the corrupt practices act. . . . It is distinctly the duty now of the attorney general to have the evidence in these cases sifted and to pursue the proper prosecution of all violators of the corrupt practices act."

The younger Shaifer, third year cadet at West Point, has chosen aviation as his career and has just returned from two months' training at the air force training center at Douglas, Ga. The youth declined to follow in the footsteps of his father, a veteran cavalryman, describing that branch of the army as "too slow."

U.S. GRAND JURY TO BEGIN TRIBUNE INQUIRY TODAY

Mitchell Confers with Navy Officers.

Presentation of evidence probably will begin today in Attorney General Francis Biddle's grand jury investigation of publication by THE CHICAGO TRIBUNE and two other newspapers of a story concerning the battle of Midway, the office of the United States attorney indicated yesterday.

William D. Mitchell, New York attorney who was named a special assistant to the attorney general to direct the investigation, arrived at his office early yesterday morning and remained until nightfall making plans for the inquiry.

Navy Officers Report.

Three naval officers, two lieutenants and a lieutenant commander, reported at the office of the United States attorney yesterday afternoon and were ushered into the suite occupied by Mitchell. The officers, whose identity was not disclosed, conferred with Mitchell most of the afternoon.

Secrecy shrouded activities in Mitchell's headquarters. Attempts to reach Mitchell were turned back by his secretary, who announced that "Mr. Mitchell is too busy to see the press."

August Jury to Get Case.

Only three or, at the most, four days will be required to present the government's evidence to the regular August grand jury, it was indicated. The regular grand jury reported yesterday morning after a recess since last Friday, but again was dismissed until this morning.

VOTE TO INDICT DICE GIRL ON MURDER COUNT

A true bill charging murder was reported to have been voted by the grand jury yesterday against blonde Mrs. Eleanor Williams, 25 years old, former 26 girl and the confessed killer of Gordon J. McNaughton, former big league pitcher, in a hotel room at 1020 Lawrence avenue last Thursday.

The death penalty will be sought, Assistant State's Attorney Julius Sherwin asserted.

Among witnesses before the jury yesterday were Bert McNaughton, 3505 Sheffield avenue, the victim's father, and Mrs. Dorothy Moos, in whose hotel room the shooting occurred.

FISH'S BIG VOTE AUGURS VICTORY IN FALL ELECTION

F. D. R. Is Beaten Again in Home District.

New York, Aug. 12 [Special].—Unofficial complete returns today gave further evidence of the smashing victories scored in yesterday's primary election by Republican and Democratic congressmen whom the New Deal and left wingers had tried to purge because they had opposed the New Deal's pre-Pearl Harbor foreign policy.

The final count showed that Rep. Hamilton Fish [R.] had rolled up a total of 17,179 votes in the 26th congressional district, giving him a margin of more than 2 to 1 over three opponents. Fish had been opposed as a prewar isolationist by President Roosevelt, Wendell Willkie, and other interventionists before Pearl Harbor.

Faces Roosevelt Friend.

Fish, who has defeated New Deal efforts to oust him from congress in five election contests since Mr. Roosevelt first became a candidate for President 10 years ago, will be opposed in November by Ferdinand A. Hoyt, a friend of the President.

Hoyt carried off the 26th congressional district's Democratic nomination in yesterday's primary with the aid of the party organizations in the district's three counties, Orange, Dutchess, and Putnam. His only opponent was Edward J. "Doc" Bowen, a perennial candidate.

Hoyt's political career has been largely confined to the precincts of Beacon, a community of some 12,000 population which is situated on the Hudson river a few miles south of President Roosevelt's Hyde Park estate.

32 Year Acquaintance.

The Beacon attorney's friendship with Roosevelt goes back to 1910, when voters of the district elected Roosevelt to the state senate and sent Hoyt to Albany as an assemblyman.

Twelve years ago Hoyt was appointed a judge of the workman's compensation court by Roosevelt, who was then governor. Hoyt had devoted the intervening years to the practice of law, as editor of the Beacon Journal, as a city judge and chairman of the Beacon Democratic committee. He recently resigned his post on the compensation court.

Against this checkered career, Fish carries into the fight a record of 22 consecutive years as congressman from the President's home district. The size of the vote for Fish in yesterday's Republican primary indicates he stands an excellent chance of reelection in this strongly Republican district.

Fish Bucks the Tide.

Fish has overridden the personally expressed opposition of President Roosevelt with whacking majorities. While Roosevelt was sweeping the country in 1932, Fish defeated his Democratic opponent by a 3 to 2 margin. He maintained that record in 1936, when President Roosevelt was reëlected a second time, and in 1938, an off year, won by almost two to one.

Election results in the district since 1932 follow:

Republican.		Democrat.	
1932—Fish	61,687	Cox	43,174
1934—Fish	50,849	Pendell	31,292
1936—Fish	72,302	Whiton	48,953
1938—Fish	67,837	Martin	35,290
1940—Fish	68,715	Stecholm	59,739

This campaign will be the last in the 26th congressional district as it is now geographically constituted, Gov. Herbert H. Lehman having signed the reapportionment measure which was pushed thru the legislature by Democratic votes last spring. The measure, effective in 1944, adds Putnam county, of which Fish is a resident, to part of Westchester county in a new district. The 26th will then be confined wholly to Orange and Dutchess counties.

This maneuver was anticipated by Fish, who countered by establishing his official residence in Orange county.

PRINCIPAL RESULTS OF FOUR PRIMARIES HELD ON TUESDAY

Following are the results of the more important contests in Tuesday's primaries:

OHIO—All of Ohio's incumbent congressmen were renominated except Martin L. Sweeney, Cleveland Democrat, who lost to Michael A. Feighan, former Ohio legislator. A five way Democratic gubernatorial fight was won by John McSweeney.

NEBRASKA—Foster May, 37 years old, Omaha Democrat, won his party's nomination for United States senator and Kenneth S. Wherry, 50, of Pawnee City, midwest director for the Republican party and state G. O. P. chairman, was the Republican senatorial choice. The nominations for governor went to Gov. Dwight Griswold, Republican, and Charles W. Bryan, Democrat, brother of the late William Jennings Bryan and three times governor.

ARKANSAS—Rep. John L. McClellan won the Democratic nomination for United States senator over Attorney General Jack Holt.

IDAHO—Sen. John Thomas, incumbent Republican, was renominated, as was Rep. Compton I. White, Democrat. Glen Taylor of Pocatello won the Democratic senatorial nomination.

BLAME IS FIXED FOR FOOD BILLS OF EDISON HOME

Trenton, N. J., Aug. 12 [Special].—New Jersey's quartermaster general's department, headed by Brig. Gen. Stephen H. Barlow of Trenton, today was blamed for the excessive food bills at Gov. Charles Edison's Sea Girt cottage last summer in a report by Adj. Gen. James I. Bowers.

The adjutant general's findings were made public by Gov. Edison, who himself blamed the quartermaster last February and directed Bowers to make a study to uncover any possible dereliction of duty. August food bills under examination totaled $5,533.76.

After studying testimony by George B. Mulligan, the governor's butler; John Lutz, chef of "the little white house," and August Giunco, Sea Girt grocer who supplied the food, the report said.

"What Mulligan, Lutz, and Giunco did does not relieve the quartermaster general's department from its obligation to you and to the state."

Altho Mulligan admitted that some bills had camouflaged liquor purchases as food, he insisted along with Lutz and the grocer that all totals were legitimate.

NORRIS NOT SURE IF HE'LL RUN IN FALL ELECTION

Washington, D. C., Aug. 12 (AP).—Sen. George Norris [Ind., Neb.] told reporters today he still had no intention of running for reëlection, but added he could not say definitely he would not be a candidate.

The results of yesterday's primary election in Nebraska have not changed his attitude so far as being a candidate for reëlection is concerned, Norris said.

"I can not say definitely, however, that I will not be a candidate because it is hard to tell what the conditions will be like in the fall," he told reporters.

PURGERS MEET INGLORIOUS END IN 4 PRIMARIES

Willkie Called as Dead as Isolationism.

[Continued from first page.]

because of the death of his 12 year old son in an automobile accident 10 days ago.

Sweeney was on the original purge list compiled by the Communist controlled so-called Union for Democratic Action and published by the left wing New Republic. Rep. Harry B. Coffee [D., Neb.] was the only other congressman on the U. D. A. blacklist who went down in yesterday's primaries. Coffee did not seek renomination, but was defeated in the Democratic senatorial primary by Foster May, Omaha radio commentator, on the isolation issue.

Wherry vs. Norris.

Coffee also was opposed by the Democratic organization, which in Nebraska consists largely of New Deal office holders. The Republicans polled a much larger vote, so that the real contest for the Nebraska senatorship will be between Kenneth S. Wherry, the Republican nominee, and Sen. George W. Norris, who is expected to run again as an independent.

Sen. John Thomas [R., Idaho] and Rep. Compton I. White [D., Idaho] also were renominated by large majorities in yesterday's primary over opponents who denounced their prewar isolationism.

In addition to Rep. Fish, New York congressmen who won renomination over opposition on the prewar isolationism issue included Rep. Edwin A. Hall, Republican, of Binghamton; Rep. Daniel A. Reed, Republican, of western New York's 43d district, and three New York City Democrats, William B. Barry, James A. O'Leary, and Martin J. Kennedy.

Only 3 Purgees Defeated.

Thus far 25 states have held primaries and only three members of congress blacklisted by the U. D. A. have been defeated. The third, Rep. Charles I. Faddis [D., Pa.], was a prewar interventionist and was opposed by the radicals because of his votes on domestic issues. The U. D. A. purge list contained the names of 3 senators and 26 representatives. Sixteen of the representatives have been renominated and 7 still face primaries in their respective states. Two of the senators, Wayland Brooks [R., Ill.] and Arthur Capper [R., Kas.], have been renominated, while the third, W. Lee O'Daniel [D., Tex.], received such a large plurality over two opponents that his renomination in a runoff is virtually assured.

In the primaries to date, 12 representatives and 1 senator, William J. Bulow [D., S. D.], have been defeated. The representatives included 7 prewar noninterventionists and 5 prewar interventionists. However, other issues were paramount in most of the campaigns in which they were defeated.

Paper Fire in Kalamazoo Expected to Rage 3 Days

Kalamazoo, Mich., Aug. 12 [Special].—Fire, believed to have been caused by spontaneous combustion, started late today in the steel warehouse of the Sutherland Paper company, filled to capacity with 4,000 tons of waste paper stock, valued at $80,000. The fire was all confined inside the structure and firemen do not expect to extinguish it in less than three days.

START CHECKUP ON RADIO STATION USE OF RECORDS

Washington, D. C., Aug. 12 (AP).—The Federal Communications commission today ordered a questionnaire on the extent of the use of recordings by standard radio broadcast stations.

The inquiry is in connection with the commission's investigation of cancellation of a proposed broadcast by high school musicians from Interlochen, Mich., as a result of a protest by James C. Petrillo, president of the American Federation of Musicians [AFL].

The information may be used also in connection with a ban ordered by Petrillo against members of the union playing for recordings for other than private use.

2 TAMMANY MEN DESERT MEAD TO BACK BENNETT

New York, Aug. 12 [Special].—A break in the ranks of Tammany delegates who were expected to vote solidly for Sen. James Mead for governor at next week's Democratic convention was reported today.

Two Tammany leaders shifted to the support of John J. Bennett Jr., the opponent of President Roosevelt's choice for the nomination. They were Daniel E. Finn Jr., a former sheriff, and Herbert L. Bruce, Negro leader.

Of the 1,014 delegates to the convention, 508 are required for nomination. James A. Farley is claiming well over 600 for Bennett, while Mead forces say they have more than 500.

Got the need?
We've got the cars!

Rationing Rules were not Meant to Prevent Replacement of Cars which are Really Needed. It Sometimes Helps More to Replace that Old Car than to Try to Keep it Running.

CONSIDER the reasons for present rules and regulations governing the purchase of new cars.

They were *not* meant to handicap owners whose cars fill necessary purposes. Nor to keep cars on the road beyond the point of safety or efficient operation. Nor to stop the normal process whereby cars pass from owner to owner and thence out of service to become much-needed scrap metal.

They were simply meant to see that cars now built and ready for sale got into the hands of those who needed them—*as their needs demanded.*

If your car serves a really necessary purpose, Buick dealers are prepared to make immediate delivery on brand-new, gas-thrifty, dependable new models *built for the purpose of seeing you through the duration.*

With such a car, you travel safely, make best use of gasoline and oil, start fresh with brand-new tires on wheels designed to get maximum life from them. For dependable performance of necessary jobs, such a car is frequently far more of an asset to the country than one which has passed its prime.

Why not drop in on your Buick dealer and talk over all details of the whole situation?

Are you included in this list?

ARE YOU directly or indirectly engaged in the production of war materials or the prosecution of the war?

•

ARE YOU a physician, surgeon, nurse, veterinarian, clergyman or farmer?

•

DO YOU use your car in public service, such as fire or police, public health, highway maintenance work or the like?

•

ARE YOU owner of a taxicab or other vital means of public transportation?

•

ARE YOU a newspaper wholesaler, or a salesman in essential fields connected with war work?

•

THESE ARE the broad groups who are eligible under present rationing rules to buy new automobiles. There are other details of eligibility, of course, but if you are included in the above, it will pay you to see your Buick dealer now and get full information. *Get the facts before you assume either that you can't or shouldn't buy a new car now!*

If you're eligible to buy—

Better Buy Buick!

Saving Bottle Caps
Will help defeat the Japs—

Uncle Sam wants this steel and Chicago people are cooperating generously in the help to save bottle caps.

You know, a bottle cap in itself is a very small item—so is a bullet, but they have potential strength in a war.

And when you go to the Tavern for a glass of **Draft** Beer, see that you get Monarch—the beer that makes you glad you're thirsty. It's delightfully different.

For home consumption ask for Monarch in quarts or half gallons. It's patriotic, economical.

RUSSIA'S CHANCES.

The war news from Russia is far from bright, but it is far less hopeless than a great many people are inclined to think. Since Sevastopol fell July 1 and the Nazi hordes opened their great drive on the Caucasus, the Russians have been able to report little but a dogged resistance and a steady retreat. The Germans have now reached the foothills of the Caucasus on the eastern shore of the Black sea, imperiling the two remaining bases of the Russian Black sea fleet. They are driving laterally across the northern Caucasus toward the Caspian in the attempt to pinch off communications to the north. And they are fighting at the approaches to the industrial city of Stalingrad farther north in the Don river bend.

The gains have been great and they are threatening. The north Caucasus was second only to the German occupied Ukraine as the source of Russian food supply. In the Caucasus is 75 to 85 per cent of Russia's oil supply. Already the Russians have been compelled to apply the scorched earth policy to the Maikop fields, which represent 7 per cent of Russian oil. The great prize, however, lies in the oil fields of Baku and the pipelines south of the mountains, and while those are not yet in Hitler's grasp, the Russian supply problem will become infinitely greater if the oil must be moved across or around the Caspian to reach the Red forces in the north.

Despite this foreboding picture, our ambassador in Moscow, Adm. William H. Standley, states that Russia has no intention of quitting and that its future prospects cannot be written off as altogether dark. The Red army, he reports, is intact, and the soviet government believes that it will remain intact. Even if it is driven further back, it can stand on the line of the Volga, the broadest natural obstacle the Nazis have yet encountered, with a good hope of maintaining that position.

The development of the campaign so far suggests that Hitler has abandoned his tactics of last summer, when he attempted to make general advances on a line stretching almost 2,000 miles from the Black sea to the White sea, and has concentrated almost his entire mechanized might and a great part of his air force in the southern drive. Marshal Timoshenko's southern army has had to bear the entire brunt of this terrific thrust, and, considering the weight thrown against it, has not fared too badly in the last month and a half.

The great danger is, not that Timoshenko's army will disintegrate, but that it will be fragmented, with one force left in the Don and Volga area, and another cut off from it attempting to hold the Caucasus mountains. The Nazis are reported to be assembling special tank and mountaineer troops to break the mountain defenses, but this line has great natural strength and may easily be held if the Russian forces are well equipped and numerous. The Caucasus defenders, even if isolated from the remainder of Timoshenko's force, can be supplied from America thru the route to the Persian gulf and across Iran which has been in use for many months.

The German position at present is awkward. There is a great bulge thrust out toward Stalingrad, with a long exposed flank, and a thin finger lower down thrust toward the Caspian. If Timoshenko can marshal men and equipment for heavy counterattacks, he may still be able to cause Hitler great embarrassment.

But, in any event, the Germans, no matter how great their successes in the south, cannot hope to convert them into the smashing decision that is necessary to knock Russia from the field. The Russian army must be destroyed before Hitler can claim victory. So far that objective is nowhere near attainment. Timoshenko's army still stands.

And to the north of Timoshenko, Budenny's army of the center, grouped in a great protective arc before Moscow, and Voroshilov's army of Leningrad and the north are still in the fight, with their offensive potential a question mark that must continually disturb Hitler. Before the Nazis can consider Russian resistance as broken all these armies must be driven from the field. Hitler himself, when he undertook this year's offensive, apparently did not consider that as a possible attainment this year. At the end of last winter he pledged that his forces would be better prepared for the coming winter.

The evidence suggests that Germany may not obtain a conclusive victory in Russia this year. For almost 14 months Russia has withstood a pressure terrible to contemplate, but it has withstood it and is still withstanding it. Whatever the immediate possibility of a European second front, the Russians must know that American and British strength will reach full proportions in 1943, as both our army leaders and Prime Minister Churchill have said for the record many times. Meanwhile, we shall undoubtedly redouble our efforts to supply the Russian armies, and the time is not too far away when darkness and weather will help protect our convoys on the northern route to Murmansk.

If Russian courage, which has for so long proved itself, is adequate to the continuing strain of a remorseless test, the Russians can know that forces as mighty as those that are grinding them now will fall upon their enemy and save Russia and all who stand beside her in danger.

THE GRASS IS VISIBLE.

About this time of the year it is generally a painful duty to call attention to the disreputable appearance of the parks on Monday mornings. Some people seem unable to learn that papers and lunch boxes do not improve the appearance of the lawns. This year a definite improvement has been observed. Perhaps the weather has had something to do with it. Maybe it's the war. We prefer to think that the explanation lies in the slow but sure processes of education.

There is still plenty of room for improvement. There are still some picnickers who haven't learned how to behave in the public parks but civilization is on the march. Let us therefore rejoice.

FAKE NEWS.

Most of the newspapers of the land published in good faith a news story and photographs released Sunday night thru the army air force at Mitchel field, New York. The story stated that enemy agents in eastern states had constructed markers visible from the air which would guide hostile bombers to important defense plants and air bases. It was said that they had been detected by the ground air support command and that after 1st air force intelligence officers and the FBI had investigated, "proper action was taken." The news photographs showed the purported markers.

Now it seems that the whole thing was not only a fake, but a fake twice repeated. The same story of the discovery of the markers was released by the same source last June and published in many newspaper feature sections. The pictures were withheld at that time as "military secrets," but were described. Last Sunday they were released.

The war department has announced that it is undertaking an investigation. It may prove difficult for the department to localize responsibility, for it develops that the story and pictures were approved in writing by the bureau of public relations of the war department at Washington after they were submitted by Mitchel field publicity officers and before they were released. It was explained rather disingenuously that the bureau of public relations certified the release from a standpoint of policy but not as to accuracy.

It is difficult to believe that all concerned did not know that a fake was being perpetrated. Two of the three markers mentioned in the army story were admittedly investigated months ago by the army and removed even tho the army was satisfied that they were products of chance. The conformation of a plowed field identified as the third marker was also assigned purely to chance.

The fake emphasizes three things. The first, and less important, is that altho the Office of War Information has been established to coördinate government information policies and to guarantee the bona fides of news officially released, there is still no more coördination among the various government informational agencies than is apparent among many other government departments and bureaus working at odds in the war effort.

But, more significantly, this strange disclosure of a deliberate news fake emphasizes the dilemma of the press. The government under the censorship has gathered into its hands an almost complete control of the war news. If, by suppression or obfuscation, or by deliberate fakery, the burocracy proves unworthy of the responsibility it has assumed, the press will not be able to fulfill its obligation to give its readers the information upon which an intelligent public opinion must be based.

There is no call upon the fighting services or the burocracy to indulge in fakery. They have the greatest story in history to report.

But perhaps the most important of all considerations in this case of fabricated news is the implied evidence of how far the disposition to smear has traveled. One of the men who would have been a traitor if the marking on his property were genuine was a life long resident of Virginia, a prominent member of his community, and an air raid warden in addition. The imputation of the original news release was that this man was a fifth columnist.

This man and others whose property initially was said to have been used for markers were the victims of character assassination, even tho, as is certain of the Virginian, they were not even political opponents of the burocracy. Any civilian may be destroyed, in the view of the smearers, if his destruction seems to fit in with their plans.

BOND SALES IN JULY.

Illinois war bond sales in July amounted to 69 million 991 thousand dollars, according to preliminary figures. This was 14.1 million dollars more than in June and 17 million more than in May. There has thus been a steady increase in this state since the treasury began a determined effort to market a billion dollars' worth of these bonds per month.

However, sales in this state did not reach the quota set by the secretary of the treasury. He called upon the people of Illinois to buy 84.9 million dollars' worth of the bonds in July, and our purchases were equal to only 82.4 per cent of that amount. That compared with an average of 90.1 per cent for the country. New York for the first time made a better showing than Illinois, with 96 per cent. It is of interest to note that the District of Columbia sales were only 82.2 per cent of the quota.

The poor showing of Illinois as compared with New York results from the fact that New York has had its quota cut during the last two months, while the Illinois quota was boosted. If the allotments for July had been set on the same basis as in May, the batting average of New York for July would have been 79 per cent and that for Illinois would have been 85 per cent. Recognition of the fact that the treasury asked more of us than could measurably be expected and less of New York than should have been asked is shown in the readjustment of quotas for August.

The increase in war bond sales in New York was in F and G series, which can be sold to wealthy individuals and institutions. The increase in Illinois, on the other hand, was for the most part in the E series, the kind which the treasury is especially interested in selling to wage earners.

July was the third month since the bond drive began. During the three months the people of New York bought 17.2 per cent of the total. That compared with 23.6 per cent of the total of the third Liberty loan drive in 1918. During the three months 8.2 per cent of the total was sold in Illinois, compared with 6.7 per cent of the total for the Third Liberty loan.

A renewed effort has been made in congress to make war bond buying compulsory. It will not be possible to head it off unless the results of the drive in the next few months are better than in the last two months. For success in reaching the quota in August, Norman B. Collins, in charge of sales in Illinois, depends chiefly upon increasing the participation in the pay roll allotment plan. In some business establishments deductions for war bonds are in excess of 10 per cent of the pay rolls. Others are nowhere near this mark. Employers in the laggard plants have a job to do of persuading their employés to participate.

British desert fighters urge that further tanks sent from here be filled with canned beer. A General Grant full of beer sounds quaint, tho beer's not the half of it historically.—Detroit News.

A LINE O' TYPE OR TWO

Hew to the Line, let the quips fall where they may. Reg. U.S. Pat. Office

SOMEBODY SHOULD.

A compatriot has asked that we today write an essay on how the parents of two small children can entertain at 7:30 p. m. dinner. This is a difficult problem and one to which we have devoted long hours of thought. Somebody should write the story of parents.

* * *

There seem to be several alternatives. The parents can entertain at 5 p. m. and put the children to bed. They can entertain at 9 p. m. after the children are in bed. They can entertain the small children. Somebody should write the story of small children.

* * *

We have consulted the several glossaries at our disposal. These include Dr. Bundesen's baby book, Who's Who on the Stage [1908], Who's Who in the Theater, the annual report of the State Street council [1941], and the complete works of William Shakespeare with the famous Temple notes. Somebody should write the story of glossaries.

* * *

We feel that Shakespeare would make little headway among the fans of the ubiquitous "Bright Sayings of Children" departments. He managed to write 37 plays without bringing in any small children. Somebody should write the story of how Shakespeare avoided it.

* * *

Who's Who in the Theater devotes half a page of fine print to Miss Fanny Brice. It states that she once played as "A Royal Slave," once as "The College Girl," and several times as a Ziegfeld girl, but it makes no mention of her rôle as Baby Snooks. Somebody should write the story of how Who's Who ignored Baby Snooks.

* * *

Dr. Bundesen's baby book is full of excellent suggestions on how to feed and entertain small children, but it does not tell how to feed parents. The Boston Cook Book does, but it ignores small children. Some one should write the story of how to get these alien forces together.

ZAMZAM.

(Author's note: Zamzam, ancient well of Mecca and name of the ill-fated Egyptian steamer sunk by Nazi raider on April 17, 1941.)

The sacred well of Araby
Served Hagar in her need.
The desert way was white and dry,
And Mecca did not heed
The voice of Hagar and her son,
Who languished on the sand.
Then there was One who heard the call
And, in the dusty land
There flowed the waters of a well—
The Zamzam, pure and cool.
Now Mecca is a place of strife
Where fiery sabers rule,
And there are those who thirst for life
Beside the Zamzam pool.

The Law of the Line or The Line of the Law.

It is respectfully submitted and we humbly pray that you organize the Line law department. You will have ample advice from associate counsel. You know our courts are human, as was established by Mr. Dooley's decision that "The constitution follows the flag and the Supreme court follows the election returns."

It is in the second part of Shakespeare's *King Henry VI.* that Dick Butcher interrupts his rebel leader, he who is telling of the pleasures to come when he is king, to say, "The first thing we do, let's kill all the lawyers."

(LEADER—Nay, that I mean to do. Is not this a lamentable thing, that of the skin of an innocent lamb should be made parchment? that parchment, being scribbled o'er, should undo a man? Some say a bee stings, but I say 'tis the bee's wax, for I did but seal once to a thing and I was never mine own man since.)

Permit us to cite Mr. Justice Gary in Kane vs. Kinnare, 69 Ill. Appellate [1896]: "One of the greatest difficulties of a nisi prius judge is to keep his mouth shut. I have had 25 years' experience of it. Many judgments have been reversed because a judge talked too much." Dixonite.

Editor's note: The Line law department today legally opens. Contributions are awaited.

TO THE POETS.

As city dwellers, pent by dust and heat,
Repair to mountain heights to slake their thirst,
To feed their famished souls, so we, fret-curst,
Come to your founts to drink your wisdom sweet.
We weary of the drab and toilsome marts;
At eventide our spirits drag, forlorn;
Then what a boon to find your songs of morn,
Of buoyant hope! You lift our drooping hearts
From bitter thoughts to psalms of love and praise;
Cares fly away and trouble seeks its den,
While joy returns to light our path again;
Our feet are set upon eternal ways.
Pure Keats, blithe Burns, and Shelley, morning star,
Desert us not, who still must travel far.

THE SLY ONSET OF HARDENING OF ARTERIES.

"WHAT is this bugaboo we call arteriosclerosis?" queried a friend a few days ago. "I wish it were only a bogey-man," I replied. "Unfortunately, it is very real and we can detect its presence and progress by certain symptoms displayed by upset organs." "But you haven't told me how it comes about and what it is," my questioner continued.

I squared my shoulders, took a deep breath and started in.

"We may describe the condition in lay language as hardening of the arteries. The inner lining of these 'pipes', which is but one cell thick, undergoes swelling. Later, fatty material is deposited followed by scar tissue. Finally, calcium [lime] collects and in due time the caliber of the vessel becomes reduced and its rubberlike character is lost. By the time this stage has been reached, definite signs of ill health may be apparent, such as pains [cramps] in the muscles at night or other indications that nutriment is lacking."

"But isn't it true," my friend persisted, "that we can get along with a much less efficient circulation?" To which I answered, "Only as we diminish activity. You must understand that all the structures of the body fed by these tubes will receive too little vital fluid for vigorous response. These rigid affairs cannot transport blood as readily as they could when they were elastic and before internal 'scale' had narrowed them. While we can save the muscles by means of rest, we must not forget that the brain, kidneys, and the heart can't perform at all well unless they obtain their due quota of nourishment.

"For example," I resumed, "take the chap whose channels within the brain have lost 25 per cent or more of their carrying ability, it is not his fault that he can't accomplish his usual tasks with ease. He experiences far greater fatigue, more lapses of memory, and in time, may develop into an irritable individual with periods of depression. Perhaps this is an extreme case but you understand what I mean."

"But what happens to the alimentary tract?" inquired my friend. "The same thing," I retorted. "Fortunately the abdominal area is about the last to be attacked by this ageing process. Digestion may be almost at par despite the fact that the conduits in other portions of the body have been injured. More often than not we can dismiss the intestinal canal from serious consideration. On the other hand, the heart may require help. There may come a time when it will operate as tho it were built of stiff, crinkly leather."

"I suppose that explains our cases of coronary occlusion," he muttered. "Exactly," I said. "Cardiac weakness is bound to follow whenever a vessel which supplies the apparatus with food fails to function at par."

"I see what you mean," he admitted, "but how can we avoid these changes? Do they come willy-nilly no matter what we do?"

"No, they don't," I answered. "They are more likely to follow a chronic infection. Overwork may also be responsible with no vacations, no play, no fun. If we use tobacco we can do so moderately. The same may be said of alcohol. Some persons will need to observe like rules concerning both tea and coffee. After middle life every one can stave off trouble with a little more rest and the cultivation of an even disposition.

"The one thing we can all practice is better elimination, daily baths, some outdoor exercise, a reasonable amount of water drinking during the day [not flooding the tissues], and a little more relaxation. There is no way in which we can add to the body's supply of rubber but we can save what we have."

VOICE OF THE PEOPLE

Writers should confine themselves to 200 or 300 words. Give full names and addresses. No manuscripts can be returned. Space for letters is obviously limited. Incoming mail far exceeds it. If a letter is not printed, attribute it to lack of room. Address letters to Voice of the People, The Tribune.

BAR ROOM BRAWL [CONTINUED].

Oak Park, Ill., Aug. 10.—Mayor Kelly's order to clean up the saloon situation opens that perpetual inane controversy, women's rights. What about men's rights? Women continually bellyache about their rights as tho men have no rights at all. Women have every right of men, plus special rights of her own.

Haven't men the right to sip a glass of beer in peace without having to look at a covey of ugly, painted Fu Manchu fingernailed, silly, chattering females? Women wear their silks, satins, furs, and jewelry. Then they wear men's clothing. Again we see them sans clothing. Have men the same rights? They have not.

Thirty years ago women never entered saloons. Then drinking was a vice. Now since women do it, it becomes a virtue. It is time us men fought for some special rights for ourselves, since the women have so many. A Bachelor.

—

Chicago, Aug. 10.—You might call to the attention of Mayor Kelly that some men are crooked in political jobs—hence, no men should be permitted to fill public office. Just as sensible, isn't it, as to prohibit women from bars because some women are a "menace"?

Two women can't stop in for a cocktail at any bar in town without risking the annoyance of men who try to pick them up. The discrimination is not even lawful. Many women prefer a table, but they don't like to have their preferences dictated. If drinking at a bar is illegal eliminate the bars. Or would that hurt business too much? Mrs. H. M. R.

—

Chicago, Aug. 10.—I don't know why Mayor Kelly is making such a grandstand play as this no drinking at the bars for women law, but we all know that it isn't going to stamp out the "hostess" evil. Every joint will now have "entertainers" and all the ex-hostesses will get up and croak a few songs and be the entertainers. Of course the entertainers must sit with the guests. Disgusted.

—

Chicago, Aug. 10.—My husband owns a tavern and I help him. I would like to know under this new ordinance just how a "barmaid" stands. When I take a drink am I supposed to walk to a table and have my drink or am I permitted to drink at the bar, being on the other side of the fence? O. N.

—

Chicago, Aug. 10.—Ladies, if you have a Bible read Paul's epistle to the Romans chapter 13, verse 13. Try to memorize it. It will help you overcome the drink habit. A Sober Sister.

ECONOMIC MORONS.

Shrewsbury, Mass., Aug. 6.—Turn the economic and other morons out!

MAIL TO THE PACIFIC BATTLE ZONE.

Somewhere in the Pacific, Aug. 7.—I am a sailor stationed abroad and helping to fight a war for what I think is right. I'm not beefing about foreign duty, but I would at least like to get my mail within a reasonable time after it is written. When I went to sea, heading for the battle of Midway, I hadn't heard from my folks for some 30 days. I found out when I returned that they had written, and frequently, too, but the mail was 40 days in getting here.

The Chicago Tribune is a fine paper and I buy one every chance I get. Of course, we only get the Sunday ones down here, but we get the paper before we get our mail, so what our folks tell us is no longer news to us. I am in the flying branch of the navy, and when we go to sea to fly and fight it is a lot easier if we know the folks back home are safe and thinking of us, and when we dive on a Jap ship we know that the folks back there are backing us up in every way. I've seen The Tribune do a lot of swell things for folks, no matter who or what they are, so I'm asking you to see what can be done about getting our mail to us, especially the mail from the middle west, as that seems to be the slowest. T. J. Bruce, A. R. M., 3d class.

ADMIRAL SHERMAN.

Lowell, Ind., Aug. 9.—I have just concluded reading Stanley Johnston's story of Adm. Sherman. Following your suggestion, I am sending it to my son in the service with this comment: "Read this and thrill to what always was, is, and will be the picture of God's greatest creation. A man in command of a ship? No! A man in command of himself."

Merritt D. Metz.

POLICEMAN'S RETORT.

Chicago, Aug. 8.—Mr. J. Brown no doubt had a brush with some policeman and perhaps got a traffic ticket that he could not get fixed by some politician; so he indicts the whole police department as stoolpigeons and grafters. I believe that the majority will agree that we could get along better with a few less J. Browns. Police Officer.

YOUR OWN TIRES.

Chicago, Aug. 6.—After all, isn't it purely a personal problem on driving your car? The tires are your own and if you want to wear 'em out, that's up to you. As to replacing them that is something else. Live Line Larry.

ANOTHER PERMIT RACKET.

Chicago, Aug. 7.—Your publication has been so courageous in exposing rackets among unions [and in the private field as well], that I thought you might be interested in a racket now going on in Cook county. It is one similar to the so-called "permit racket" of the movie union exposed in your columns.

My son works for the contractor who is building the Glenview airport for the navy. He does manual labor. For being permitted to earn a few dollars he must pay the union $10 a week each for the first two weeks he works and $5 a week each week thereafter. The payments do not entitle him to a union membership. They entitle him only to the privilege of working.

Queries—Who gets the money? Who is responsible for such a rule? Why do the contractor and the navy countenance such a rule? Does the union pay a tax on such income? Or does the union get the money? H. H.

THE JAUNDICE CASES.

Reading, Pa., Aug. 8.—I read the editorial in the Journal of the American Medical association condemning you for your critical remarks concerning the jaundice cases in the army after vaccinations. In brief: I think you are entirely right—62 deaths and 29,000 illnesses call for criticism. S. H. Imboden, M. D.

1,800,000 VISITORS.

Chicago, Aug. 10.—On Aug. 7, 1941, the Chicago Service Men's center at 176 West Washington street opened its doors to 213 service men. Since that day more than 1,800,000 service men have stepped thru its doorway. C. M. B.

CONTRACT PURCHASE.

Chicago, Aug. 6.—[Legal Friend of the People.]—I recently purchased some property on contract, said contract being made in duplicate. However, the owner of said property and myself signed only the original contract, and the copy which I received has no signatures whatever. Should not my duplicate copy of contract have been signed by both of us, the same as the original? S. M.

Yes, in the sense that it is to your interest to have a signed copy. No, in the sense that the copy held by the other party would be enforceable.

Select the answers which you consider best. The last problem counts five points. Then look for the correct answers on page 27.

1. A rapidly spinning top does not tip over because of **Gravitational force Centrifugal force Magnetic force Molecular force.**
2. A 1,000 gallon tank full of water would give the most pressure if its diameter were **10 feet 25 40 50.**
3. In which of these games does a player make a sacrifice? **Basketball Hockey Football Baseball**
4. Which one of these famous names is not associated with medicine? **Koch Mayo Watt Addison.**
5. Which famous political figure is noted for the expression "It's in the bag!" **Wilson Farley Roosevelt Coolidge.**
6. When white light is broken up by means of a prism it produces the range of colors seen in the visible spectrum. The rainbow demonstrates this same phenomenon. You can likewise witness it from the facet of a diamond. Some of the colors have a short wave length while others have a long wave. In the visible spectrum these waves range from 760 millimicrons to 385 millimicrons. In the chart below I have started filling in the names of the colors at one end of the visible spectrum. You are entitled to one point for each correct placement of the other colors. Try to remember the rainbow and you can solve this easily.

—— **Red** —— **Yellow** —— **Green** —— **Blue** —— **Orange.**

349 POLICEMEN ELIGIBLE FOR 34 LIEUTENANT JOBS

Sergeants Who Passed Tests Are Listed.

The city civil service commission yesterday announced a list of 349 police sergeants who passed police lieutenant examinations and are eligible for promotion. The examination was given to 383 sergeants in April, 1941.

There are 34 vacancies for lieutenants in the department. The list, as posted yesterday, is subject to minor changes because of a law which permits men with records for service in the armed forces to be given special credits within the next five days.

When promotions will be made and the 34 vacancies filled with new lieutenants could not be determined last night. Promotions cannot be made by Police Commissioner James P. Allman until after the five day period allowed for armed service records to be filed.

Detective Is First.

Sergt. Phillip H. Breitzke of the street detail in the detective bureau was first on the list with a grade of 89.84.

Sergt. Michael L. Spatz, aid to Capt. John C. Prendergast, chief of the uniformed force, was second. His grade was 88.99.

Third on the list was Sergt. John T. Warren of the pickpocket detail with a grade of 88.32 and Sergt. John C. Griffith, head of the pickpocket detail was fourth with a grade of 88.12.

Sergt. Thomas H. Alcock, in charge of the jewelry section of the detective bureau was fifth with a grade of 87.73.

Sergt. John J. Ryan Jr. of Englewood station was sixth with a grade of 86.58 and Sergt. Michael J. Daly, traffic division, seventh, 85.77.

Sergt. George T. Barnes, for many years head of the labor detail, was eighth on the list with a grade of 85.54. Sergt. Matthew Homer, brother of Police Captain George Homer, was ninth with a grade of 85.22 and Sergt. Leo J. Harty of the Burnside station, who is a brother-in-law of State's Attorney Courtney, was 10th with a grade of 85.21.

Others at Top of List.

Following is a list of the remainder of the 100 sergeants at the top of the eligible list in the order of their grades:

Sergt. Enright and Sergt. Graney have been assigned to Mayor Kelly's bodyguard detail for several years. Sergt. Kelly is assistant to Capt. Daniel Gilbert of the state's attorney's office. Sergt. Kells is a brother of Ald. George D. Kells, [28th].

THIEF AND GIRL FOUND GUILTY OF LOOTING HOTELS

Harvey Nelson, 18 years old, 5239 Cornell avenue, was sentenced by Judge John V. McCormick to 60 days in jail yesterday after he had admitted in court the theft of approximately $300 worth of radios and watches from several south side hotels.

Betty Gorman, also 18 and of the same address, who was seized with Nelson on a south side bridle path Aug. 10 because they both were carrying women's purses, also was found guilty. A motion for probation in her case was taken under advisement.

THE QUESTION.

What experience has made necessity become the mother of your invention?

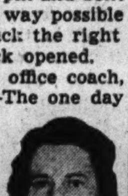
WHERE ASKED.

Bell Telephone building, 212 West Washington street.

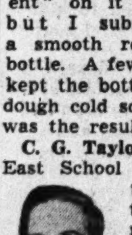
THE ANSWERS.

Mrs. J. L. Bartley, supervisor of administrative instruction, 2762 Hampton parkway, Evanston—We had to drive several miles on a flat tire. If we wanted to save the tire we had to do something original. We pulled long green grass from the roadside and packed bushels of it into the tire until it was solid enough to protect the tire from the rim.

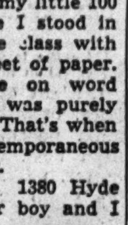
Frances Fernoch, telephone operator, 3929 North Kildare avenue—When I lost my key to the cedar chest I was almost tempted to break in when I thought of trying my luck at being a keysmith. I took a heavy hair pin and bent it in every way possible until I struck the right combination and the lock opened.



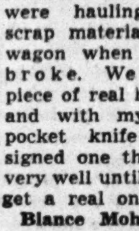
Ellen Swanson, public office coach, 6 South Mason avenue—The one day that I decided to make a pie I couldn't locate the rolling pin. Maybe others have had a "patent" on it for years, but I substituted a a smooth round milk bottle. A few ice cubes kept the bottle and pie dough cold so a better, crisper crust was the result.



C. G. Taylor, office supervisor, 830 East School avenue, Naperville—In the school days when the teacher called upon me to read my little 100 word theme I stood in front of the class with a blank sheet of paper. From there on word after word was purely invention. That's when I first learned that extemporaneous speeches weren't so easy.



Robert Baum, student 1380 Hyde Park boulevard—Another boy and I were hauling victory scrap materials in our wagon when the axle broke. We found a piece of real hard wood and with my sharp pocket knife we designed one that served very well until we could get a real one.



Blance Mohr, public office representative, 3929 Kildare avenue—In the middle of the night the baby broke her last milk bottle. I had to do something to quiet her. I discovered that I had a quart bottle on which the baby's bottle nipple would fit. In no time at all she had a bottle that was almost as big as she was.

RECORD OF 1942: MORE HOLDUPS, FEWER MURDERS

Burglaries, Larcenies Increase Over 1941.

The number of holdups, burglaries, and cases of larceny for the first seven months of this year is substantially higher than in the same period last year, according to statistics released yesterday by James P. Allman, commissioner of police. Murders, however, decreased.

There were 3,276 holdups in the first seven months this year, as compared to 2,644 last year. This was an increase of 23.94 per cent, the largest in any of the major crime classifications.

677 More Burglaries.

Burglaries were up 12.71 per cent, from 5,327 to 6,004.

There were 10,002 cases of larceny this year, against 8,641 last year, an increase of 15.75 per cent.

The police records showed only 123 murders, however. Last year there were 132. The decrease was 6.82 per cent.

No explanation was immediately available for the increases in three major crime classifications.

Two Robbery Gangs Busy.

Lieut. Kyran Phelan, head of the detective bureau robbery detail, said that the depredations of two desperate gangs of robbers probably accounted for part of the rise in the number of holdup cases. These were the Polka Dot Handkerchief and Hat gangs, each of which committed numerous robberies before they were rounded up by the police.

SCAFFOLD FALLS, PAINTER KILLED.

Vernon Mayne, 62 years old, 3145 Franklin boulevard, a city painter, fell 50 feet to his death in the 14th street pumping station yesterday when a sling supporting one end of the scaffolding slipped.

IF WOMAN SIPS AT BAR, IT'S MAN WHO MUST PAY

Penalties Aimed at Tavern Owners, Bartenders.

It won't be the women who will pay if the women are caught drinking at bars after the county and city restrictions go into effect next Monday. It will be the men, President Clayton F. Smith of the county board, announced yesterday after an analysis of the amendments.

"Arrests of women are not provided for but revocation of licenses and arrests of tavernkeepers and bartenders are," Smith said. He added the penalties in the county ordinance are $50 to $500 fines for first offenses by keepers and bartenders, and $100 to $1,000 fines, and 10 days to 6 months in jail for subsequent offenses.

The amendment to the city liquor ordinance provides fines of $25 to $200 for each violation; and each day on which an alleged violation occurs will be held a separate violation.

Smith ordered copies of the county ordinance sent to 350 licensed tavern owners in the unincorporated sections of Cook county. Copies also will be sent to all incorporated cities and villages which have their own liquor control laws.

Appeal Hearings Aug. 25.

Appeal hearings in connection with four loop taverns whose licenses recently were revoked by Mayor Kelly will be held Aug. 25, it was announced by the city liquor control commission. The taverns are the Rhumba Casino, Capitol Cocktail Lounge, Brass Rail, and Hollywood Cocktail Lounge, all owned by the same men.

The licenses were revoked by the mayor after he received a report that under-age sailors had been served drinks in the Rhumba Casino. Mayor Kelly said he also had made an evening observation tour in which he saw conditions unwholesome in wartime.

Three More Lose Licenses.

Mayor Kelly late yesterday announced revocation of three more tavern keepers' licenses. That of Edward Smith at 3012 Madison street, was revoked because he is accused of shooting and fatally wounding his brother, Jake, in the place on Aug. 4. Sam Martini Gerambia's license at 2521 Milwaukee avenue, was revoked for selling liquor after hours.

The mayor took the license from Charles Blazak because Charles Peterson, 43 years old, 2844 Mango avenue, is reported to have been drinking in Blazak's tavern at 5849 Diversey avenue before he struck and killed Policeman John O'Donnell with his car at Diversey and Kilbourn avenues, Monday.

The food license of Fred Minor was revoked because police found a 16 year old girl in the back room of his restaurant at 1609 Grand avenue.

PEDDLER FOUND LYING IN STREET DIES OF INJURIES

Stefanio Natalezio, 52 years old, 1219 Vine street, a peddler, died on his way to a hospital yesterday of injuries incurred when he was struck by a supposed hit-run driver near Sedgwick and Division streets, where he was found lying in the street.

Peter Sedlowski, 52, died in the Southtown hospital of injuries received last Monday when he was struck by an automobile in McCook, Ill. He lived at 79th street and Archer avenue in Willow Springs.

Up to 4 p. m. yesterday 441 persons had lost their lives in auto accidents in Cook county since the first of the year. Of these 342 were killed in Chicago, where 12,601 had been injured.

Tavern Employe Accused of Sales to Minor Sailors

A warrant for the arrest of Earl Francis, employé of a tavern at 9465 Cottage Grove avenue, on a charge of serving drinks to minors, was issued yesterday by Judge Cecil Smith in the Grand Crossing court after a complaint had been entered by two sailors, Robert Harrison and Gerald Donnelly, both 17 years old. The youths, reprimanded Tuesday night when they returned to their rooms at the University of Chicago campus after visiting the tavern, said they were encouraged by their superiors to file the complaint.

Friend of the Yanks

[The Friend of the Yanks department will answer questions about the draft and military service, both in the daily columns and by mail, if stamped, self-addressed envelopes are sent with the queries.]

R. J. E. writes: "I have been told the examinations given to volunteer officer candidates after their three months' basic training are made purposely difficult in order to fill the ranks with privates from men now deferred."

ANSWER: The volunteer officer candidate program for 3-A men offered by the army is not intended to be a nice, easy road to a commission. Candidates pass thru not one but several examinations and training periods. Each step of the program is designed to weed out the unfit so that those commissioned will be men fully qualified and trained to lead and direct those placed in their charge, and not merely "boss" the men because one happens to have been made a commissioned officer. Altho formal education and training undoubtedly will help the candidate a great deal in his progress, the basic requirement is good, common sense, a quick, alert mind, and a "native" capacity to lead men. Unsatisfactory or unsuccessful candidates are given a choice of remaining in the army in noncommissioned ranks or returning to civilian life to wait for their call in their normal draft order.

H. V. M. asks: "What is the salary paid a steward and assistant steward in the United States maritime service? Where does one go to enroll?"

ANSWER: The chief steward starts at $147.50 a month, and with bonuses can receive $295; the assistant starts at $132.50 and may receive $265, including bonuses; the second cook starts at $117.50 and goes to $235, and the bus boy starts at $82.50 and may get, with bonuses, $165. Enrolling offices are at Room 326, 53 West Jackson boulevard, Chicago.

F. M. H. asks: "Do we have to pay for all the dishes we break while we are on K. P. duty? This doesn't seem fair to us?"

ANSWER: The regulations state a soldier is responsible for all government property entrusted to his care. If you ever want to get off K. P. duty, you'd better be careful with those dishes. The first sergeant or higher commanding officer sometimes has authority to relieve the soldier of his forfeiture.

D. V. J. asks: "Kindly advise me if, having passed my 45th birthdate on Aug. 10, 1942, exempts me from call to active service?"

ANSWER: No. You will be called when your number comes up.

H. J. E. writes: "I thought all physicians taken into the armed services were commissioned captains? I am 32 years of age, a Fellow in the American College of Surgeons, and a member of American Board of Urology. Don't I rate anything better than a first lieutenancy?"

ANSWER: In the army, a first lieutenancy is the usual commission, and in the navy a physician, 32 years old, generally is commissioned lieutenant, junior grade.

To L. O.: Wearing official service insignia is forbidden. You should return the stripes to the man in service.

VOTE TO INDICT WOMAN NAMED IN ABORTION DEATH

The county grand jury yesterday was reported to have voted a true bill charging murder by abortion against Mrs. Katheryn Eickenberg, 58 years old, 2342 North Rockwell street, in connection with the death Aug. 4 of Miss Eva Moyer, 21, of Philadelphia.

Witnesses before the jury yesterday included Sam Ruff, 47, of 2649½ North Spaulding avenue, a taxicab driver, who told prosecutors he had taken Miss Moyer to Mrs. Eickenberg's home on three occasions in the week preceding the young woman's death.

Another witness was James Tivey, a sailor, who, Ruff said, had accompanied Miss Moyer on the trips.

Coroner Brodie Enters Hospital for Observation

Cook County Coroner Alexander L. Brodie, 52 years old, entered the Garfield Park hospital yesterday to recuperate from exhaustion and undergo observation for a week, his physician, Dr. Richard Murphy, revealed last night. Dr. Murphy said Brodie's condition was not serious.

Women in War Work . . . . By India Moffett

Miss Eloise Friestedt is an attractive young woman who, if she ever has time to think about anything other than her studies, must compare this and last summer. They are so different. Last summer she was studying at the Cape Cod Institute of Music and Art, where she had a scholarship. She specialized in art, and it is because of that that she is being trained for war work this summer in the government sponsored courses at the Illinois Institute of Technology. She will complete a course in engineering drafting next Wednesday. When she starts work she will use her knowledge of art and her artist's pencil, for she will draw pictures of equipment that will mean victory for America.

Last summer she sold a couple of water colors that she had painted during the summer to buy a ticket back to Chicago. She has done several things to pay for her art courses, including waiting on table and working in a department store, a photographer's dark room, and a phonograph needle factory. A versatile young lady, Miss Friestedt.

Miss Eloise Friestedt at her drawing board.

The Navy Wives and Sisters, associate members of the Navy Mothers' club, will hold an open house from 1 to 7 o'clock on Sunday at the club, 335 North Michigan avenue. Sailors and their wives, sisters, mothers, and sweethearts are invited. Miss Lorraine Boehnert, who has four brothers in the navy, is in charge of arrangements. She will have her fifth brother, Kenneth, as a guest, and he will do sketches of the men in uniform. He expects to be a sailor soon.

The newly organized Chicago unit of the American Victory Patrol met last night at the Hotel Sherman to hear Mrs. Douglas Buchanan, member of the executive board of the British War Relief society, explain the functioning of that society and its need for more women workers. The Victory Patrol, composed of women with friends or relatives in the fighting forces, expects to act as a reservoir for supplying all other war organizations with volunteer women workers. Miss Charlene Osgood heads the Chicago unit.

From London comes interesting information about the "flying nurses" who belong to one of the newest forces being built up in England by the women's auxiliary air force. This service is of particular interest to those Americans who know about Relief Wings, Inc., which Ruth Nichols of Rye, N. Y., has organized. Miss Nichols, former speed pilot, is convinced that air ambulance planes for immediate use in evacuating or transporting emergency and special patients by air are necessary here, and she has been working since a year and a half before the United States entered the war to promote this "humanitarian air service."

There is the nucleus of a branch of Relief Wings in Chicago, but it is not very active. Miss Nichols hopes to come here soon to spread news of the work the air service wants to do and to interest more Chicagoans in that work. Among the well known persons who are acting as sponsors of the enterprise are Mrs. Ralph Church, president of the Wellesley College Alumnae association; Miss Mildred McAfee, former president of Wellesley college and director of the new women's navy; Dr. Irene Behnke, president of the Amelia Earhart Memorial Civic club; Thorne Donnelley, and Fred A. Poor.

The English "flying nurses" number only seven now, but eventually there will be one to travel in every air ambulance in that country, so the British Information Service reports. The nurses are classed as noncombatants, so they do not wear parachutes. Twenty-two year old Anne Carpenter, one of the pioneer seven nurses, is quoted as saying that she is well satisfied with her new job, in spite of the dangers. Often she has breakfast in Scotland, luncheon in Ireland, and tea in England, for the ambulances go wherever they are needed to carry wounded to hospitals.

An air ambulance is not a very large airplane. The pilot and observer sit in front and there is room for two stretchers, one above the other. The nurse sits along side the stretchers on a wooden box jammed alongside the oxygen apparatus. She carries a small first aid kit and a small case of surgical instruments, for, if necessary, she must perform minor operations. She also has water, warm milk, and a hypodermic syringe ready for use.

Women in England are helping to operate the balloon barrage, which used to be manned entirely by men of the royal air force. The women's work includes rigging, inflating, mooring, and repairing. The girls are billeted near their stations and receive 55 to 65 cents a day. Corporals receive 95 cents. The training course is long and intensive, but when the girls finish it they know their jobs so well they could do them blindfolded.

The national headquarters of the Women's Christian Temperance union announces that funds for three more ambulances have been sent to the American Red Cross. Members of the New York and Iowa state unions raised part of the money in local drives, and the national organization also contributed to the funds. This makes five ambulances that the W. C. T. U. has given to the Red Cross, and it also has contributed a mobile blood bank. The White Ribboners also have sent money to China and England for the relief of orphans.

WILSON'S WEEKLY World Famous RECIPES By George Rector

Food Consultant to Wilson & Co.

THE MEAL HAS TWO FACES

What could be more welcome right now than a seasonable way to introduce glamour on the table without adding to the cost? That's about the only place we can get glamour without added cost. So I give you a double-duty meal. It's nutritionally balanced, yet uses one of the most inexpensive meat cuts. *Economy* is its plain, everyday face. *Flavor* is its "company-best" face. Here it is . . .

DOUBLE DUTY MENU
(Releases time for the cook)
Wilson's Certified Flank Steak Stuffed with Whipped Potatoes
Shoestring Beets
Sunburst-of-Glory Salad
Honey-Date-Nut Pudding
Milk

FESTIVE FLANK STEAK

Buy a 1½-lb. flank steak, specifying **Wilson's Certified Beef.** Cut a deep pocket in the side. Make stuffing by mixing:

½ teaspoon salt
¼ teaspoon paprika
⅛ teaspoon pepper
2½ cups mashed potatoes
1 finely chopped onion

Season steak with ½ teaspoon salt and ⅛ teaspoon pepper. Stuff with potato mixture. Skewer together or sew up pocket. Heat skillet, add 3 tablespoons of **Wilson's Bake-Rite Shortening** and heat. Dredge steak with flour and brown in hot fat. Remove steak to baking dish. Add ½ cup hot water to skillet in which steak is browned. Add one bay leaf, then pour liquid over the steak. Cover and bake for one hour at 350°. Place meat to the back of oven on the lower rack. In front, place slivered beets combined with 1 tablespoon each sugar and vinegar. Season with salt, pepper, and butter. Cover and bake with meat.

SUNBURST-OF-GLORY SALAD

Peel and slice peaches, sprinkle lightly with lemon juice. Arrange slices on a bed of crisp watercress or lettuce. A cream cheese ball rolled in chopped nuts makes a nice center. Serve with **Wilson's Mayonnaise.**

Supper-platter Supreme

For the 'nth degree in snacks! **Wilson's Certified Cervelat,** *or* **Salami,** *on rye bread accompanied by shoestring potatoes, fruit salad and prune bran muffins for salad dessert. Who could wish for anything more?*

* * *

KITCHEN QUIZ

Question—When is the less expensive steak the best?

Answer—When it's a flank steak cut from **Wilson's Certified Beef.**

Because there is no better beef in the world than **Wilson's Certified Beef.**

These are Cheese Days! It is plentiful and inexpensive. Serve **Wilson's Certified Brick or American Cheese** often.

Professional Woman's Voters Unit to Resume Discussion of Inflation

Inflation as the program subject at the last meeting of the Professional Woman's League of Women Voters was of such great interest to the members, all of whom are working women, that the discussion is to be continued when the group meets again at 7:30 o'clock tomorrow night in league headquarters, 225 North Michigan avenue. Miss Grace May, president of the La Salle Street Women, whose experience in business has qualified her to speak with authority on the subject, will appear as guest speaker. Both the Illinois and the National leagues, at their recent conventions in Chicago, placed the curbing of inflation on their programs for study and support.

Breakfast has become a more important meal, now that so many persons are engaged in defense work, which requires long hours of arduous labor. A breakfast with staying power is necessary for men and women engaged in these vital industries, particularly when they must carry lunches, or haven't access to a good lunchroom.

Breakfast probably is the best meal of the day for providing the vitamin B-1 so necessary for the health of our nerves. Whole grain breakfast cereals and vitamin enriched breakfast foods are a good and natural source.

Pancakes and waffles doused in sirup aren't the best breakfast selections, by any means. They aren't the healthful foods that cereals are.

This set of menus describes breakfasts too hearty for the sedentary worker, but just about right for the defense laborer.

BREAKFAST FOR THE DEFENSE WORKER.

[If coffee is wanted in place of milk, cook the cereal in milk.]

1. Eight ounce glass of grapefruit juice, oatmeal with raisins and top milk, poached egg in corned beef hash nest, whole wheat bread and butter, milk.

2. Eight ounce glass of fresh orange juice, cornmeal mush with top milk, liver and bacon, whole wheat or enriched bread and butter, milk.

3. Eight ounce glass of tomato juice, enriched farina with top milk, scrambled eggs with sausage links, rye bread toast, jelly, milk.

4. Half cantaloupe, cooked barley cereal with top milk, ham or bacon and eggs [poached eggs are more healthful than fried], prune muffins, milk.

5. Fresh applesauce, oatmeal with top milk, scrambled corn, eggs and cheese with sausage patties, whole wheat toast, jam, milk.

6. Fresh peaches with cream, cracked wheat cereal with top milk, poached eggs on slices of warmed liver sausage, with or without tomato sauce, enriched or whole wheat bread, milk.

7. Eight ounce glass of grape and orange juice, prepared cereal, soft cooked eggs, ham or Canadian bacon, cornbread, preserves, milk.

8. Eight ounce glass of orange and grapefruit juice, oatmeal with dates, top milk, eggs scrambled Western style with ham and chopped onion, coffee cake, milk.

In order to get the most food value out of the breakfasts, careful cooking is necessary. A double boiler for cereals and scrambled eggs is best. Tender liver from a young animal should be broiled, from an older animal it should be braised. Avoid frying of meat or eggs as much as possible. Ham, bacon, and many other breakfast meats may be broiled.

Orange, grapefruit, and tomato juices are such valuable sources of vitamin C that they should be served often, alone or in combination with other juices.

White Collar GIRL

BY RUTH MACKAY.

The Follow-up.

Does a follow-up letter, after a personal interview, tend to turn the decision in favor of the job applicant?

"How did you get your job?" I asked a young woman who holds a desirable advertising position.

"By accident," she announced.

But upon further questioning it developed, as often it does, that it was no mere accident at all. It was a convincing letter which she sent to the agency after her interview.

The circumstances were these: The advertising firm was looking for a copywriter. A placement bureau had sent numerous applicants, all of the age specified and the experience requested. Not one filled the bill. Finally the placement director—having no one else at the moment—sent the girl who later got the job. She did not have the qualifications; she wasn't the right age; she had no experience. Instead, she had enthusiasm which carried over to the letter she wrote. She told why she wanted to write advertising copy and—what's more important—why she wanted to write copy for that particular company. She showed that she knew what were the big accounts. Stranger to the business, it was no stranger to her and she proved it. As the saying goes, "she moved right in."

"O, well," you object, "it was her personality that got her the position." Perhaps so. On the other hand, perhaps it was the fact that she demonstrated that this was not just a case of *a* job, but *the* job and she was *the* girl to fill it.

The Motion Is Carried.

A note from Norma Kelley: "Can't you help a large group of working girls by putting over this motion? We will surely second it: NO TREATING FOR THE DURATION . . . PAY YOUR OWN. We all have promised to buy war stamps and bonds but continual treating of each other throws out our budget completely. We know where the quarters and dimes will do the most good and we want our excess change to go where it belongs these days."

He Knows White Collar Girls.

"Some day when you're busy house cleaning or something, would you like me to say a few words about white collar girls?" asked Rufe Pickett, collector on the 5:36 Rock Island suburban train. "I've seen the time that I would have been glad for one of you all to punch the tickets in my place."

Rufe, who comes from down yonder in North Carolina, says: "You see, the white collar girls I knew back home all seemed to have such a formal air. That, of course, was due partly to the fact that I never got acquainted with the one who ran the millinery store . . . or even had a chance to say 'hello' to the one on either shift at the telephone central. But, I'm used to them now. I reckon there are few men, who come in contact with more of them than we 'soiled collar boys' . . . and I love them all. Once in a great while one of them bawls me out—but I just figure she has a job where she comes in contact with the public and gets tired, too. The old timers back home used to say 'A woman's place is in the home,' but for me to say that all white collar girls ought to get married and that a married woman has no right to hold a job, would be just as ridiculous as the stories told by the Burlington Liars club. . . I got in by telling something absolutely true!"

Gartz-O'Brien Wedding Set for Saturday

BY JUDITH CASS.

INSTEAD of having a large wedding in Davenport in October, Miss Clare O'Brien, daughter of Mrs. Thomas J. O'Brien and the late Mr. O'Brien of Davenport and Delavan Lake, Wis., and Frederick Crane Gartz will be married quietly in Delavan on Saturday. The ceremony will take place at 4 o'clock in the rectory of St. Andrew's church, with only the families and two close friends of the bridegroom present—William B. Rawleigh and Robert Ferris.

Following the wedding, Lake Geneva neighbors of the bridegroom's parents, Mr. and Mrs. A. Frederick Gartz Jr., and Delavan neighbors of the O'Brien family will gather at the Lake Geneva Country club to drink a toast to Mr. Gartz and his bride. Miss O'Brien will be attended by her three sisters, Mary, Ann, and Eileen, and their only brother, Thomas O'Brien, will give the bride away. Mr. Gartz will have his father for his best man.

Pretty Miss O'Brien was educated at the Villa de Chantal in Rock Island, and attended Rosemont college in Pennsylvania and the Finch school in New York. Mr. Gartz prepared at the Lawrenceville school and attended Leland Stanford university. After a short trip to the north woods he and his bride will be at home in Madison, Wis., while Mr. Gartz finishes an engineering course at the University of Wisconsin. Later he will enter the navy.

The wedding will be the second one in a week for the Gartz family, which should establish some sort of a record in these hectic war days. Young Mr. Gartz's sister, Miss Gail Gartz, was married to Lieut. Clayton R. Gaylord last Saturday in Lake Geneva.

Sara Ann Eastman Engaged to Ensign Bruce Granstrom.

Ensign Bruce Austin Granstrom, who is to be the best man at the marriage on Saturday of his brother, Robert A. Granstrom, and Miss Venita Mangel, will be taking a bride himself before many months have passed. The announcement of the engagement of Miss Sara Ann Eastman to Ensign Granstrom is being made today by her parents, Mr. and Mrs. Frank Clover Eastman of Winnetka. Ensign Granstrom, who received his wings in the naval air force recently, is a son of Mr. and Mrs. P. Martin Granstrom, also of Winnetka.

Miss Eastman attended Grinnell college, and her fiancé attended Purdue university and Lake Forest college. Provided Ensign Granstrom still is at home on Sunday, Mr. and Mrs. Eastman will hold open house that afternoon.

Mrs. William Russell Walsh of Glen Ellyn, Mrs. Frank William Harvey of Wilmette, and Mrs. Charles Rowland Risdon Jr. of Detroit have gone to Camp Polk, La., for the marriage on Saturday of Mr. and Mrs. Walsh's daughter, Miss Betty Walsh, and Mrs. Harvey's son, Lieut. Thaddeus Harrison Harvey. Mrs. Risdon will be her sister's matron of honor. Miss Walsh, a granddaughter of the senior Mrs. George F. Douaire, who will be telegraphing her good wishes, attended St. Mary's at Notre Dame. Lieut. Harvey is a graduate of the University of Notre Dame, where he was a football player. He and his bride will live in Louisiana for the time being.

Helen Bebb Hench Will Be Married Saturday Evening.

Saturday is to have an unusual number of weddings for mid-August. Also planned for that day is the marriage of Miss Helen Bebb Hench and T. Scott Jones, which will take place at 8:30 o'clock in the evening in the Hinsdale home of the bride's parents, Mr. and Mrs. Jay Lyman Hench. The ceremony will be small, with the bride's sisters, Miss Katharine and Miss Fayette, as her only attendants. The Rev. Wilfred A. Rowell of Beloit, Wis., the former pastor of the Union church of Hinsdale, will officiate.

John Purdy and Frederick Castle of Hinsdale and Lieut. Carl McClure of Washington, D. C., will be ushers. Dr. Thomas Gephart of Bronxville, N. Y., will be the best man.

Here for the wedding will be the bridegroom's mother, Mrs. Pauline L. Jones of Washington, D. C.; Ensign and Mrs. Charles Doepke of Norfolk, Va., and Mrs. Charles W. Greenleaf of Leesburg, Va. Mrs. Doepke and Mrs. Greenleaf were classmates of the bride at Wells. Miss Hench will wear her mother's wedding dress of ivory satin and rose pointe lace.

Mrs. Leslie B. Olmsted, who is the general manager of the Service club's fall benefit—the opening of the Ice Follies of 1943 on Oct. 13 at the Arena—is off for a rest in Lake Geneva, Wis. While she is visiting friends she will have a chance to discuss benefit plans with the club's president, Mrs. Robert A. Cavenaugh, who has taken Mrs. Sydney Smith's Lake Geneva house for the summer.

John H. Merrells Return from Visit in Washington.

Mr. and Mrs. John H. Merrell just have returned from a visit to their son-in-law and daughter, Mr. and Mrs. Gordon Loud, in Washington, D. C. The Louds have an apartment at 3420 Prospect avenue N. W. in delightful old Georgetown.

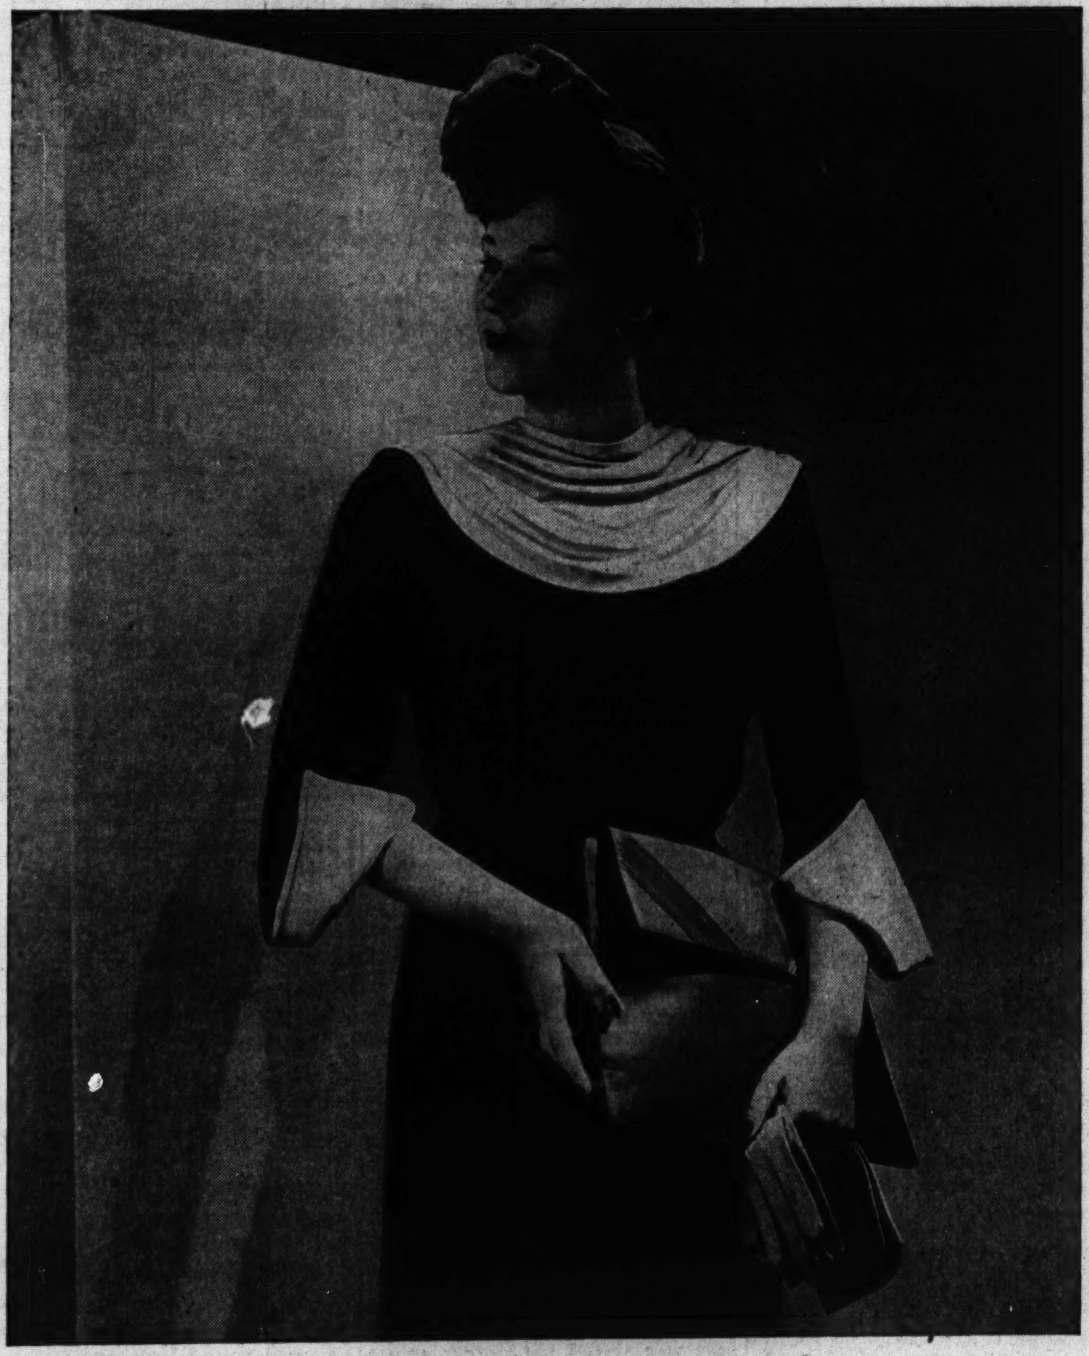
Black Wool Dress Ideal for Autumn Wear



Ideal for fall daytime wear is this slim dress of black wool in clinging silhouette, with soft collar and deep cuffs in light contrasting color. The soft twisted velvet turban dips down over the brow. The large, bright red handbag is of smooth leather, accenting the pull-on kidskin gloves. The entire ensemble is available in a Chicago shop. [TRIBUNE Studio Photo.]

Frills, Ruffles Missing in Fall Daytime Garb

BY REA SEEGER.

A certain sleek distinction marks the first fall street and daytime clothes. There are higher necklines, longer sleeves, and a definite absence of ruffles and extra frills. Suave, slender streamlines are stressed in every dress. Even tho there are pleats and fullness in the skirt, the extra inches are slimmed down with restraining bands, shirred motifs, pressed folds and other dressmaker devices that achieve slenderizing lines without adding a shadow of a bulge anywhere.

Soft thin woolens also assure that plastered-on effect, especially in the daytime dresses, woolens that drape as tellingly as satin or heavy silk. Dark shades as well as the brighter colors are designed with the same skill . . . every model a miracle of grace and streamlining, the ideal first dress for fall. Hats, gloves, and bags are dramatic accents to make ensembles for any dress up or dress down occasion. There are dozens and dozens of precisely tailored daytime dresses, the best finds for the career girls buzzing about assembling a fall and winter wardrobe while everything is new and snappy.

One piece dresses have been revived. There's something supersmart and smooth about these all in one piece affairs that no two or even three piece units can match. They're the all-American uniform idea with each dress boasting tremendous possibilities to dramatize the individual. The softer versions are extremely popular for the first buy of the season. They provide the foundation or background for furs, dashing new hat, glamour gloves, huge eye-catching bags and all the exuberant new fall colors, gold, russet, mahogany, citrus-yellow, Ming green, purple, and the blues.

Thru the Looking Glass

The girls who vacationed early are early, too, with their laments about a summer-ravaged complexion. They got sun burned and wind burned, and the skin is so weatherbeaten they feel like hags in their city dresses and hats.

The cure, they'll be glad to know, lies in oiling. Lots of it. The richest creams they can lay their hands on should be used generously, and for good measure, if they're really anxious to speed up the return to normalcy, they might combine a rich oil with these same creams, blending them to an even richer mixture.

There is one skin oil to which we are devoted. It works wonders for flaky dry skin in the wintertime, and from all reports is just as effective in soothing and smoothing the skin that has been roughened by sun. It's a light oil, with a pleasant scent, and is one of the best massage mediums we know of. It can be used nightly for an effective little lubricating treatment, and if you can leave it on while you sleep so much the better.

If the skin is very thin and dry, try this oil warm. Or, if you like, add a little of it to your favorite softening cream. Massage for as long periods as you can possibly manage, working the softener in well. And leave this on for an extra half hour while you go about your household chores. Working girls should lather their faces with it and leave it on while they bathe or read in bed.

It sends all the disagreeable little flakes of dry skin on their way to oblivion and tones down that coarsened effect that is one of the post-sunburn problems. ELEANOR NANGLE.

Park Audience Thrills to Violin of Robert Quick

BY EDWARD BARRY.

Violinists still have a soft spot in their hearts for Vieuxtemps. Some of his music has a generous admixture of what sophisticated moderns call hokum, but it springs from an enormous knowledge of the idiom of the violin and it is superlatively good as pure sound.

Robert Quick, assistant concertmaster of the Chicago Symphony orchestra, played Vieuxtemps' fourth concerto when he appeared as soloist with the orchestra under Hans Lange's direction at Grant park last night. His performance did justice to the composer's consummate skill.

Mr. Quick's tone was so pure and so dazzlingly bright that the passages especially designed to show off the splendor of sound that the violin is capable of took on all the sensuous beauty that the composer must have imagined.

And he entered fully into the spirit of the piece, and gave a convincing demonstration of the grand manner in violin playing. He allowed the rhetorical passages to sound rhetorical, and did not play them down apologetically. There were places, notably one toward the close of the middle movement, where the music took on actual grandeur as a result of the performer's sincerity and consequent persuasiveness.

The encore was Bach's Air for G String, played with an austerely beautiful tone and a simple dignity of style.

Mr. Lange and his men began the program with Borowski's modest and lyrical fantasy-overture, "Youth." After the violin solos came the Brahms second symphony.

Hearing the performance of the symphony, especially of the second movement, one was more conscious even than usual of the impossibility of describing such music making. It had an out-of-the-world quality that must baffle any attempt to reduce it to conceptual terms.

The Ravinia Festival association announced yesterday that total attendance at the 24 symphonic concerts of the 1942 festival was 72,467, only 8 per cent less than total attendance at the corresponding concerts in the banner year of 1941. This is regarded as encouraging, considering that this was the first wartime festival and that rainy weather during the last two weeks reduced the attendance. This week the Budapest String quartet is playing a series of postseason concerts at Ravinia.

War Bond Week-End.

A novel and certain to be pleasurable way of meeting Indiana's August war bond quota has been evolved by *Thomas D. Taggart*, owner of the French Lick Springs hotel. Mr. Taggart has invited some 500 Hoosiers for a stag party tomorrow and Saturday at the famous spa, where everything will be on the house, the only requisite being that each guest must agree to purchase a $1,000 bond. The scheme has the approval of the treasury department, which will send a special representative to the festivities. *Gov. Henry L. Schricker* of Indiana will be the guest of honor at dinner Saturday evening, at which *Al Wynkoop* of Lebanon will be master of ceremonies. The lighter side of the evening will be the appearance of *Lou Abbott* and *Bud Costello*, who, rumor has it, will auction their wearing apparel in a strip tease act. The comedians, incidentally, will include the French Lick stop in an itinerary that calls for appearances in 47 cities in the interest of the war bond campaign.

Appropriate.

Thanks to *Mrs. R. Gardner Kellogg* for the following timely tale, as told by the editor of the Palm Leaf Fan column in the Fort Lauderdale, Fla., News:

"The Andrews avenue bridge opened to let a Miami cabin cruiser thru and there was an appreciative wave of laughter as the stern came into view, with the name of the boat showing—*Liability*."

Rare Treat.

"One boat after another pulls up at the dock and discharges its complement of fine looking men from Abbott hall. It's Saturday afternoon and the Jackson park yachtsmen have been lending a hand by giving these boys actual experience aboard ship. My companion and I are stretched out on the club lawn enjoying the activity. From the lounge come strains of piano playing. We listen enthralled at its perfection. A group of men leave, and to our amazement we see the piano player—*Lieut. Eddy Duchin*—*Isabella Jackson*."

Busy Schedule.

His current engagement in the Mayfair room at the Blackstone winds up a 15,000 mile concert tour by air for *Carlos Ramirez*, young baritone who hails from Bogota, Colombia. In 15 weeks the singer has given performances in 19 cities of South America, the Carribean, and this country. His repertoire includes a lively number called "Hi, Neighbor," which is the theme song of a movie short of the same name in which he appeared.

What Happened to August?

Hours she spends in copious weeping,
Sometimes uncontrollably wild;
What secret is this from us she is keeping,
Summer's delightful child?

Blessed with an even disposition,
So languorous, warm and mild,
She's now heavy and dull; an inquisition
Might tell us what ails the child.
—Mary A. Ganey.

And Then Some.

The tense, near-to-tears homecoming accorded a south side sailor on his first leave in 10 months was pleasantly relieved, according to *Marion Odmark*, when a child's voice broke into the excitement, saying, "Mama, I want a Salerno butter cookie." Glancing at the radio, the sailor commented, "My gosh, hasn't that kid got that cookie in all the time I've been gone?"

This Is Sally's Baseball Party Day with Cubs

BY SALLY JOY BROWN.

[Activities of the Sally Joy Brown department are sponsored by Chicago Tribune Charities, Inc.]

Today's going to be pretty busy for me, judging from all the mail on my desk. There are certainly a large number of boys and girls in Chicago who are eager to see Gary Cooper in "The Pride of the Yankees." This morning I'll select 50 boys and 50 girls from among those who've written in, and they'll be my guests at our Palace theater party on Aug. 20. The names of the winners will be printed in next SUNDAY'S TRIBUNE, so you won't have long to wait.

This afternoon I'm going to meet all the boys and girls who have been invited to our baseball party at Wrigley field. We'll see the Chicago Cubs play the St. Louis Cardinals, and I know we'll have a grand time.

Don't forget to bring your invitations along, and try to be at our meeting place promptly, party winners! We don't want to miss a minute of the game, and we can't wait for youngsters who are late.

See you this afternoon, boys and girls!

This One Is Hard to Take, So We Have a Picture

A cross-eyed kitten whose eyes roll like marbles in a pinball machine, prowls thru the window display of Victor Histich's shoe repair shop at 4 West Chicago avenue. Ristich chose Whitie and another kitten, Queenie, from a litter of six born to a grocery store cat two months ago. Queenie's perfectly normal. Whitie's tangled eyes are drawing crowds into the repair shop, Ristich says. People can't believe their own eyes when they see Whitie's. "Whitie gets more cockeyed every day," Ristich says.

SYNOPSIS.

Covering the Spanish Civil war in Madrid, James Milcom, an English journalist with Loyalist sympathies, meets Raquel, the Condesa de Verdura, seeking a tin of milk for her starving child. Once wealthy, her beauty famous, her husband notorious for his infidelities, she now lives in a basement and her husband is in prison. James befriends her, but the child dies. He falls in love with Raquel and, realizing she is in danger because she is a White, he takes her into France near the frontier so she can be with her sister, the duquesa. Rosemary Oldhead, an English girl, is vacationing with her parents at a frontier hotel and is intrigued by the duquesa and becomes greatly interested in newspaper men and spies. Crumpaun, Canadian journalist, takes Rosemary for a trip to see the International bridge where she notices the duquesa go across it and hand a package to some one on the Spanish side.

INSTALMENT X.

ARRIVAL.

The telephone box was opposite Rex's desk, and the door had been left ajar. As Rosemary gave her message she could hear the duquesa's voice screaming a little as people are wont to scream for long distance calls. She heard cries of joy, caught the name Raquel, and to her great surprise, some sentence in English. "Si, si, come here—of course! But yes! Come tomorrow."

Her message given, and written down by Rex, Rosemary returned the long-range bows of the manager and his wife and went back into the lounge.

A few moments later the duquesa reappeared in tears but with a radiant face. She swept across the room to the lift and rang. She was giving little half sobs as she waited by the brass cage for it to descend. She was dabbing her eyes as, visible to all in the glass box within the brass cage, she was borne aloft to an upper floor. There was something curiously dramatic in this emotional exit. Crumpaun, like every one else, stared at her.

"I wonder what's up," he said.

"Some one called Raquel is coming here tomorrow, from Perpignan," said Rosemary obligingly.

The effect of this statement was electrical. Mr. Crumpaun bounced upright in his shabby leather chair.

"Raquel! Are you sure?"

"Yes—I heard her at the telephone. But why?"

"But that's the sister—the condesa! Holy Moses! Then she's alive after all! I must find out about this." He heaved himself up out of his chair, and in his turn hurried out thru the glass doors. As they swung to and fro behind him the Oldheads could hear him adjuring Rex to get onto the "Inter" and get him the Hotel de l'Europe, Perpignan, and pretty quick.

The Oldhead family had rather a good day on La Rhune. In the little mountain train they chugged steeply up to the very summit of that handsome irregular cone of grass and rock which is such a striking feature in the view from every part of the French Pays Basque. Altho clouds obscured the distance, it was sunny near at hand and warm enough to make Mr. Oldhead's photographic potterings perfectly agreeable.

The Franco-Spanish frontier passes almost over the summit of La Rhune, and Rosemary, who was now under the spell of frontiers, was able to marvel at the casualness of this section, as she had marveled at the elaborate ritual on the International bridge at Irun the day before. Except for a single wooden notice with the word "Spain" stuck up by some enterprising junior members of the nonintervention commission's observation personnel, there was nothing to show where one country ended and the other began.

Mr. Oldhead was unusually enterprising; the academic Spaniard had told him, it seemed, that if he went eastward along the ridges he would find a charming subject for a picture—a little col or saddle with coombs running down from it on both sides, studded with small trees and some picturesque and prominent rocks. They set out in search of this gem and eventually found it—and Mr. Oldhead took his photographs.

They got home about teatime, and Mr. Oldhead, who was tired and stiff, went early to bed; but Rosemary remained in the hall, in theory learning her Spanish vocabulary, in practice gossiping with Mr. Crumpaun until he was called away to bridge. So it came about that she was present when, at about 10:30, Rex opened the glass doors to admit the duquesa, James Milcom, and the Condesa de Verdura.

She looked up from her book, as one does automatically in hotel halls at some fresh entrance; noticed the duquesa, and then, since everything about that lady interested her, gazed at her companions—and saw for the first time those two faces, the long, pale face of Raquel de Verdura, and that other, lined and melancholy, with the deep-set gray eyes. It was only a brief glimpse that she got before Rex shepherded them into the glass walled lift and they were borne aloft—but it was sufficient for her. She knew at once who the woman must be, and popped into the lounge where Mr. Crumpaun, in a red plush chair, was playing bridge with the elderly clergyman and two noninterveners. Luckily Mr. Crumpaun was dummy at that moment, and she breathed into his ear—"She's come."

"Who's come?"

"The condesa—the duquesa's sister and a man."

"Spaniard?"

"I don't think so—he looked English and rather dismal."

Crumpaun burst into his loud jolly laugh.

"That'll be old Melancolico! Good for him. I heard a noise today about him coming over. They staying here?"

"I suppose so—they went upstairs."

"Well, sweetheart, now you'll meet a really good journalist," said Mr. Crumpaun cheerfully.

But actually Rosemary didn't meet Milcom for two days. To her disappointment he didn't stay at the Grande Bretagne after all, he took a room at the Poste. She saw him once in the interval, when her father took her in before lunch to his new discovery, the Café de Paris. Milcom was sitting at one of the little brown tables talking to a man from the British embassy.

Just as the Oldheads were leaving a short, rather heavily built man came in, wearing a neat urban overcoat of pepper-and-salt tweed with a velvet collar, and a black hat, which he removed with a bow on seeing Mr. Oldhead, revealing a baldish head with the remains of gray hair neatly brushed above a pale heavy face, with beaky high bridged nose and full lidded gray eyes. His face was so impassive as to be almost sinister, Rosemary thought. When they got outside Mr. Oldhead informed her that that was the academic Spaniard; and Rosemary told her mother at lunch that Daddy was quite right, and that he was exactly like a gray marble parrot.

Next morning the yellow haired Mrs. Jones rang up to invite Rosemary to 12 o'clock coffee with her at the Bar Basque. The Bar Basque was a paradise for observation and speculation, and Rosemary, having obtained the parental permission, gleefully agreed. She fidgeted a little during the end of her Spanish lesson, and when it was over fairly ran down the narrow Rue Louis XIV. and out into the Rue Gambetta.

This is the main shopping street of S. Jean de Luz, and in it was situated the Photographie La Lune, to which Mr. Oldhead entrusted the development and printing of his precious photographs. Rosemary, acting on instructions, popped in to inquire whether the preliminary prints from the La Rhune expedition were ready. Mr. Oldhead was the sort of photographer who always had a set of medium sized prints made first, to see the results of his handiwork. But she drew a blank. M. Durand, emerging from an inner room in his long blue alpaca overall, regretted infinitely, but the prints were not yet ready. Rosemary registered an instantaneous dislike of M. Durand and darted on.

Mrs. Jones was waiting for her already, sitting at one of the tables outside the Bar Basque on the pavement among the bay trees—and before Rosemary had finished panting and apologizing, Mr. Crumpaun strolled up and joined them. "Well, how's the sweetheart?" he hailed Rosemary, having lowered his comfortable bulk into a chair. Rosemary was becoming rather a pet of Mr. Crumpaun's. He liked her intelligent, amusing face and shining, elaborate coiffure, and was amused by her eagerness about everything.

He had already noted her faculty for watching and observing people, and he suspected her of putting two and two together much more smartly than her 17¾ years and her foolish curled head would lead one to expect. This was a thing which the journalist in him admired, and while Rosemary watched people Mr. Crumpaun watched her watching them and noted her reactions. Now, seeing James Milcom's tall figure crossing the road toward the restaurant, with his rather slouching walk, he hailed him, summoned him to their table, and introduced him to Rosemary and Mrs. Jones.

Mr. Crumpaun, "sticking around" as he himself described it, "with an ashcan at S. Jean, waiting for scraps," had plenty of questions to ask the younger man about conditions in Madrid and Republican Spain generally, and the conversation was at first rather specialized. Rosemary listened with all her ears, but Mrs. Jones, attending to her face and poking at her platinum hair, became rather bored. At last she broke in with an inquiry about the Condesa de Verdura, and their escape. Milcom was not very forthright, but presently he turned to Mr. Crumpaun and asked if he knew the duquesa.

"To nod to," Mr. Crumpaun said.

Ah. Milcom's eyes took on that look of desperation which really only meant that he was concentrating on something. "You've no idea how she's situated financially?" he asked at last.

"No. I'm just a guesser," Mr. Crumpaun averred. "She has all she needs and lives well, but what her bank book looks like I haven't a notion. Most of them haven't a bean. But they have ways and means. How's the condesa's?"

James suddenly smiled, a wry smile which made his gloomy dark face fascinating, Rosemary thought.

"A small competence," he said.

"Well, I dare say she'll find ways and means, too," said Crumpaun.

According to Culbertson

[Copyright: 1942: By Ely Culbertson.]

It is always a nice, comfortable feeling to have partner raise our suit bid. At least we know we have not run into the bridge player's perennial headache, a misfit. But it does not follow that we can go on bidding with impunity. Consider today's deal.

North, dealer.
Both sides vulnerable.

The bidding:

North	East	South	West
1 heart	Pass	2 clubs	Pass
3 clubs	Pass	3 no trump	Pass
Pass	Pass		

What happened to South's ridiculous three no trump contract was exactly what should have happened!

West opened his fourth best spade. East won and returned the suit. On the fourth and fifth rounds which West merrily rattled off, East discarded low hearts which of course, was an indirect request for a diamond shift. West laid down the diamond ace and followed with the nine spot; thereupon East cashed six diamonds. South, at the end, sheepishly raked in two tricks, for a 700 point penalty.

North's remarks, altho pointed, were hackneyed and need not be repeated. South defended himself by mumbling that he would have run if he had been doubled [which brought an appreciative titter from the defenders]. South further maintained that he had figured six sure club tricks, and had *hoped* that these would be enough if North had stoppers in the other suits.

South's hope had been a bit optimistic. North had bid quite properly; in fact, exactly according to the book. [The opening bidder must raise his partner's minor suit take-out when holding three and one-half or more honor tricks, and the K-J-x, or better, of responder's suit.] Obviously, North's hand conformed exactly to these specifications. But the responder [in this case South] then must pass if unable to make a major suit or no trump bid, except with a very strong hand [three or more honor tricks], in which case he should rebid his suit. Of course, that word "unable" may be ambiguous. My own opinion is that South was *unable* to bid three no trump without a face card in spades, hearts, or diamonds, but apparently South himself thought otherwise!

THE QUESTION

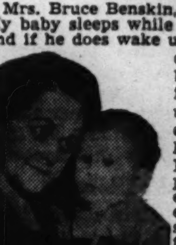
What do you like the most about the Drive-In Theatre?

THE PLACE

THE DRIVE-IN THEATRE

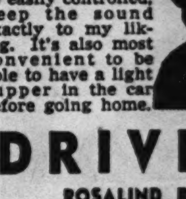
THE ANSWERS

Mrs. Gretchen Vreeland, 2959 Malvina Ave.: We started to come early in the season because of the convenience to a shut-in member of our family. The elimination of walking and waiting was a great joy—and the fresh air and informality made show-going so easy and comfortable. I don't like double features and I love the outdoors—so the Drive-In became a family habit without the slightest question.



John Ferianchik, 925 N. Damen: I can smoke all I want to—and wear informal clothes. That's real relaxation and comfort after a hard day. Moreover, the Drive-In gives me a chance to get some real cool country air. Another reason I like the Drive-In are the extra shorts. They're better than a double feature and I can't see enough of them.

Mrs. Bruce Benskin, 7221 N. Bell Ave.: My baby sleeps while we see the show—and if he does wake up and is restless it doesn't bother anybody. The fine air is good for all of us. My husband doesn't like "seat-kickers" and the Drive-In gives real privacy. It's the only place for parents who want to see a show in comfort. We love the Drive-In for that reason most of all!



Mrs. Minnie Paul, 3919 Pine Grove: I like the sense of space. The Drive-In seems to dignify the pictures by having nature the scene-maker. The privacy almost makes the car my own little theater and the acoustics are simply marvelous—the individual speakers, so easily controlled, keep the sound exactly to my liking. It's also most convenient to be able to have a light supper in the car before going home.

New War Film Has Adventure and Excitement

"ATLANTIC CONVOY."

Produced by Columbia.
Directed by Lew Landers.
Presented at the Oriental theater.

THE CAST.

Capt. Morgan	Bruce Bennett
Lida Adams	Virginia Field
Carl Hansen	John Beal
Sandy Brown	Clifford Severn
Gregory	Larry Parks
Eddie	Stanley Brown
Bert	Lloyd Bridges
Otto	Victor Kilian
Commander Von Smith	Hans Schumm
Gunther	Erik Rolf
Radio operator	Eddie Laughton

BY CECIL SMITH.

If it's adventure and excitement you are looking for, "Atlantic Convoy" has it. There is more action in this tale of American airmen assigned to Iceland to protect allied convoys than in all the other war pictures on the loop screens put together. The story moves swiftly and is engrossing thruout. All the parts are uniformly well acted and intelligently directed. The photography and sound are excellent. In short, "Atlantic Convoy" is a good investment for your money.

John Beal, a straightforward and capable actor, appears as a weather forecaster at an Iceland post. He is something of a mystery man, for some dark record of treachery looms unclearly in his past. I think you will enjoy finding out how he outwits a German plan of destruction and clears his own record by revealing his true colors and his dauntless courage.

Also you will find Virginia Field charmingly natural and easy to look at, and will lament, as she probably did, that her rôle has not more to it. Bruce Bennett does a creditable job as the American commanding officer, and Clifford Severn acts flexibly and with volatility the part of a horrid rat of a cabin boy.

Up to now, in my first week of pinch hitting while Mae Tinée takes her vacation, I have had to warn you to stay away from all the latest war pictures. It is a pleasant change to be able to recommend "Atlantic Convoy" as a picture that gives unqualified pleasure.

"A YANK IN LIBYA."

Produced by George M. Merrick.
Presented by Producers Releasing corporation.
Directed by Albert Herman.
Presented at the Woods theater.

THE CAST.

Herbert Forbes	H. B. Warner
Mike Malone	Walter Woolfking
Nancy Brooks	Joan Woodbury
Benny Sykes	Parkyarkarkus
Sheik David	Duncan Renaldo
Sheik Ibrahim	George Lewis
Yussof Streyer	William Vaughn
Philip Graham	Howard Banks
Raditha	Amarilla Morris

The time honored formulas of the western movie—hand to hand fights, with the hero tossing 10 men around with ease; horses galloping across trackless wastes, and quick gunplay—are here transplanted to the sands of Libya for one of the stupidest and most crudely produced pictures you are likely to run across. There is not a moment of good acting from start to finish, and the clumsy artificiality of the dialog beggars description.

DORIS BLAKE'S LETTER BOX

Have you a perplexing problem on which you need friendly counsel? Write to Doris Blake in care of the Chicago Tribune, Tribune Tower, Chicago, Ill. If you wish a personal reply, inclose a stamped, self-addressed envelope.

Childish Infatuation.

"Dear Miss Blake: I am 17. He is 23 years my senior, and has proposed to me several times. He's a widower with two children, a boy, 19; a girl, 16. Should I introduce him to my parents and tell them of our plans to marry? PERPLEXED ALICE."

You're only a child, infused with foolish romantic ideas. So maybe your parents will forgive you for becoming entangled in such an obviously misfit situation—if you'll listen to their good advice.

Merely Be Friendly.

"Dear Miss Blake: He is 18, my sister 17, and I am 15. We both have taken an interest in him, but he seems to like my sister better. Please advise. LAST SAINT."

Just be friendly to him, as you are to other boys you know. You're a bit too young for dates. And you and your sister will have to agree not to cross each other's paths when boys are involved.

Words of a Weakling.

"Dear Miss Blake: He says he loves me, but will never stop gambling, for it is in his blood. Do you think it is wise to go out with him steadily? "FRECKLES."

He sounds like a weakling to offer that excuse for not giving up gambling—which so often causes unhappiness. So why court trouble by seeing so much of him?

Your Stars ★ Today ★

Thursday, Aug. 13.

Here's a day when the middle course is not too easy to find and follow, but it's definitely one when deviation from it will be expensive. Avoid both heavy pessimism and the desire to thrash around for the mere sake of action or emotion.

Your Year Ahead.

Your year ahead, if born on this date, offers more harmony in emotional and love life—adjust, clear away secrets. Occupational problems lessen. From mid-June care with friends. Danger: Nov. 25-Dec. 2; Mar. 24-Apr. 5; July 31-Aug. 8.

Tomorrow.

Temptation to move too far and too fast—hold back a bit.

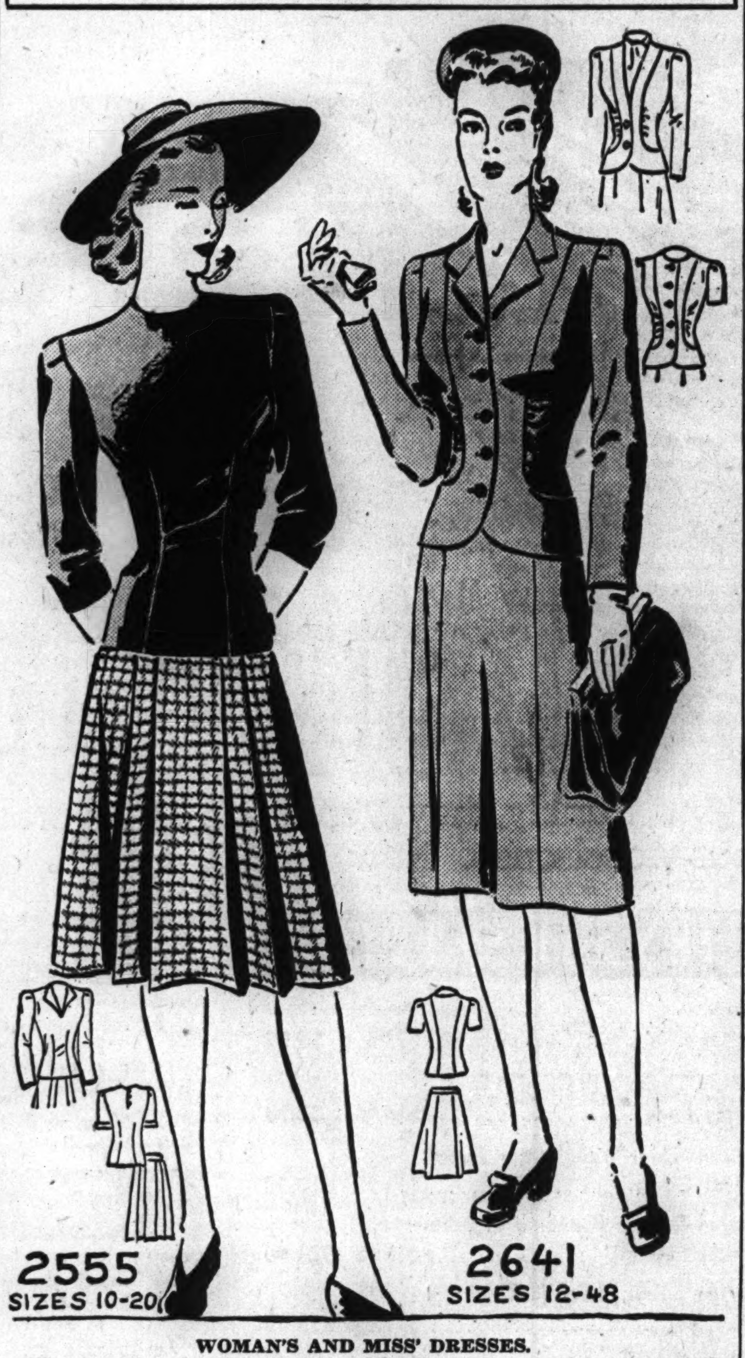
The Two-Piece Fashion



WOMAN'S AND MISS' DRESSES.

The two-piece look is smart for fall. Both these models promote the jacket and skirt idea. The frock at the left has a high, round, collarless neckline, smooth bodice lines, and moderately plaited skirt. The second frock has notched rever collar, bodice shirrings, sculptured fit, and slim skirt.

Style No. 2555 is designed for sizes 10, 12, 14, 16, 18, and 20. Size 16 requires 1¾ yards of 35 inch material for blouse and 2⅝ yards of 39 inch for skirt.

Style No. 2641 is designed for sizes 12, 14, 16, 18, and 20, and 36, 38, 40, 42, 44, 46, and 48 inch bust measurements. Size 36 requires 2⅝ yards of 54 inch material.

Each pattern costs 10 cents, plus 2 cents to cover mailing cost.

Address orders for Clotilde patterns to Chicago Tribune, P. O. Box 537, Grand Central annex, NEW YORK CITY, including 10 cents in stamps or coin, plus 2 cents to cover mailing cost (coin preferred—wrap it carefully), for each pattern ordered. IMPORTANT: Be sure to state clearly, the number of the pattern and the size desired and write your name and address plainly. The summer pattern book costs 15 cents, 10 cents if ordered with a pattern.

Looking at Hollywood

By Hedda Hopper

Hollywood, Cal., Aug. 12.—Met up with good looking John Gunther, journalist and author who's forever writing the "inside" on countries, and asked him what "inside" he knew on this town. Seems Darryl Zanuck asked Gunther, who has been touring army signal corps camps, to write a signal corps story. He's doing that now with Mickey Uris. Besides which, he's writing the commentary on "Thunderbirds," Twenty Century's story of allied war pilots. He's working with Anatole Litvak and Frank Capra on the war documentary these two are doing, which is expected to be one of the best films to come out of this war. Also, when time permits [his and hers] he's beauing about Bubbles Schinasi, who leaves for New York at the end of this week.

False Alarm.

Director E. H. Griffith is hard at work on the new Fred Astaire picture, "Look Out Below," which he'll make at his old camping ground, RKO, with David Hempstead producing, and Johnny Mercer tapping out the tunes. I asked Fred about the rumor that he won't dance in this one. He says 'tain't so. He plays a flyer. Says story's more serious than his usual type of picture, and that's why he likes it. He's feeling fine these days—weighs 131 pounds, and has weighed just about that for 20 years, despite all his dancing—or maybe because of it. Says his golf game's off, and he wouldn't be surprised if his young sons could beat him. They haven't shown much interest in dancing. But more than anything, Fred's interested in the war, and would love to be a flyer, old as he is.

Praise from the Top.

Republic got, by cable, the foreward to its picture, "Flying Tigers," from Generalissimo Chiang Kai-shek. It reads: "Since the Flying Tigers first spread their wings above China, the enemy has learned to fear the intrepid spirit they displayed in the face of his superior numbers. They have become the symbol of the invincible strength of the forces now upholding the cause of justice and humanity. The Chinese people will preserve forever the memory of their glorious achievements." . . . "Ice-Capades" has lost two more skaters to the service—Pierre Benoit, Canadian champion, and Robin Lee, American star. . . . Universal is losing 15 out of 50 of its stunt men within the next weeks to the service, so now's as good a time as any, it figures, to start doing movies that don't call for hard knocks. First will be a series of psychological murder mysteries of the "Night Must Fall" type, in which the murders are quiet, sly affairs, with only the stars cracking safes and skulls. . . . John Edwards' latest is about the meek little man reading a Berlin paper and mumbling to himself, "All this trouble on account of one man!" A gestapo agent collared him, asking, "Who's that you're speaking of?" "Winston Churchill," replied the little man. And as he was released, added, "And just what man did you think I meant?"

For Whom the Bell Tolls.

Caught Gracie MacDonald preparing to start a tour with Groucho Marx, minus his moustache. "I thought Harpo was going, too," she sighed, "and I bought a cowbell to tie around his neck, so I'd know where he was. Now he isn't going, but I'm going to hang it on Groucho for good luck!" . . . Two major studios are dickering with Lester Cutler for his producer services, now that he's finished the musical "The Yanks Are Coming" in such short order. It takes an independent every time to show the majors how to save money. . . . Alex Minotis, husband of Katina Paxinou, who's starring in "For Whom the Bell Tolls," has turned down offers for film rôles. They've been called the Lunts of Greece.

The Lowdown.

Stanley Cortez, camera man who did "The Magnificent Ambersons" for Orson Welles, says of the picture as it's shown now, "My heart bled when they cut it from 12,000 to 7,000 feet, dropping one of the best emotional scenes ever put on celluloid. You can say lots about Orson, but one thing's certain—he's no phoney." Cortez is now doing "Flesh and Fantasy." . . . Ella Logan's daughter, 11 year old Annabelle, plays Judy Garland's sister in "Presenting Lily Mars." . . . Immediately after Pearl Harbor, Donald Crisp turned his yacht Zahama over to the navy. Now his ranch in the Santa Monica mountains is a military observation post, and Donald has converted one of the main buildings, at his own expense, into a barracks for the men stationed there. Meantime he's back at Warners, in "Adventures of Mark Twain." . . . Jeanette MacDonald got back from her tour of the army camps yesterday, tired but happy—especially since she found four letters and three cables from Gene Raymond, and he's finally received her letters.

Attention, Please!

Have you got your pencils handy? All right then. Jackie Cooper went dancing at the Mocambo with Sally Wadsworth, former girl friend of Jack Briggs, who is the former boy friend of Bonita Granville, who is Jackie's best girl and a close friend of Sally, whose former boy friend, Jack Briggs, is one of Jackie Cooper's best friends. That's all! . . . Bruce Cabot and Marie McDonald are a new twosome. Marie says she's "mad about the man." [Well, ask any girl—who wasn't, at first?] Asked her what she was reading these days. "Shakespeare, for my diction, but for fun, I read love stories Bruce buys for me." Shucks! He's gone literary on us. I didn't know he ever bought a book. I knew him when he was an elegant cowboy, riding blooded horses—preferably those belonging to Jock Whitney. . . . Twentieth Century plans to name its artificial lake Power lake in honor of Tyrone.

Parents Must Help a Child Pick Friends

BY GLADYS HUNTINGTON BEVANS

[Copyright: 1942: By News Syndicate Co., Inc.]

Many parents of teen-age daughters will, I am sure, say "Me, too," when they read the following letter, because it mentions two difficulties that are fairly usual, and which, for a reason, go hand in hand. That is to say, girls who are young and have gotten a little wild because of poor home influence, are quite likely to go in for heavy makeup to attract attention and because they want to appear sophisticated.

"Dear Mrs. Bevans:

"Will you kindly send me advice on understanding the adolescent, any information you can give me on handling a 15 year old girl as to the proper picking of her girl friends and how to make her see the right and wrong way of too much makeup? It is a constant argument in our home because our daughter uses lipstick thick, as she says all her friends do."

To this I sent the following reply:

"It is a little difficult to advise you about how to help your daughter to choose the most desirable sort of girls as friends, because young people in their teens resent this sort of thing if it is done too often and in a direct, interfering sort of way. It seems to me, however, that there is a number of things that will influence any girl. One of these is the good taste which she finds exercised in her own home. Another is the kind of friends her parents have. Still another factor is the chance that she should be given to measure up her friends, by inviting them freely into her home. You are right, this is a very important matter. I am sure you know the old-fashioned saying: 'Show me your friends and I will tell you what you are.'

"However, grownups have to bear in mind that sometimes what makes a friend seem undesirable to them is a quality not even noticed by the son or daughter of the family, and one which may be a very superficial thing; while on the other hand, the young friend in question may be jolly, witty, full of ideas for fun, generous and loyal. After all, adolescent children do not look for the same things in their friends that we look for. Still, parents must have influence; and I believe it is a great safeguard for them to know the young friends of their teen age boys and girls, and to know them in the home setting.

"As to makeup, I think it should be very easy to influence your daughter not to use heavy makeup or lipstick. You can do it on several grounds. One is that if they will observe the leading film stars in their most charming characterizations, they will notice that heavy makeup [lipstick, mascara, and deep eyeshadow] have been completely discarded. Also, you can point out that it is neither smart, artistic, nor grownup to overdo makeup."

The teens are a very experimental age for these young people, and we can help them most by sympathetic guidance rather than by laying down laws and giving orders.

Is the intelligence test a permanent guide to a child's mental limits? How can the teacher hold the interest of children in studies? Answers to these and scores of other problems are given in "Talks with Teachers," new 28 page booklet by Gladys Huntington Bevans. Get your copy today at the Tribune Public Service offices, 1 South Dearborn street and Tribune Tower. Price, 5 cents. Postpaid, 7 cents.

Wedding

Miss Mary McCarthy, niece of Dr. A. H. Mason of Chicago, went to Seattle, Wash., for her marriage to Ensign Thomas Sullivan of the naval air force when Ensign Sullivan was given a leave last week. After a week's wedding trip on the coast the bride will return to Chicago to resume her studies at Northwestern university and her teaching at the Immaculata High school, while Ensign Sullivan returns to active duty. The bride is the daughter of Mr. and Mrs. Frank McCarthy of Chippewa Falls, Wis., the former home of the bridegroom's parents, Mr. and Mrs. Thomas Sullivan, who now live in Seattle.

Kitchen Embroidery Motifs

Soldier Has Right to Love Girl at Home

BY DORIS BLAKE.

[Copyright: 1942: By News Syndicate Co., Inc.]

There are fine lads in Uncle Sam's forces. We all know how they're pitching in with everything they've got to do a good job of defeating our enemies. But there's a softer side to their natures, a side that has such strength that it can make a "superman" of any one of them. It's love that does it.

It's up to the many wives and sweethearts at home to keep that love burning in the hearts of the men who have to fight with not one bit of doubt in their hearts about their beloveds' belief in them. It's just as important that men in the armed forces have faith in their wives' and sweethearts' love, for such a faith will keep the home fires burning.

So why, then, should love be sacrificed? No reason at all. Here is a letter from an army private. If readers have anything to add to our answer to it, please write to us.

"I am 1,800 miles from home, and expect to be sent overseas shortly to combat duty. Since I would not want a girl as wonderful as my fiancée is to keep faith in a boy who may never return, I feel that she should be given her release from the promise she made me. I also feel she should go out and find love with another young man, who is deeply in love with her, too, altho she does not care for him. I am in a daze trying to find a solution to this problem, and since a war marriage would only make the problem more difficult, I should like you to tell me what to do."

Answer: How do you know you won't return? Lots of men will and you might be one of the lucky ones. Anyway, you've a right to your love, and she to her love for you. You're wrong to be so self-sacrificing, even tho love prompts it. You're doing enough. Even tho you don't marry her before you leave, go away believing in her, yourself, and your future together. You can tell her, if you like, that you want her to go out for pleasant times so as not to be lonely, but tell her you will be thinking of her wherever you are. Be even more romantic and ask her to think of you at a certain time each day, for that's the time you'll be thinking of her.

The Housewife

A number of liquid cleaners now being made are excellent for rugs and heavy upholsteries but can't be used on rayons or satins. Therefore, it is helpful to know there is an all-purpose cleaner that will do both jobs. And it won't harm colors that are fast to water, its makers assert. Use it on linen and suede shoes, on mirrors and windows, on felt hats, painted walls, blankets, and woolens as well as on upholstery and rugs. Full directions are given with each package. It contains no soap and is not inflammable. EDITH WEIGLE.

RECORD 101,200 TO ATTEND ALL-STAR GAME

THE AMBASSADOR WINS $38,954 HAMBLETONIAN STAKE

TAKES LAST TWO HEATS; PAY UP SCORES IN FIRST

Favorite Runs Out in All Tests.

Goshen, N. Y., Aug. 12 (AP).—Bill Strang, the Brooklyn storage and trucking man who has spent a small fortune seeking a Hambletonian winner, reached his objective today when The Ambassador led 10 other 3 year old trotters home at Good Time park.

With 69 year old Ben White handling the reins for his third triumph in the rich stake, The Ambassador won the second and third heats after Pay Up, owned by Robert Horace Johnston of Charlotte, N. C., had taken the first brush around the three sided track.

With the victory went revenge for the decision hung on Strang's His Excellency last year by Johnston's Bill Gallon. His Excellency won one heat of the 1941 race, but yielded to Bill Gallon in the other two tests. Today, The Ambassador, half-brother to His Excellency, finished fifth in the first heat as Pay Up trotted the mile in 2:06 to win in a photo finish.

Ambassador Wins Last Two.

The Ambassador won the second mile in the same time. Seven Up, lightly regarded trotter owned by Lieut. Ebby Gerry of the army air corps, took runner-up honors with Pay Up in the picture for third money. But White left nothing for argument in the third heat as The Ambassador pulled away to win in 2:04.

Colby Hanover was the biggest flop to the crowd, estimated at 12,000 to 15,000. The champion 2 year old of 1941, which had trotted a mile in 2:03 this year, was made the odds-on favorite for the first two heats and heavily supported in the third. But he never was a factor, finishing eighth, 11th and 10th.

In taking down $20,489.91, the winner's share of the $38,954.38 purse, The Ambassador justified the confidence placed in him when Strang took him out of the 1940 Walnut Hall yearling sales for $5,000. He was lame last year and didn't start and in his only previous effort this season won one heat at Old Orchard Beach, Me.

Long Shot Players Win.

With Colby failing his supporters, the long shot players cashed in on every heat. Pay Up paid $23.90 in winning the first dash; a $2 ticket on The Ambassador in the second returned $68.20 and one on him in the third was worth $8.40.

Even the second and third horses, for the most part, were outsiders. Scotland's Comet, owned by Thomas Thomas of Cleveland finished second to Pay Up in the first and returned $32.40 and $16.10 to place and show, respectively, while George L. Hempt's Follow Me of Camp Hill, Pa., showed a $16.20 mutuel.

The longest odds were $79.10, returned by Seven Up for finishing second in The Ambassador's first triumph.

The final standings gave Pay Up second money; Scotland's Comet, third; Seven Up, fourth; Follow Me, fifth, and Mabel Hanover, sixth.

WISCONSIN GAINS TWO PLAYERS BUT ALSO LOSES PAIR

Madison, Wis., Aug. 12 [Special].—Both good and bad news came today to Harry Stuhldreher, Wisconsin's football coach, as he prepared to meet his 1942 squad on Sept. 1. Elroy Hirsch, Wausau half back, and Fred Negus, a center from Martin's Ferry, O., passed summer school courses to clear up their eligibility status. Both will be sophomores. Gene [Pat] Lyons, Horicon end, and Rodney Liljequist, of Wausau, outstanding freshman full back last fall, are lost to the 1942 team. Lyons is giving up football because of a heavy schedule in the engineering school. Liljequist has joined the marine corps.

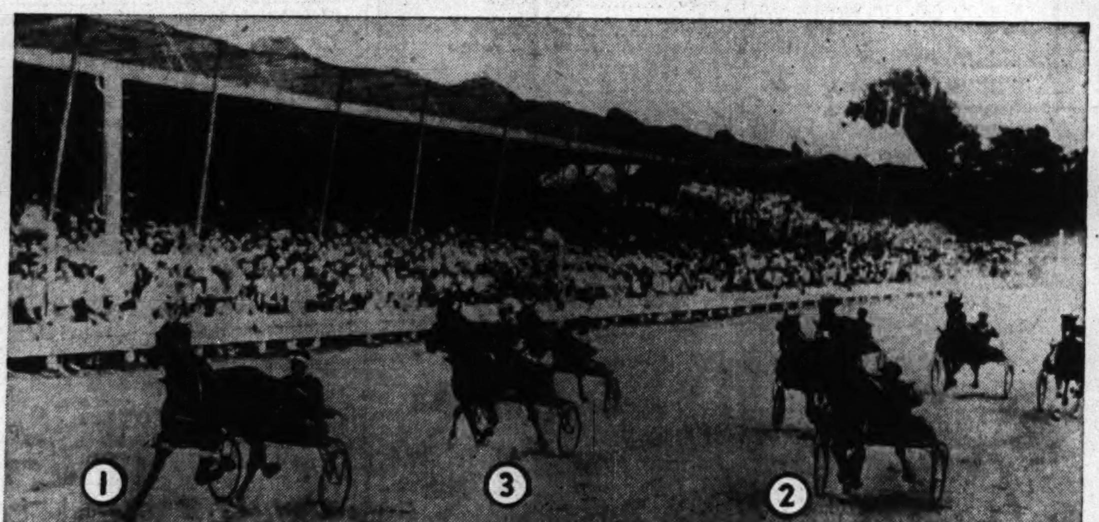
The Heat That Paid Off in Hambletonian



The Ambassador (No. 1), owned by Bill Strang, Brooklyn trucking and storage man, wins the third heat of the $38,954.38 Hambletonian trotting stake at Goshen yesterday to couple it with victory in the second heat for first place. Scotland's Comet (No. 2) was second and Seven Up (No. 3) third in this heat. Ben White handled The Ambassador which won $20,489.91 for his owner. [Associated Press Wirephoto.]

MRS. MANN WINS 2 UP MATCH FROM GEORGIA TAINTER

BY CHARLES BARTLETT.

Mrs. Russell Mann, defending champion and current medalist, still was very much on the premises of the Sunset Ridge Country club last evening as the second round of the 42d annual amateur tournament of the Women's Western Golf association was concluded. But the alert and pleasant lady from Omaha was well aware that seven other parties were still very much around as the tournament headed for this afternoon's quarter-final phase, and each of the septet was obviously determined to stymie her road to a third WWGA amateur title, not to say a second in succession.

Mrs. Mann, recovered from the effects of a jittery start in her first round victory over Betty Jane Hemerle of St. Louis on Monday, played far more elegant golf yesterday in a 2 up conquest of the talented young Georgia Tainter of Fargo, N. D., a 1941 semi-finalist. The Mann game sagged a trifle in the middle of the back nine, where she permited a 3 up advantage to dwindle to nary by the 17th tee, but a par and a birdie on the last two holes gave her the margin she deserved for a couple of short putt croppers earlier in the match.

8 Players, 8 States.

The quarter-final survivors, including Mrs. Mann, constitute an ideal geographical key to the WWGA's organization, since they embrace eight states. There is Mrs. H. M. Sims of St. Paul, who yesterday engineered a mild upset with a 2 and 1 ouster of blonde Marjorie Row of Detroit, the Michigan champion and recent Western Open semi-finalist. Mrs. Sims thus arranged for herself a date with Mrs. Mann in the first of this afternoon's matches.

If the Mann-Tainter match proved to be all expected of it for most of yesterday's round, the fourth match of today's set should draw the bulk of attention from the galleries. It sends Betty Jameson of San Antonio, Tex., against Dorothy Kirby of Atlanta, Ga. If those names strike you familiarly, you might recall the National women's final of 1939, in which Betty won the first of two titles in that league with a 3 and 2 victory over the girl member of Atlanta's golfing threesome of Jones, Yates, and Kirby. Miss Jameson, winner of the 1942 WWGA open at Elmhurst in June, is no stranger to the amateur winner's side, either, having scored two years ago.

Miss Wall vs. Miss Doran.

Before the Jameson-Kirby rivalry returns to the tee, however, there are two other matches, in which the contestants are assumed not to be out for fresh air. One will bring Mary Agnes Wall of Menominee, Mich., last year's runner-up for the championship, out against Claire Doran, daughter of

Jim Daniell, Ohio State tackle, is the second member of his family named to a starting position in the game. . . . His brother Averell, former Pittsburgh tackle, opened against the Green Bay Packers in 1937. . . . Averell now is line coach at West Point. . . . Charles Judd Ringer, Minnesota end, will report for active duty in the naval air corps at Iowa City two days after the All-Star game. . . . Bob Jeffries, Missouri guard, spent the summer working in a Kansas City defense plant, but he has enlisted in the army air corps and hopes to be called next month. . . . Steve Juzwik, Notre Dame half back, entertains members of the squad with piano selections during evenings. . . . He also plays the accordion. . . .

Two linemen—Jack Stephenson, Ohio State tackle, and Vic Lindskog, Stanford center—name colored stars as their favorite athletes. . . . Stephenson chose Jesse Owens and Lindskog picked Joe Louis. . . . Lindskog won a heavyweight Golden Gloves championship. . . . Bob Robertson, Southern California half back, and Pete Kmetovic, Stanford half back, also were star performers in rugby on the Pacific coast. . . . Len Levy, Minnesota guard, has been a member of two unbeaten Gopher elevens and also won two national wrestling championships. . . . The favorite athlete of Jim Brutz, Notre Dame tackle, is Chuck Sweeney, Irish end, who started for the College All-Stars against the Washington Redskins in 1938. . . .

Doug Renzel, Marquette full back, has a brother, Ralph, in the navy as an ensign. . . . Doug has been accepted for marine corps training as an officer. . . . Steve Lach, Duke half back, says his greatest thrill in college football occurred when he scored the first touchdown against Oregon State in the Rose bowl game at Durham, N. C., last New Year's day. . . . Photography is the favorite hobby of Bill Dudley, Virginia half back, who led the nation's scorers last season. . . . Vincent Banonis, Detroit center, spent the summer working in a Ford Motor company plant in Dearborn, Mich.

Old-Timers' Corner.

'Smatter with A Knox Teke, who wanted to know if any one had been contributing to the Wake longer than he had—1928? In the same column was a contribution by Jazbo of Old Dubuque, who was a Waker long before we heard of Teke, n'est-ce pas? Then there are a lot of old-timers from whom we haven't heard in ages—frinstance Peg O'Ravenswood. Then, too, there was that Milwaukee Jack—that's I, whom Harve Woodruff favored from time to time. Why not roust out some of the real old-timers, perhaps they'll dust off a few of the old jokes, perhaps the one about the two sardines and one smelt.

Jazbo's Journal.

I have read that the public ought to understand that the best of the meats today is being sent to the army and to complain about your steak being tough amounts almost to lack of patriotism. To do away with the steak I had last night I'd have to have more than patriotism. I'd have to have an electric drill.

It isn't the matter of a second front that's worrying some women. It's that second chin.

And as Ernie Kretz advises, "Don't buy a bond as if you were doing somebody a favor. Buy it as if you realized you were being allowed a great privilege.—Jazbo of Old Dubuque.

On Soldiers' Field.

On Soldiers' field the lines will form
On August twenty-eight,
And issues will be settled there
That most momentous date.
The favorites of the nation's fans,
The All-Stars that we chose
Will charge against the Champion Bears,
Pride of the mighty pros.

And war will seem a far off thing
While eager thousands cheer
At feats of skill reserved for this
The battle of the year;
But here we'll learn to trust our boys
Who fight the while they play
With rugged wills in contest trained
The true American way.

For Waterloo, 'tis said, was won
On Eton's playing field,
And triumph will be his whose strength
Is deep in honor steeled.
Of vaster lift than widespread wings,
More tensile than the tank,
The spirit of our youth moves forth
In one unbroken rank.

CUBS LOSE 2 TO CARDS, 9-4, 8-3; NEAR 7TH PLACE

Lee, Fleming Help Make It 4 Straight Defeats.

BY EDWARD BURNS.

The Cubs yesterday made headway in their drive for seventh place as they lost a double header to the St. Louis Cardinals, 9 to 4 and 8 to 3, while the present seventh placers, the Boston Braves, were taking a pair from the New York Giants. The Cubs are only 2½ games from their apparent goal and should make it, feet first, well before they open their September salary splurge.

It was the third straight loss to the Cards, the 11th of the season for Chicago in 15 engagements with St. Louis and the sixth straight they have lost to the big leaguers from St. Louis in Wrigley field. The current Cub losing streak stands at four straight. It is the third four game losing streak accruing to the Chicagoans in three weeks.

11th Defeat for Bill Lee.

Bill Lee and Johnny Beazley were the starting pitchers in the first game, but neither finished. Lee, however, got marked for his 11th defeat and Beazley was credited with his 13th victory. Five of the Cards' runs were off Lee. Hi Bithorn yielded four runs in wading to the finish and Murry Dickson, the Card finisher, stood the Cubs on their heads.

Les Fleming, Dick Errickson, and Tot Pressnell pitched for Chicago in the second game and were nicked for 13 hits. The Cubs made eight off Harry Gumbert, who went all the way for his sixth 1942 victory.

FIRST GAME

The Cubs leaped off to a two run lead in the second inning of the first game, producing same on four singles. After Dom Dallessandro had tapped to Frank Crespi, Clyde McCullough and Phil Cavarretta singled. Charley Gilbert whiffed, but Len Merullo singled to right, McCullough scoring. Lee then smashed a single off Martin Marion's glove, Cavarretta scoring from third.

The Cards grabbed three runs in the third when John Beazley and Terry Moore singled and scored on Johnny Hopp's triple. Hopp got home on Stan Musial's short fly to Gilbert.

Cubs Score in Fourth.

McCullough and Cavarretta functioned again in the fourth and the Cubs scored once. McCullough beat out a high bouncer and went on to second when Crespi threw the ball into the dugout. He scored on Cavar-

SOLDIERS' FIELD CLASH TO DRAW $300,000 GATE

Army, Navy Funds to Receive $160,000.

BY ARCH WARD.

Benj. F. Lindheimer.

The All-Star football game between the College All-Americans and Chicago Bears in Soldiers' field the night of Aug. 28 will draw a gate in excess of $300,000. Attendance will exceed 101,000, a new record for football's most spectacular event.

A crowd of 98,203 saw the Bears defeat the All-Stars a year ago. Installation of temporary seats on top of the horseshoe at the south end of the stadium and on the ground in front of the horseshoe will increase the capacity to 101,200. It is unlikely that any other game in the United States this season will attract a throng to equal it.

More important, the 1942 All-Star game will produce more revenue for war charities than ever has been raised by a sports event. The total donation to Army Emergency Relief and Navy Relief will approximate $160,000.

Lindheimer Gives $900 More.

The $100,000 campaign for Army Emergency Relief already is 10 per cent over its goal. The fund this morning amounts to $109,800 and it is still growing. Contributions will be accepted until the day before the game. For every $100 donation, Chicago Tribune Charities, Inc., sponsor of the contest, will award the donor with a seat on the 50 yard line. Among the recent benefactors of the fund is Benjamin F. Lindheimer, prominent Chicago race track executive, who increased his contribution from $500 to $1,400.

All tickets at $4.40, $3.30, and $2.20 have been sold. There are 8,500 still available at $1.10.

Victory Ball Bond Sales $14,125.

In addition to its direct contribution to war charities the All-Star game is stimulating the purchase of war bonds. Announcement was made last Sunday that the "Victory Football" used in the game will be awarded to the person who purchases the greatest amount of war bonds before noon Aug. 27, the day before the contest. The first three days of the competition produced $14,125.

At the moment the ball belongs to Thomas E. O'Neill, 219 East North Water street, Chicago, who on Tuesday bought $2,100 worth of bonds. Nobody came close to his bid yesterday. The highest purchase recorded at The Tribune Public Service office, 1 South Dearborn street, was $1,000 by Mrs. Estelle Lenard, 4754 South Harding avenue, Chicago.

HOLD FIRST SCRIMMAGE

BY WILFRID SMITH.

Bob Westfall, Michigan's smashing full back, ran for two touchdowns, Bill Dudley of Virginia, dashed for another, and Henry Stanton, Arizona end, caught a scoring pass. These four touchdowns were the product of the first scrimmage in the All-Star's camp yesterday as the boys prepared for their engagement with the Chicago Bears in Soldiers' field Aug. 28.

Westfall turned on the power which made him famous at Michigan for the last three years. From two intricate formations, he split thru the line and was away for runs of forty-two yards and forty-five yards, respectively. Each ended behind the goal line. Westfall's shiftiness in the open field was responsible for the long gains, but his mates blocked

They're Getting Ready—Are You?

Yes sir, the All-Americans are practicing at Northwestern university . . . the Chicago Bears are hard at work in Delafield, Wis. . . . They won't need a ticket to get into Soldiers' field the night of Aug. 28, because they have work to do as rivals in the ninth annual College All-Star football game. . . . It will be your pleasure and if you haven't your ticket, time is fleeting. . . . Over the counter NOW at these places and this price:

Tribune Tower, 9 a. m. to 5:15 p. m.
1 South Dearborn, 9 a. m. to 7 p. m.

~~$4.40~~, ~~$3.30~~, ~~$2.20~~ and $1.10

The special campaign for the purpose of raising

—$100,000—

is over the top, but $100 contributions still are being accepted. Donors will receive a ticket on the 50-yard line for each $100, with every cent going to the fund.

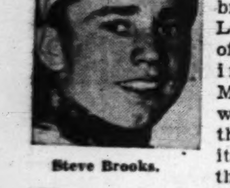
BROOKS WINS 5 OF FIRST 6 RACES AT WASHINGTON

Unquote Runs 3d to Break String of Victories.

BY HOWARD BARRY.

Steve Brooks celebrated his 21st birthday yesterday by riding five winners in the first six races at Washington Park. He climaxed this performance by bringing home Lotopoise at odds of nearly 10 to 1 in the $4,000 Modesty Stakes, while Waygal, the 4 to 5 favorite, was finishing third.



Steve Brooks.

The only break in this succession occurred in the second race, when Brooks finished third aboard Unquote. His other two mounts, Torch Stick in the seventh and Tacheone in the eighth, ran tenth and sixth, respectively.

This riding feat equaled any that has been put on in recent years on Chicago tracks. Brooks went well during the Hawthorne meeting last fall, and he has been doing some strong riding this season, but his work yesterday was just about the best he's ever delivered.

Starts with Philadelphia.

Brooks' victories began with Philadelphia at $5.20 in the first race. Then came his ride in the second on Unquote, which paid $4.40 to show. He resumed his winning form with Burgoo Mary at $7 in the third, then moved thru the fourth, fifth, and sixth with Sweep Through at $56.40, Hoosier at $8.20, and Lotopoise at $21.60.

Brooks always has been noted for his strong finishes and he was called upon to deliver the goods in the stretch repeatedly yesterday. Philadelphia was a horse which had run second repeatedly but never had been able to win. Brooks kept him going right to the finish to score by a length and a quarter over Marchon.

Works Hard on Long Shot.

Burgoo Mary was under severe pressure in the straightaway with Angel challenging boldly. But here Brooks' horse had a margin of a length and a half. With Sweep Through, the 27 to 1 shot, Brooks had to put everything he had into his ride to get the horse up in the last stride to beat High Name by a nose. In the fifth he chose his path with nice discretion and, saving ground all the way, landed Hoosier on the finish line with the margin of a neck over Burgoolette.

In the Modesty stakes with Waygal at 4 to 5 and Emolument at 3 to 1, Brooks' mount, Lotopoise, was in for a tough assignment. Again Brooks used good judgment in picking his path in this dash of a mile, getting thru along the rail inside of the early pacesetter, Questvive. He brought Lotopoise on in the stretch to win by a length and a half while Questvive was maintaining a margin of a length and a half over Waygal.

Stadium Gets Zale, Abrams Bout Sept. 18

The 10 round overweight bout between Tony Zale, middleweight champion, and Georgie Abrams, previously scheduled for Comiskey park, will take place in the Chicago Stadium Sept. 18, it was announced last night.

Arrangements for the transfer were made by Arthur Wirtz, vice president and treasurer of the Stadium, in a conference in New York with Mike Jacobs. The card will be a USO benefit and is to be offered under Jacobs' auspices.

Another star who will appear on the card is New York's Ray [Sugar] Robinson, sensational lightweight.

Harvey Dubs, Windsor, Ont., welterweight, last night was substituted for Joe Dupont in an eight round contest against Bill Jordan in Marigold Gardens Monday. In another eight round match Lou Woods, Detroit middleweight, will replace Mike Sopko against Tito Taylor. . . . George **Becker**, New York heavyweight wrestler, will meet Walter Palmer in the windup bout of Fred Kohler's mat program tonight in Rainbo Fronton, 4836 North Clark street. The card was postponed from last night because of the black-out.

MATCHES FACE COLORED TEAM.

The Harlem Hot-ten-tots, a colored team, will play the Match Corporation of America men's team in a softball game tomorrow night at Harlem avenue and Harrison street.

101,000 WILL SEE ALL-STARS FACE BEARS ON AUG. 28

Record Throng to Provide Gate of $300,000.

[Continued from first sports page.]

perfectly to get him beyond the line of scrimmage.

Coaches Laud Dudley's Work.

Dudley's touchdown sprint, the second of the four scoring plays, was acclaimed by the coaches. The Virginia star proved that he belongs in the select group upon which Head Coach Zuppke and his assistants will depend in the game in the lakeside stadium. Dudley ran thirty-seven yards to score and he side stepped the safety with a sharp change of pace.

Stanton caught his touchdown pass on fourth down, a wide toss that escaped the defending half back, and ran eight yards to the goal. Westfall place kicked the point after touchdown, the only attempt to score the point during the hour's scrimmage.

After the All-Stars had been excused at 5:40 p. m., the coaches went into conference in their dressing room. There Lynn Waldorf of Northwestern and Homer Norton of Texas A. and M. told Zuppke this first scrimmage had been the best held by any group of college men in the history of the series.

The Boys Go All Out.

Zuppke originally had planned a scrimmage in which only the defensive linemen and backers-up would participate, but when he saw that the All-Stars wanted to let loose with all they had he ordered an all out effort. Practically all of the players were tested offensively and defensively and those who did not have a trial, including Steve Lach of Duke and Bill De Correvont of Northwestern, who are recovering from minor injuries, will have a chance later.

If the All-Stars stop the Chicago Bears' attack, thrown from their famed T formation, no small credit will be due Bernie Crimmins of Notre Dame. Crimmins is the fastest of the guards and he thoroly demonstrated a hard, smashing charge and keen intelligence in yesterday's scrimmage.

Thruout the battle the big boys of the All-Star squad smashed at each other without restraint under the careful supervision of Waldorf and Burt Ingwersen. The back fields were coached by Lon Stiner of Oregon State and Norton.

Bears, 7,627 Pounds of 'Em, Are Big People

BY EDWARD PRELL.

[Chicago Tribune Press Service.]

Delafield, Wis., Aug. 12.—This story isn't meant to scare any one, particularly the College All-Stars, but when you deal with the Chicago Bears you deal with big people.

George Musso, preparing for his 10th season with the Bears and anxiously awaiting the night of Aug. 28 to prove a theory of his, is the biggest Bear of all. After today's double workout, the old Millikin star weighed in at 259, giving him the championship over Joe Stydahar by 64 ounces, or 4 pounds.

Jolts Pounds Off.

Mr. Musso, even when confronted by damaging evidence from the scales, declared he had taken measures this summer to jolt a few pounds off his massive frame before coming to Delafield.

"I really had a time," said George as he began his recital. "I thought horse back riding would be good as a general conditioner, never happening to think what it might do to the horse. The first one broke down with a bowed tendon. I tried another one and he just folded up, from general exhaustion, I guess."

Ideal Spot for Zup.

The jovial Collinsville, Ill., cowboy, perhaps the most popular player on the team, then turned his attention to the champions' assignment with the All-Americans in Soldiers' field.

"Now, I like Bob Zuppke, the All-Stars' coach," said Musso. "But I can't help thinking he's really on the spot. It has been said of him for years that no matter how weak his Illinois teams were, he could point for one particular game and win it, at least come close.

"If this is true he really has an ideal setup Aug. 28. This is the only game to worry about and on top of this he has the best college material at his command. Come to think of it, he doesn't have a single Illini on his squad."

Squad Weight 7,627 Pounds.

The total weight of the 37 Bears quartered here is 7,627 pounds, an average slightly more than 205 pounds. Twenty-three are over 200 pounds each. There are two in the 250s, Musso and Stydahar; four in the 240s, Ray Bray, Gary Famiglietti, Bill Hempel, and Bulldog Turner; and two in the 230s, Ed Kolman and Lee Artoe. Ray McLean, the speedy half back, is the lightest at 166.

Sid Luckman ,whose best playing weight is around 200, started strenuous measures today to cut his present poundage of 212. He ran plays from a full back position and at the finish his heavy sweat shirt was wringing wet.

Stagg Will Observe His 80th Birthday in Chicago

Stockton, Cal., Aug. 12 (AP).—Amos Alonzo Stagg today left Stockton to celebrate his 80th birthday at the University of Chicago where he coached for 41 years. The dean of America's coaches, still hale and hearty and still turning out football teams, will be 80 years old Sunday. His 53d football campaign will be tougher than usual, for he will direct the College of the Pacific squad without the aid of an assistant.

CUBS LOSE 2 TO CARDS, 9-4, 8-3; NEAR 7TH PLACE

Lee, Fleming Help Make It 4 Straight Defeats.

[Continued from first sports page.]

retta's single. Cavarretta was caught stealing.

After Enos Slaughter and Musial had been retired in the sixth, Walker Cooper, George Kurowski, and Marion perpetrated two doubles and a single for two runs to put the Cards ahead, 5 to 3.

The Cubs knocked out Beazley in the seventh. After Gilbert went out, Merullo singled to right and went to third when Russell, batting for Lee, singled to right. Stan Hack singled to center, scoring Merullo. Murry Dickson replaced Beazley and promptly whiffed Lou Stringer. He walked Nicholson, but Dom Dallessandro sent a tall fly to Moore.

Bithorn Goes to Mound.

Hi Bithorn took over the pitching job in the eighth and Slaughter opened with a single to left. Slaughter stole second and reached third while Musial was getting to first on Merullo's juggle. Slaughter scored while W. Cooper was forcing Musial. Kurowski sacrificed and W. Cooper was out when he tried to steal third.

Singles by Crespi, Moore, and Hopp and a double by Slaughter gave the Cards three runs in the ninth.

SECOND GAME

Slaughter's homer with two out in the first inning of the second game gave the Cards a lead that kept growing. The score became 2 to 0 in the second when Ken O'Dea singled and tallied on a double by Marion.

Hack and Nicholson were on base with two out in the third when Dallessandro lined a single to center for his first hit of the series. Hack ran for the plate and Nicholson for third, but Bill was out, Moore to Kurowski, before Hack crossed the plate so there was no run. The Cardinals got going in the fourth after two were out, making a run on a pass to Marion and singles by Crespi and Gumbert.

Russell Hits Homer.

Russell, who had sent Musial to the left field wall for a drive in the second inning, added a little steam at the start of the fourth and hit the screen for his eighth homer of the season.

Fleming went away in the fifth. With one out Slaughter walked, Musial singled and O'Dea walked. Singles by Kurowski and Marion netted the Cards three runs and brought in Dick Errickson.

The Cubs had the bases loaded with none out in the seventh, but were able to eke out only one run. Bob Scheffing was safe on an error, Merullo singled and Jimmy Foxx, batting for Errickson, walked. Hack forced Foxx, Scheffing scoring. Stringer then tapped into a double play.

Tot Pressnell went in at the start of the eighth and held the Cards to two runs, thanks to a double play at the plate, Nicholson to Scheffing. Singles by Nicholson and Dallessandro and some outs gave the Cubs a run in the eighth.

IDLEWILD TAKES LEAD IN SOUTH DISTRICT LEAGUE

Idlewild beat Flossmoor, 21 points to 6, to move into the lead of the South District Golf league in matches played yesterday at Ravisloe. In other matches, Olympia Fields lost to Midlothian, 19 to 18, and Calumet beat Ridge, 14 to 13. The final competition will be at Midlothian Aug. 26.

William Epstein of Idlewild had low gross score with 76, edging out two of his teammates, Sam Binder and Sol Miller, and Bill Woodson of Flossmoor, all of whom had 77s. The standings:

Idlewild, 87½; Ravisloe, 84½; Midlothian, 83; Ridge, 60½; Calumet, 54; Olympia Fields, 52; Flossmoor, 47½.

MONARCH VS. SCHLITZ.

The Schlitz and Monarch Beer teams of the Classic Bowling league, will meet in a match at Faetz & Son recreation, 5961 Ridge avenue, at 8:15 tonight.

Each time I look upon a star
I stop—and wonder where you are,
If you ever think of me—and if
You're glad that you're still free.
All these things come to my mind
And in this peaceful night I find
That one lone star shines just as bright
Forever thru this lonely night.

Watching their dreams come true.
This is a land of promise,
This is a state full grown,
A vast and a rugged empire
That every one calls his own.

CHICAGO SWIM STARS LEAVE FOR MEET TOMORROW

Seek National AAU Titles at Neenah, Wis.

A large delegation of swimmers and officials will leave for Neenah, Wis., tomorrow morning to represent Chicago and the Central association of the AAU in the women's national AAU swimming and diving meet to be held tomorrow, Saturday, and Sunday under sponsorship of the Neenah chamber of commerce.

The synchronized swimming teams of the Lake Shore club, Skyline Athletic club, and the Midwest Athletic club have been invited to perform as a special feature. These teams recently finished first, second, and third in Central district competition.

Medinah Club Team Entered.

Marilynn Billquist, a member of the Skyline A. C. synchronized team, and Central AAU 100 yard free style champion, also will enter the 100 meter free style event.

The Medinah club will be represented in the 300 meter medley relay by Lois Wenzel, Roberta Bankratz, and Edith Miller. In addition to the relay the latter two will enter the 200 meter breast stroke event.

Swimmers from Shawnee Country club include Alice Miller, Central AAU back stroke champion; Frankie Rose, Central champion in the free style, individual medley, and breast stroke events; Shirley Schweger and Nancy Nelson. The Misses Miller, Barbara Ramser, and Schweger will compete as a team in the relay event.

Bid for Three Meter Title.

Miss Ramser of Shawnee C.C., Central AAU outdoor diving champion, and Dorothy Ziegler of Medinah, indoor diving champion, will try for the national title in the three meter springboard dive. This event has created special interest, since the present champion, Helen Crlenkovich of California, will not defend her title.

Representatives from this district who will help with the officiating at Neenah include Central AAU President Herman J. Fischer, director of the bureau of recreation of the board of education; Fred L. Steers, Central AAU secretary and national vice president; D. Clark Leach, chairman of the central swimming committee and national synchronized swimming committee; Walter J. Schlueter, director of athletics of the Medinah club; Elder Halverson, swimming coach of Shawnee C. C., and central swimming committee members A. E. Billquist, Richard Dodson, Al Greene, and A. W. Wenzel.

PAIGE TO PITCH FOR WEST SUNDAY IN NEGRO GAME

Satchel Paige, who topped the voting in the East vs. West game poll with 235,600, will be the choice of the West to start the 10th annual Negro baseball game in Comiskey park Sunday. Paige will be opposed by Leon Day or Jimmy Hill, both of Newark.

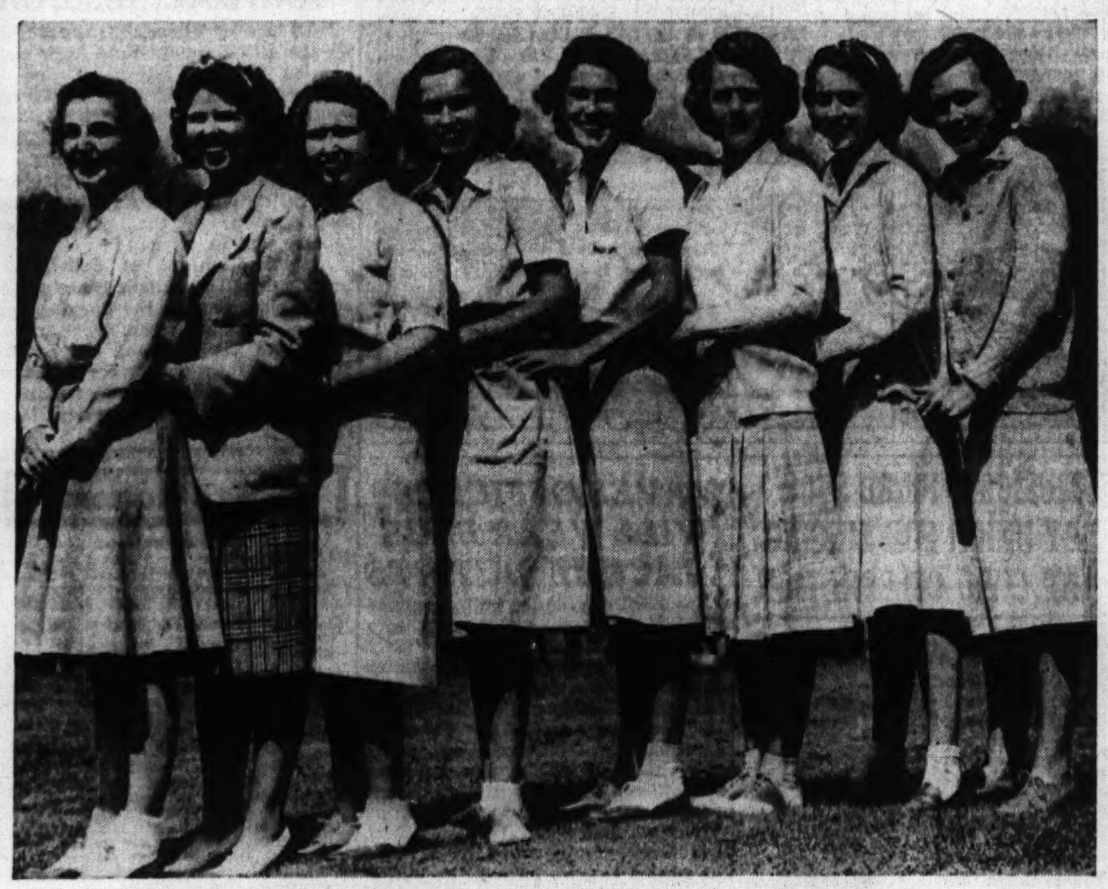
Quarter-Finalists in Women's Western Golf



Mrs. Russell Mann, the defending champion and medalist in the present Women's Western Golf Association Amateur tournament, is one of the eight who'll play in the quarter-finals at Sunset Ridge today. The eight are, left to right: Mary Agnes Wall, Mrs. Mann, Dorothy Ellis, Claire Doran, Mrs. H. M. Sims, Virginia Ingram, Dorothy Kirby, and Betty Jameson. [TRIBUNE Photo.]

a Cleveland doctor. The next will match Virginia Ingram of the home club, new Illinois state title holder and thrice district champion, and Dorothy Ellis of Indianapolis. Miss Wall, 1 down at the turn to Mrs. Frank D. Mayer of Lake Shore, rallied on the second nine for a 2 and 1 decision, while Miss Doran was eliminating Sally Sessions of Muskegon, Mich., who shot the best individual golf of the first round, by the same margin.

Miss Ingram, who couldn't recall ever having gone beyond the first round of the Western Amateur, advanced by defeating Naomi Copic of Sylvania, O., 2 and 1. Virginia reported that a greenkeeper's helper handed her a number of four leaf clovers on the fifth hole with the suggestion that they might help. She allowed they might have had something to do with the 37—41—78, only one over par, with which she played out the round for the best golf of the day. Virginia's opponent of today, Miss Ellis, submitted another reversal with her 3 and 1 triumph over Ann Casey.

Betty Wins, 6 and 4.

Miss Jameson, only 1 up on Arlene Tweet of Green Bay, Wis., after nine holes, won the next five in speedy fashion for a 6 and 4 pass into the quarter-finals. Miss Kirby's progress in her 7 and 6 defeat of Mrs. George Wilder of Kenosha, Wis., was just as rapid, if not more so. Dorothy was out in 38, even par, for a 6 up turning margin. Second round results:

CHAMPIONSHIP FLIGHT.

Mrs. Russell Mann, Omaha, Neb., beat Georgia Tainter, Fargo, N. D., 2 up.

Mrs. H. M. Sims, St. Paul, beat Marjorie Row, Detroit, Mich., 2 and 1.

Mary Agnes Wall, Menominee, Mich., beat Mrs. Frank D. Mayer, Lake Shore, 2 and 1.

Claire Doran, Cleveland, O., beat Sally Sessions, Muskegon, Mich., 2 and 1.

Dorothy Ellis, Indianapolis, beat Ann Casey, Mason City, Ia., 3 and 1.

Virginia Ingram, Sunset Ridge, beat Naomi Copic, Sylvania, O., 2 and 1.

Betty Jameson, San Antonio, Tex., beat Arlene Tweet, Green Bay, Wis., 6 and 4.

Dorothy Kirby, Atlanta, Ga., beat Mrs. George Wilder, Kenosha, Wis., 7 and 6.

Today's Quarter-Final Pairings.
[First match at 1:15.]

Mrs. Mann vs. Mrs. Sims; Miss Wall vs. Miss Doran; Miss Ellis vs. Miss Ingram; Miss Jameson vs. Miss Kirby.

CONSOLATION FLIGHT.
First Round.

Phyllis Otto, Atlantic, Ia., beat Betty Haemerle, St. Louis, 6 and 5; Shirley Ann Johnson, Sunset Ridge, beat Mrs. C. R. Harbaugh, Cleveland, 1 up; Jeanne Cline, Bloomington, Ill., beat Mrs. Charles Dennehy, Onwentsia, 4 and 2; Barbara Bathke, St. Paul, beat Peggy Kirk, Findlay, O., 4 and 3; Margaret Gunther, Memphis, beat Betty Brown, Texarkana, Ark., 1 up, 19 holes; Virginia Nilles, Park Ridge, beat Mrs. Harry Pressler, San Gabriel, Cal., 2 and 1; Rena Nelson, Exmoor, beat Mary J. Garman, Hammond, 2 and 1; Mrs. J. Ochiltree, Tam o'Shanter, beat Mrs. C. W. Matson, Brookwood, 5 and 4.

BOYS AND GIRLS TO PLAY TENNIS FINALS TODAY

Finals in the first annual Metropolitan tennis tournament for boys and girls will be played this afternoon at the River Forest Tennis club.

One semi-final in the Boys under 18 years was postponed to 9:30 this morning when Benny Migdow will meet Marvin Beskin. The winner will face Howe Atwater at 3 o'clock.

Finals for boys under 16, 14, and 12 and for girls under 18 and 15 will begin at 2 o'clock. In the latter division yesterday Virginia Smith was forced to default her semi-final match to Annette Dirkes on account of illness.

Browns Win, 6 to 3, for 10th Victory of Season Over Sox

BY IRVING VAUGHAN.
[Chicago Tribune Press Service.]

St. Louis, Mo., Aug. 12.—The Browns, who are enjoying first division society by courtesy of the White Sox, unraveled their best friends again this afternoon. In the course of the process they painted numerous batting wounds on Jake Wade, the lefty, and a few on Rescuer Ed Weiland to arrange a 6 to 3 victory, their 10th over the Chicagoans in 14 games this season.

The Sox never had a chance after a series of misfortunes, including base hits, caught up with Wade in the fourth. The beating was the first since Manager James Dykes gave him a job. The Sox produced only five hits in eight innings, and did not score until a ninth inning consolation rally that wasn't quelled until Fritz Ostermueller and George Caster had given assistance to Elden Auker.

Wright Solves Auker.

The Sox's difficulties against Auker's submarine pitch were so acute that they worked diligently thru most of four innings before getting a man to second base and into seven innings before harmlessly ornamenting third base. The latter happened because of Taft Wright's double with none out, his second hit of the performance. Wright delivered again in the ninth, the wallop causing the withdrawal of Auker.

George McQuinn opened the turbulent fourth with a grounder that could have been a hit but, instead, was termed an error for Don Kolloway. Glen McQuillen singled, but by retiring the next two men Wade almost got himself out of the woods. He was driven back on a single by Don Gutteridge, McQuinn scoring. Harlond Clift filled the bags on a scratch hit to Bob Kennedy. Then, with umpiring assistance, Chet Laabs walked, forcing McQuillen to score. This would have been the end of the incident if more bum luck hadn't intervened. Joe Kuhel was all set to grab Walter Judnich's grounder when it took an unexpected hop for a single, Gutteridge and Clift scoring.

Rap Weiland for Three Singles.

A double play made a single and a two bagger valueless to the Browns in the fifth and they got nothing out of two passes in the sixth. In the seventh, however, McQuinn tripled off the right field screen and scored on a single by Frank Hayes. Then, with one gone in the eighth, rescuer Weiland was clipped for singles by Clift, Laabs, and Judnich to create the Browns' sixth run.

Passes to Sam West and Luke Appling at the start of the ninth gave the Sox the opportunity to kick over Auker's whitewash kettle. Wright slapped his third hit into center, West scoring and Appling strolling to third. Auker was removed and Ostermueller staged a brief appearance. On Kuhel's force of Wright, Appling scored. Kuhel went to second on a passed ball and to third on Kennedy's single which routed Ostermueller. Caster broke up the party but not until after Kuhel had counted on Tom Turner's force of Kennedy.

Anderson's 73 Is Low Score at Medinah

A field of more than 500 members and guests yesterday participated in a pre-black-out tourney which took the form of the 16th annual Camel Trail day invitation golf tournament at Medinah, one of the outstanding tournaments of Chicago district.

Al Anderson, former club champion, and an electrical engineer by trade, played the club's championship course in 36—37—73, two over par, to register the lowest gross amateur score of the day. Stroking a 41—37—78, E. B. Hall Jr., finished five shots behind in second place. Tied with 79s were Noonie Pease and V. D. Nerger.

Floyd Adams led the scratch scorers on the No. 2 course with 38—38—76. Two were deadlocked for low gross on No. 1 with 78s. They were Henry Boddy and Len Thompson.

W. W. [Big Bill] Robson won Westmoreland's annual Tam o' Shanter golf invitational yesterday with a 27 hole score of 76—41—117. The outing attracted a record field of 175 players.

Robson, one of Westmoreland's veterans, was tied for first place by W. J. Marshall, who posted a 77—40—117, but Bill won the draw for the Tam o' Shanter trophy and Marshall was given the prize for second low gross for the 27 hole distance.

The guest prize went to K. T. Cleveland, who carded a 79—39—118. Low net honors for 27 holes went to C. M. Case with 125—23—102. George Snyder was second with 127—23—104. C. W. Allen and H. G. Bloomfield each posted 79 to share the low gross prize for 18 holes. Low net honors for 18 holes went to O. F. Meredith with 82—13—69, and Benjamin Melton with 88—18—70. The low net foursome included C. M. Case, W. W. Robson, J. H. Buchanan, and C. W. Allen with 282. Second prize went to G. O. Wade, G. C. Hoyt, J. C. Lannius, and A. B. McAffrey with 302.

$25,000 CEILING FOR INCOMES IS OPPOSED BY AFL

Group Favors Sales Tax to Pay Roll Levies.

Washington, D. C., Aug. 12 (AP).—The American Federation of Labor notified congress today it was opposed to a limitation of net incomes to $25,000 annually, as proposed by President Roosevelt and supported by a spokesman for the Congress of Industrial Organizations.

Raymond G. Cranch.

Raymond G. Cranch of the Washington research staff of the AFL told the senate finance committee his organization realized that many independent business men would find it necessary to restrict their activities, reduce their war work, and decrease their employment of labor under such a limitation.

Held Short Sighted Plan.

"The nation would indeed be short-sighted to limit productivity of its business men by such an arbitrary and inflexible rule," he commented.

The AFL representative opposed suggestions for an "excess profits" tax on increased individual incomes and urged postwar rebates for corporations paying over 75 per cent of total net income in taxes.

Opposing other pay roll tax deductions Cranch said the AFL believed social security levies could be increased. He urged that individuals be permitted to take deductions from income taxes for medical care and the payment of life insurance premiums. Cranch expressed opposition to a general sales tax.

Would Exempt Food.

Sen. Arthur H. Vandenberg [R., Mich.], asked if the AFL would favor a sales tax over a pay roll withholding levy if forced to choose between the two. The witness replied his organization would take a sales tax in that case, so long as it was not applied to food and low cost clothing.

The Chamber of Commerce of the United States submitted a program to the committee which it said would raise $12,000,000,000 in new revenue for war purposes, as contrasted with the $6,271,000,000 provided for in the measure under consideration. This would be in addition to the $17,000,000,000 which it said was produced by present taxes.

Declaring a fiscal program "based upon politics is as doomed as a war program based upon appeasement," Ellsworth C. Alvord, chairman of the chamber's committee on federal finance, said sales and withholding taxes are "the only two major, untapped revenue sources."

Foresees 10 Billion Return.

"A retail sales tax [exempting federal, state, and local governmental purchases] with an effective rate of 10 per cent and a 5 per cent withholding tax would produce more than 10 billion dollars of additional revenue, and would produce this amount currently, without delay in collection," Alvord contended.

"The arguments against both sales and withholding taxes are the same—that they fall more heavily on the lower income group and curtail the standard of living. But a realistic appraisal of the present situation compels the conclusion that these are precisely the reasons why we should have sales and withholding taxes now. If 30 million families, each had $1,000 more income than last year, this would mean 30 billion dollars of new purchasing power, competing for a diminishing supply of civilian articles.

"Taxes must cut down this purchasing power. Otherwise the 30 billion dollars will vanish, absorbed by the increased price of goods."

U. S. ECONOMISTS MAKE SURVEY ON PRICES OF FOOD

Chicago's food prices are being analyzed by federal economists connected with the bureau of labor statistics as part of a nation-wide survey of price structures of 80 foods in 56 key cities, Michael F. Mulcahy, metropolitan area OPA director, disclosed yesterday.

The results of the study will provide the basis for future OPA price control policies as well as for adjustments in food price ceilings announced by Price Administrator Leon Henderson Tuesday. Mulcahy emphasized that the survey is not an enforcement drive but merely is designed to reveal profit margins at producer, wholesale and retail levels and any situations in which merchants are caught by price squeezes.

The analysis of a selected group of wholesale food dealers started Monday. The retail food price study will begin Aug. 17. Similar surveys will be made with a second group later.

The price studies are being conducted in Chicago by five field analysts directed by Brunswick Bagdon, OPA regional price economist. Mulcahy said the results will be referred to OPA headquarters in Washington for policy determination.

HUSBAND SHOOTS WIFE, TWO OF HER KIN AND HIMSELF

Crazed by Her Refusal to Return, He Says.

Rockford, Ill., Aug. 12 [Special].—Suddenly crazed over his inability to effect a reconciliation with his wife, Eddie W. Barris, 27 years old, manager of a downtown A. & P. store, late today shot her, her mother, her sister, and himself. All except the sister were in a serious condition.

"My wife was suing me for divorce and I couldn't see it," Barris told police. "I asked her to change her mind. When she refused I just went wild. I didn't mean to kill her or shoot the others, I just intended to step aside."

Wife Shot in Chest.

The other victims were his wife, Mrs. Ellen Barris, 25, who was shot in the chest and side; her mother, Mrs. Dora Diamond, 55, shot in the right side, and her sister, Mrs. Dorothy Phelan, 27, shot in the hand.

Barris said he left the store about 3 p. m. and hired two movers to accompany him home to transfer his furniture to a rooming house. His wife, he said, was preparing to go to her mother's home and the two women had come to the house to help her.

Bought Gun Day Before.

While the movers were carrying out the furniture, with the help of the other two women, Barris and his wife conversed in the kitchen. When his wife refused to return to him, he drew an automatic pistol he had purchased yesterday at a local sporting goods store.

His first two shots struck his wife. As she stumbled from the kitchen, her mother and sister ran to her aid and were wounded by the bullets Barris continued firing.

He fired his sixth and last bullet into his own chest, then tossed the gun aside and drew a new hunting knife with which he stabbed himself in the abdomen. He ran into an alley where he stabbed himself again and collapsed.

THREE SOLDIERS CHARGED WITH RAPING WIDOW

Olympia, Wash., Aug. 12 (AP).—Three Fort Lewis soldiers were charged in Superior court today with rape and grand larceny in connection with an alleged assault upon a 31 year old Chehalis widow early on the morning of Aug. 3.

The accused are Roy Trombley, 27 years old, of Detroit; Glenn Staley, 27, Waterloo, Ia., and J. F. Liggett, 22, Brookhaven, Miss.

The charges were filed by Prosecutor John S. Lynch, who said that after making an investigation he had decided against his original intention of accusing the trio of kidnaping. The complaints charged they forced their way into the woman's automobile, took her to a secluded spot between Olympia and Chehalis, and raped her. The grand larceny charge involves the alleged seizure of her automobile.

WAR ON FORTUNE TELLERS IN LOOP BRINGS 3 ARRESTS

Three more women were arrested yesterday in the police drive to rid the loop of fortune tellers. The women are Ruth Conners, 57 years old, 1105 East 47th street, arrested in the Polly Tea room, 17 North Wabash avenue; Vera Swanson, 57 years old, 1624 North La Salle street, arrested in the Fortune Tea Cup, 108 North State street, and Betty Wright, 47 years old, who gave her lawyer's address, 111 West Washington street, arrested in the restaurant of a loop department store. The arrests were made by Policewomen Mary Lamson, May Hoff, and Bessie McShane. The arrested women were released on bond and will appear in Woman's court this morning.

OBITUARIES

Mrs. Agnes C. Schonlau.

Mrs. Agnes C. Schonlau, a member of one of the pioneer Chicago families, died yesterday. Mrs. Schonlau, who was 68 years old, was the daughter of the late Christian C. Erickson, a pioneer merchant of the northwest side. In her girlhood she won a gold medal for excellence in piano playing at the Columbian exposition of 1893. She had lived in Evanston for the last 25 years. Her home was at the Library Plaza hotel. A daughter, Mrs. J. Peter McDowell, and two sons, F. Kenneth Schonlau and Wilfred E. Schonlau, survive. Services will be held at 2 p. m. tomorrow in the chapel at 1555 Maple avenue, Evanston.

John R. Nelson.

Funeral services for John R. Nelson, past grand master of the Independent Order of Svithiod and a charter member of the South Side Svithiod club, will be held at 1:30 p. m. today in the chapel at 6000 South Halsted street. Mr. Nelson, who was a painting and decorating contractor, died Monday of injuries suffered in a fall from a scaffold. He was 56 years old. His widow, Nora, 538 East 74th street; a son, Marvin, and a daughter, Mrs. Florence Maher, both of Chicago, survive.

Courtney R. Gleason.

Funeral services will be held tomorrow at 2 p. m. for Courtney R. Gleason, active in the Chicago real estate business since 1893, who died Tuesday at Long Lake, Wis. Mr. Gleason was a partner or the owner of several large real estate companies and was associated with others. He lived at 7011 Euclid avenue. His widow, one daughter, and a son who is a sergeant in the army, survive. The services will be held in the Kenwood church, 46th street and Greenwood avenue.

Mark Winslow Potter.

New York, Aug. 12 [Special]. — Mark Winslow Potter, 76 years old, attorney and former member of the interstate commerce commission, died suddenly in his office today. Mr. Potter was a native of Kaneville, Ill. In recent years he was president of the Pennsylvania Coal and Coke corporation, having previously headed the Carolina, Clinchfield, and Ohio railway; the Clinchfield Coal corporation, and the Cumberland corporation.

Clarence E. Watson.

Greenfield, Ind., Aug. 12 (AP).—Clarence E. Watson, 54, Hancock county sheriff when members of the Al Brady gang escaped from jail here in 1936, died today. Watson was beaten with an iron bar wrenched from the jail bullpen by Al Brady, James Dalhover, and Clarence Lee Shaffer, slayers of an Indianapolis policeman. Brady and Shaffer later were killed in a battle with police in Maine and Dalhover was captured.

Arnold G. Mountfort.

Hollywood, Cal., Aug. 12 (AP).—Arnold G. Mountfort, 67 years old, portrait painter noted in England and this country, died today. His widow, Mrs. Patricia O'Neill Mountfort, is a writer and sculptress. Among Mountfort's works were pictures for the Studebaker family of South Bend.

William Jourdan Rapp.

Lake Mohonk, N. Y., Aug. 12 (AP).—William Jourdan Rapp, 47 years old, former magazine editor and playwright, died here today. At the time of death he was editor of religious publications for the Cook Publishing company, Elgin, Ill., whose editorial offices are in New York City.

Eugene Cooney.

Eugene Cooney, 75 years old, Kendall county farmer, died yesterday at his home in Naausay, Ill., where he was born. His widow, Emma, and three sons survive. Services will be held tomorrow at 2 p. m., in the Naausay Presbyterian church.

50 Cent Bicycle License Proposal Sent to Allman

Corporation Council Barnet Hodes yesterday sent Police Commissioner James P. Allman a proposed ordinance which would require bicycle owners to purchase 50 cent licenses. The ordinance originally was requested by Capt. John Prendergast, chief of the uniformed force, to aid police in checking bicycle thefts. Allman said he would study the proposal.

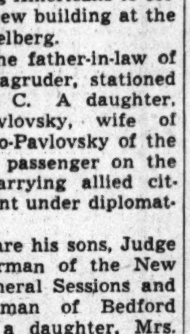
J. G. SCHURMAN, ONCE ENVOY TO GERMANY, DIES

Formerly Served as Cornell's Head.

New York, Aug. 12 (AP). — Jacob Gould Schurman, 88 years old, former ambassador to Germany and former president of Cornell university, died today at Memorial hospital.



Jacob G. Schurman.

He was in Berlin from 1925 to 1929, when he retired. He was United States minister to China from 1920 to 1924. In 1899 Schurman was named by President McKinley as head of the first Philippine commission.

In Germany he conducted a successful campaign among Americans to collect $500,000 for a new building at the University of Heidelberg.

Schurman was the father-in-law of Brig. Gen. John Magruder, stationed in Washington, D. C. A daughter, Barbara Petro-Pavlovsky, wife of Maj. Vladimir Petro-Pavlovsky of the British army, is a passenger on the Gripsholm, ship carrying allied citizens from the Orient under diplomatic exchange.

Other survivors are his sons, Judge Jacob Gould Schurman of the New York Court of General Sessions and George M. Schurman of Bedford Hills, N. Y., and a daughter, Mrs. Robert Hawes, Washington.

$500,000 RAISED IN CHICAGO AREA FOR ARMY RELIEF

Largely thru sports events, $500,000 has been raised in Chicago for army emergency relief, Lieut. Col. Walter R. Jeffrey, in charge of the program in the 6th service command area, told Chicago's army emergency relief auxiliary committee at its first meeting yesterday in the Palmer House.

Col. Jeffrey said a public drive might be needed later, but that for the present sufficient funds are being provided principally thru sports events and voluntary donations. He told the committee how the money obtained is pooled in Washington, then sent out to army posts as it is required.

He said the money is available for strictly emergency purposes to any member of the armed services or his family.

70 FACTORY MEN TO STUDY SAFETY AT ILLINOIS TECH

Seventy safety experts from Chicago industries will go to the Illinois Institute of Technology this fall to prepare themselves to teach industrial safety to some 2,000 students, John I. Yellott, war training chairman at the school, announced yesterday. The 70 new instructors will nearly double the faculty in this specialty, the school said.

Last spring a group of 1,012 students were trained in safety at the school.

The future instructors will be trained at one night a week classes covering a six weeks course. Teachers of the course will be two men from the National Safety council and one taken from the school's own faculty.

MUSIC INDUSTRY HEADS ORGANIZE TO HELP IN WAR

Leaders of the music industry organized the Music Industries' War council yesterday at a meeting in the Palmer House. Max Targ, Chicago wholesaler, was elected president. Joseph Sonfield and Ray Erlandson were chosen vice presidents; Jack Schwartz, secretary; Jay Kraus, treasurer, and Howard C. Fischer, administrative secretary. The council's purpose is to promote the use of music in the war effort. Music, the officials said, will stimulate production in war plants. Maj. Howard Bronson, chief music officer in the army, was among the speakers.

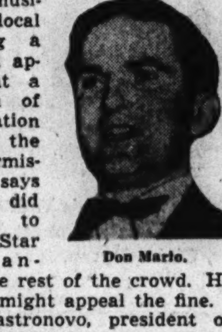
MUSICIAN FINED $500 BY UNION FOR SINGING AT CIVIC CELEBRATION

Providence, R. I., Aug. 12 [Special]. —Don Mario, an orchestra leader, has been fined $500 by a musicians' union local for making a "personal appearance" at a civic Fourth of July celebration without the union's permission. Mario says that all he did there was to sing "The Star Spangled Banner" with the rest of the crowd. He says that he might appeal the fine.



Don Mario.

Vincent Castronovo, president of the local, said Mario "violated the laws of our national organization—the American Federation of Musicians—by making a personal appearance when he was told not to, and therefore must be punished."

PLEA OF ILLNESS FREES WOMAN IN ESTATE CASE

After pleading that she is ill and has lost 26 pounds, Mrs. Helen Whitehurst, 54 years old, 10432 Artesian avenue, yesterday was ordered released from the county jail, where she has been serving a five month contempt sentence for failure to account for $900 in an estate of which she was administratrix. Judge John F. O'Connell, who sentenced Mrs. Whitehurst in March, issued the order in Probate court.

The $900 shortage was in an estate left to her nephews, George and Anthony Kozich. She was also alleged to have failed to apply $2,884 left to her by Paul R. Herschman, Viennese inventor, on $6,000 in debts owed by his estate and faced a second jail sentence for contempt when her attorney, Clementine D. Nicola, pleaded for her release because of illness.

She was to have been released on the first contempt charge on Aug. 1, but continued serving and the court yesterday said her second sentence would be considered served. When Roscoe [Fatty] Arbuckle, a motion picture actor, was on trial in 1922 in connection with the death of a girl, Mrs. Whitehurst's testimony was said to have helped bring about his acquittal.

MURDER BY MAIL SLAYER IS GIVEN DEATH SENTENCE

Los Angeles, Cal., Aug. 12 (AP).—Death in the gas chamber was decreed today for a 43 year old church elder, convicted of the "murder by mail" slaying of John Kmetz, a close friend who took poison capsules in the belief they were vigor restoratives.

But Superior Judge Arthur Nyf, who sentenced Oscar Albertson to death, said he did not consider the case closed.

"This homicide should not be considered as completely solved until all implicated in it shall have been brought to justice."

Kmetz, 54, a gardener, was a member of the San Pedro church in which Albertson served as an elder. Kmetz's 33 year old bride of a few months, who lived at the Albertson home until her marriage, taught Sunday school in the church.

She was a witness at Albertson's first trial, when the jury disagreed, but the district attorney's office said she could not be located for the second trial, which ended Aug. 5.

BLIND WEAVER 'THUMBS' FAST VACATION TRIP

A hitch-hiking trip from Rochester, N. Y., to Chicago was completed in 96 hours yesterday by Harold Strassner, a blind rug weaver, and Walter Fredenburg, an upholsterer who was guide. Fredenburg, too, is blind save for a little sight that remains in one eye. Strassner who is 18 years old, and Fredenburg, 33, made the trip as part of a three week vacation. "We came to sightsee," they said. Both young men were pleased with the speed of their trip. "Our longest layover," reported Fredenburg," was six hours." They will leave Friday to return in the same manner to New York.

Without Painful Backache

Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys.

The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 3 pints a day.

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

WAVES OFFICERS WILL WEAR BLUE JACKET OUTFITS

Specifications for the uniform of the WAVES, women's naval reserve, were received yesterday by Lieut. Mary Daily, first officer to go on active duty in the 9th naval district. The first set of uniforms, costing about $100, will be supplied by the navy department for officers, Lieut. Daily said. The cost will be deducted from the uniform allowance of each officer.

Lieut. Daily said the specifications describe a blue tropical worsted skirt and jacket to be worn with white rayon and reserve blue cotton shirts. An extra skirt will be furnished. Black, plain-toed, laced oxfords with a heel not more than one and one-half inches high and plain medium dark taupe hose of lisle or rayon will be worn with the uniform. Two extra white covers and one extra blue cover will be furnished for the hat and cap, Lieut. Daily said. Short white cotton or leather gloves and a black rayon tie will be worn. A blue serge rainproof overcoat will be furnished for wear during cool weather.

Lieut. Daily, who is assigned to the Office of Naval Officer Procurement in the Board of Trade building to assist in the selection of women officer candidates, said several thousand applications have been received.

IMPROVED JOB PLEDGED ON TIN CAN COLLECTION

William L. McFetridge, Chicago metropolitan area salvage director for the Office of Civilian Defense, yesterday received assurances from city and private garbage collection systems that tin can pickups will be improved.

McFetridge had received complaints that tin cans were not being collected and were not being separated from other rubbish. He said housewives should notify their janitors when they have a substantial supply of tin cans and the janitors will remove the cans, pending the regular garbage collection.

Evanston will start its tin can collections Aug. 20, he said. Other suburban communities already have been delivering prepared cans to the detinning plant of the Metal and Thermit corporation at East Chicago, Ind.

McFetridge said he has received pledges of coöperation in the church salvage campaign, Aug. 15 to 23, from Archbishop Samuel A. Stritch of the Catholic diocese and Dr. E. G. Guthrie, general director of the Chicago Congregational union.

EAGLES CONVENE HERE TODAY FOR ANNUAL SESSION

"All Out for Victory" is the slogan for the 44th Annual Grand Aerie convention of the Fraternal Order of Eagles opening today in the Morrison hotel.

Conrad H. Mann of Kansas City, Mo., managing organizer of the national order, said yesterday that the convention would be strictly a business session and that parades and fanfare will be taboo.

Arthur Mumford of Joliet, Ill., president of the Illinois State Aerie, spoke yesterday at the opening session of the state assembly, also conducted in the Morrison hotel. The state aerie meet will be concluded tomorrow and the national convention will be brought to a close next Monday.

WLB WILL TAKE UP U. S. STEEL CASE TUESDAY

Shortcuts Its Usual Panel Method.

Washington, D. C., Aug. 12 (AP).—The War Labor board took jurisdiction today in the wage dispute between the United States Steel corporation and the CIO United Steelworkers of America, and arranged for an expeditious decision.

Instead of routing the case thru the usual mediation panel procedure, the board obtained a stipulation of the points at issue, and decided to hear the case itself at a public hearing next Tuesday.

Informed persons at the War Labor board said "Big Steel" had balked at paying the full 5½ cents an hour increase which the board ordered in the case of four large independent steel companies last month, and also objected to making any increase retroactive to any date earlier than Aug. 9, when the wage agreement with the union expired.

Exceeded Own Formula.

In the earlier steel case, the board based its award on two sets of calculations. It established a formula limiting increases between January, 1941, and May, 1942, to 15 per cent. Under that limitation, it could allow steel workers only 3.2 cents per hour increase, because of previous increases they had obtained.

However, the board decided the workers had an additional equity because their case had been pending since February and the formula meant a "change of the rules in the middle of the game." On that basis, the board allowed an additional 2.3 cents, or a total of 5½ cents an hour. The increases were made retroactive to the dates the cases of the four companies were certified in February.

Fights Retroactive Boost.

"Big Steel," it was learned, contends the union can not claim the additional equity of 2.3 cents in this case and that any raise can not be made retroactive because there was no dispute until a week ago.

The union's position is that it has been the practice in the steel industry to maintain a general level of wages and to put increases into effect at substantially the same time.

The case affects about 300,000 employés of these United States Steel subsidiaries: Carnegie-Illinois, Pittsburgh; Columbia Steel company, New York; American Steel and Wire, Cleveland; National Tube company, New York, and Tennessee Coal, Iron and Railroad company, Birmingham, Ala.

PLANS FOR UNIT OF STANDARD GAS APPROVED BY SEC

Philadelphia, Pa., Aug. 12 (AP).—The Securities and Exchange commission today approved a voluntary plan for the recapitalization of the California Oregon Power company, a subsidiary of the Standard Gas and Electric company.

Steps toward the recapitalization include a contribution by Standard of $1,793,500 of COPCO securities, the issue and sale by COPCO of 3½ million dollars of 10 year serial notes to help refund 5½ millions of 5½ per cent gold debentures, series A, due Oct. 1. Standard will surrender the $2,375,000 of debentures it holds. The notes will be sold to banks and an insurance company.

COPCO also will amend its charter to authorize 400,000 shares of no par value common stock instead of 150,000 as at present, and for conversion of Standard's present holding of 78,000 common shares into 312,000 new shares.

BILL EASING RAIL REORGANIZATION IS BACKED BY RFC

Washington, D. C., Aug. 12 (AP). — Spokesmen for the Reconstruction Finance corporation and the Association of American Railroads advocated today legislation permitting solvent railroads to reorganize without going thru customary bankruptcy proceedings.

Saying that the measure protected all creditors, R. V. Fletcher, vice president of the A. A. R., suggested to a senate interstate commerce subcommittee that experience indicated that occasions arose making refunding desirable, even in the public interest, when no question of solvency was involved.

Russell Snodgrass, assistant general counsel of the RFC, said the bill had the approval of chairman Jesse Jones.

RIGHT TO STUDY FIRMS' BOOKS IS LIMITED BY WAR

New York, Aug. 12 (AP).—A stockholder's right of access to the books of a corporation will henceforth be limited in the interests of national safety, Col. Richard A. McGee, chairman of the recently organized committee for protection of information, told a gathering of trade association representatives today. He spoke at a luncheon during the War Production board's three day training conference.

"A legitimate stockholder may examine the books of his corporation as heretofore, providing his request for information is cleared thru our office," Col. McGee said. "This is done so as to prevent a man from purchasing one share of stock and then prying thru the books of a company for information that might be of aid to the enemy."

Wage Demand by CIO to Cost Steel Millions

Back pay demanded by the United Steelworkers of America would cost the five steelmaking subsidiaries of the United States Steel corporation approximately 15 million dollars, it was estimated yesterday. Many millions more would be involved if the demands are extended to the entire steel industry.

Following the settlement by the War Labor board of its dispute with four large independent steel companies, the CIO steelworkers union demanded of United States Steel a basic wage increase of 44 cents a day—the same increase awarded by the WLB—to be made retroactive to Feb. 6. The union also demanded the checkoff and maintenance of union membership provisions which WLB imposed upon Inland, Bethlehem, and Republic Steel companies and Youngstown Sheet and Tube company.

Opposes Bonus Over Scale.

One of the principal arguments of the United States Steel corporation against a retroactive raise is that it has a written contract with the steel union which established a basic wage scale. Consequently the corporation does not feel that it is fair to be asked for a wage "bonus" for a period during which a wage contract was in effect, it was said.

If the WLB should grant the workers the back pay retroactive to Feb. 6 it would amount to almost three times the profit of the company for the second quarter of this year. The $5,945,373 net income was insufficient to cover the corporation's preferred dividend for the quarter.

Granting a wage increase of 44 cents a day to employés of the United States Steel operating subsidiaries would add about $2,420,000 a month to their monthly pay roll for workers paid on an hourly basis.

Provisions of Contract.

The hourly wages under which employés of the subsidiaries have been working are covered in section 3 of the contract entered into between the corporation and the CIO union. It provided that effective April 1, 1941, "there shall be an increase in wages of 10 cents an hour on all rates which are at present $5 a day, or a minimum for this classification of $5.80 a day of 8 hours."

Section 3 also made provision for increases for wage earners getting less than $5 a day and for those on a piecework basis. It concludes with this statement which the corporation argues fixes the period of the wage scale:

"Rates now in effect and as increased as above provided shall remain in effect for the duration of this agreement, except as changed in accordance with the provision of Section 11 hereof."

Section 11 provides for adjustment of wage rates or modification of wage rate plans under special circumstances.

WAR RISK RATES HIKED ON SOME SHIPPING ROUTES

Marine underwriters in the American market yesterday announced a 5 per cent increase in the cargo war risk rates on certain shipments to and from United States and Canadian ports. One of the most important increases was on shipments to and from Brazil and Argetina ports where the rate was increased from 20 per cent to 25 per cent.

Other increases were on shipments to and from Egyptian Mediterranean ports via the Cape of Good Hope where the rate was increased from 25 per cent to 30 per cent, shipments to and from Port Said and Suez via the Cape of Good Hope, from 22½ per cent to 27½ per cent, and shipments to and from Red sea and Gulf of Aden ports, Persian gulf ports, and Indian ports not east of Cape Comorin, also Ceylon via the Cape of Good Hope, from 20 per cent to 25 per cent. On shipments to and from ports in India east of Cape Comorin but not east of Calcutta the rate was increased from 25 per cent to 30 per cent.

CHICAGOAN ELECTED EMPLOYE SUGGESTION SYSTEMS PRESIDENT

E. S. Taylor, director of the employés' suggestion system of the Pullman company, yesterday was elected president of the National Association of Suggestion Systems at a meeting in the Palmer House. He had been serving as temporary chairman of the organization, which was formed last month.

By encouraging millions of employés thruout the nation to produce suggestions, said Taylor, the association will be an important aid in winning the war. He said the organization will assist production by helping eliminate waste and rewarding employés for suggestions that will result in more efficient plant and office operations. Any company having or planning a suggestion system is eligible for membership.

F. A. Denz. E. S. Taylor. H. Marmaduke.

F. A. Denz of United Air Lines was elected secretary, and H. C. Marmaduke of the Illinois Central railroad was elected treasurer. Directors chosen were H. W. Seinwerth, Swift & Co.; F. R. Evers, Public Service Company of Northern Illinois, and H. F. Foley, Peoples Gas Light and Coke company. A meeting will be held in Chicago this fall.

Report Struck Plant May Be Seized by U.S.

Washington, D. C., Aug. 12 [Special].—Unless there is an early termination of the unauthorized strike of employés at the General Cable company's plant in Bayonne, N. J., the government may take over the plant and move in troops to maintain order if necessary, it was reported here today.

William H. Davis, chairman of the War Labor board, announced that the board would withhold action for 24 hours pending a meeting tomorrow at Bayonne. A representative of the War Production board will attend the meeting as will spokesmen for the company, the AFL International Brotherhood of Electrical Workers, the local union at the plant, and the strikers.

Pay Hike Denied by WLB.

The plant is producing essential goods for the navy. The men walked out after the WLB had made an adverse decision in a labor dispute, ruling that the employés had received wage increases totaling 15 per cent since January, 1941, and therefore were not entitled to a further increase under the formula laid down recently by the board.

A WLB official was in communication with the war department today but no statement was made on what had transpired. It was learned, however, that if the strike does not terminate shortly the case will be referred to President Roosevelt for appropriate action. In several earlier cases this has meant that the President, exercising his war authority, has ordered the plant taken over and operated by the army or navy.

May Appeal to Workers.

There is one step which the President may take before commandeering the plant under his war powers. He may appeal to the employés as did President Wilson in 1918 in the Bridgeport case, and call on them to abide by the WLB's award. Failing to heed his request the plant would be taken over by the government.

Chairman Davis said he had been in constant telephonic communication with union officials today and had told them the board would withhold action for 24 hours in order to give the union officers an opportunity to apply union discipline and get the strikers back to work.

Wool Workers Quit.

Boston, Mass., Aug. 12 (AP).—A strike of 300 wool warehousemen affiliated with the United Textile Workers [AFL] today affected seven Boston warehouses which hold war orders.

William Bowen, national vice president of the Federation of Wool and Worsted Wokers of America, said that members of local 1917 went out after three months of negotiations with employers ended at a meeting which was attended by a United States department of labor conciliator.

The union is seeking a 10 cents an hour wage increase over the present hourly wage minimum of 83 cents, a union shop, and a week's vacation with pay, Bowen said.

GEN. ARMSTRONG NAMED CHIEF OF ARMY AUTO UNIT

Brig. Gen. Donald Armstrong, deputy chief of the Chicago ordnance district, has been appointed to head the army's new combat automotive center at Detroit, it was announced there yesterday at a joint press conference with Col. Alfred R. Glancy, deputy chief of ordnance and formerly vice president of the General Motors corporation.

A successor to Gen. Armstrong in his Chicago post has not been named, but army sources said an announcement will be made in a day or two. Detroit officers explained that the combat automotive center will direct the maintenance and supply of "everything that rolls" in the line of army equipment.

Gen. Armstrong said he will work with Col Glancy temporarily, pending transfer with other regular army officers to field duty. Ultimately, he added, officers recruited from civilian occupations will direct the center, which will have a personnel of 2,500.

Cosmopolitan National Bank Reduces Preferred

The Cosmopolitan National Bank of Chicago has reduced its preferred stock by $6,000 and increased the common stock by the same amount, which was disbursed as a common dividend. Jacob R. Darmstadt, president, made this announcement yesterday on the sixth anniversary of the bank's establishment. He said that in the period deposits had increased to $5,600,000.

PAPER SUPPLY GROWS DESPITE OUTPUT CUT; NEW BUSINESS SOUGHT

New York, Aug. 12 (AP).—The paper and paperboard industry, in marked contrast with conditions of a year ago, could accommodate a substantial increase in new business, the national industrial conference board said today.

Mills have been forced to curtail activity and demand has dropped, the research organization said. Stocks increased because shipments declined faster than production, as often predicted shortages failed to develop.

Paper sales below maximum price ceilings have resulted from increased competition and, along with rising production costs and declining output, constitute a threat to profit margins, the board reported.

Among factors responsible for the situation, said the board, were overbuying in 1941 because of fears of shortages plus decreased consumers' durable goods production.

Filing of Rents Is Ordered by End of August

Landlords operating almost 2 million dwelling units in Cook, Kane, Du Page, and Lake counties were directed yesterday by Earl Dean Howard, federal rent director for the area, to file registration statements by Sept. 1 declaring rent ceilings and minimum services and equipment as required by the price control law. The area contains more than 4½ million persons.

The general registration is the final step in the enforcement of rent control, which was instituted in the Chicago area July 1 and was designed to hold rents of all types of dwellings to March 1 levels.

Tells Penalties for Evasion.

Howard announced the completion of the registration plans at a luncheon attended by several hundred landlords in the Union League club. He emphasized the importance of prompt compliance with the registration requirements and the penalties for evasion.

He said landlords or their agents who violate or evade the registration face the following penalties:

1. Forfeiture of the right to file any petition for an adjustment of the rent ceiling or receive recognition by the rent director.
2. Notification to eviction courts of landlord noncompliance. Tenants will be permitted to employ this as grounds against eviction.
3. Presumption that failure to register is motivated by an attempt to conceal evasion or violation of the maximum rent regulation.
4. Invalidation of new contracts or agreements for rental of an unregistered unit.

Fine and Jail Possible.

Howard said falsification in the registration statement is punishable by a maximum penalty of $5,000 fine and one year in jail.

Forms for registration are available at the rent administration headquarters at 222 West Adams street and will be distributed Aug. 18, 19, and 20 to branch offices in Elgin, Aurora, Harvey, Waukegan, and places to be designated later.

One of the three copies of the registration statement will be sent to the tenant and will notify him of the maximum rent which he may be charged and the minimum services and equipment which he may expect to receive. If the tenant disagrees with the landlord's statement he may challenge it within 15 days.

The registration will cover houses, apartments, hotels, rooming houses, flats, cabins, trailers, and every other kind of dwelling offered for rent.

LEND 6 MILLION TO MEXICO FOR STEEL FACILITIES

Washington, D. C., Aug. 12 (AP).—The Export-Import bank announced tonight a loan of 6 million dollars to Mexico to aid in the construction of the proposed Altos Hornos steel plant at Monclova, state of Coahuila, Mexico.

The bank said: "The loan funds will cover the cost of new and second hand equipment and materials and of services in the United States. Expenditures for Mexican materials, transportation and services are being met with proceeds of sale of stock of Altos Hornos de Mexico S. A. in Mexico."

The credits were secured by notes of Nacional Financiera, S. A., which were, in turn, guaranteed by the Mexican government.

Tax Deduction for Insurance Costs Urged

Life insurance forms a principal backlog of economic security for millions of persons and therefore deductions of premiums should be allowed individual income taxpayers, the Illinois Chamber of Commerce said yesterday in submitting a resolution to the senate finance committee, which is conducting hearings on the 1942 revenue bill.

L. D. Cavanaugh.

L. D. Cavanaugh, president of the Federal Life Insurance company, Chicago, and chairman of the insurance committee of the chamber said:

"A survey of public opinion on this matter clearly indicated that a vast majority of the citizens and businessmen of the state were in favor of some provision being made, subject to reasonable limitations, which would safeguard insurance investments of the people.

Half of Population Insured.

"Sixty-six million people, or a good half of the population of the nation have insurance investments, so this appeal could in no way be construed as favoring any one class."

He said that England had recognized the economic necessity for this type of safeguard and has included such a provision in the income tax law.

The resolution said that added increased wartime income taxes would make it increasingly difficult for large numbers of persons to keep up programs of life insurance previously adopted and in many cases might require the reduction or abandonment of the protection for dependents now provided by insurance.

Noninflationary in Effect.

It said payment of life insurance premiums is not inflationary in its effect, but on the contrary tends to prevent inflation, since the funds used are diverted from the purchase of commodities and are in large part invested by the insurance companies in government obligations.

Furthermore, it continued, individuals should be encouraged in making appropriate provision for dependents by means of life insurance and much of the interference of wartime tax laws with such provision may readily be avoided by allowing such deductions.

BUTTER AND EGG PRICES RISE TO ANOTHER PEAK

Wholesale egg prices rose yesterday to new highs since last December and new August peaks since 1929 on an advance of ½ to 1 cent a dozen. Best qualities sold for 34¼ to 36¼ cents. Butter prices reached new peaks since December, 1929, on a ¼ to ½ cent rise. Top grades sold at 40½ to 41¼ cents a pound.

New supplies of fresh eggs were more than 125,000 dozens smaller than on the corresponding day last year. Dealers cut their storage reserves by almost 500,000 dozens to obtain fancy table eggs and fill government lend-lease dried egg contracts.

IRON AGE FORECASTS MORE EXPERIMENTING IN CONTROL OF STEEL

More changes in governmental methods of controling the production and distribution of steel were forecast by Iron Age yesterday to end what the magazine termed "mounting confusion" in the industry.

It said an experiment was planned in control of production and materials so raw material bills would be compared against contract requirements rather than having a manufacturer "making application for materials which no one knows whether he needs or not."

The magazine said shipments of steel to date this year showed curtailed sheet output, with a sharp gain in plate production and a big increase in alloy steel.

LOWER PROFITS SHOWN BY MORE BIG COMPANIES

Standard (Ind.) Net Dips for Half Year.

Another group of large corporations reported lower net incomes yesterday as the result of rising federal taxes and war conditions, and one company announced a lower dividend on its common stock.

Standard Oil company [Ind.] reported consolidated profit for the first six months of 1942 was $19,390,526, compared with $21,763,134 in the corresponding 1941 period. The totals were equal respectively to $1.27 and $1.43 a share. Edward G. Seubert, president, said the company provided $15,516,358 for federal income and excess profits taxes at rates proposed in the 1942 revenue act as passed by the house of representatives.

Eastman Cuts Dividend.

The Eastman Kodak company, Rochester, N. Y., reduced the quarterly dividend on its common stock 25 cents to $1.25 a share, the first cut since April, 1938. The company reported that sales increased 33 per cent in the 24 weeks ended June 13, but because of tax provisions, net profit declined to $7,462,336, or $2.94 a common share, from $10,460,425, or $4.15 a share, in the corresponding period last year.

Sales in the period rose to $97,539,272 from $73,525,058 in 1941, but provision for income and excess profits taxes expanded to $20,853,766 from $9,792,474. In addition, the company deducted $1,800,000 from profits as a reserve to cover possible future inventory losses and "other future adjustments due to wartime conditions." The directors reported that production for war uses of photographic goods and special military apparatus "is continuing at a greatly accelerated rate."

Gypsum Profit Smaller.

Sewell L. Avery, chairman of the United States Gypsum company, Chicago, reported to stockholders that tonnages sold during the first six months of this year were slightly larger than last year, but substantially higher costs of labor and materials adversely affected the profit margins. He said that the outlook for the remainder of the year "is not favorable."

Net income for the half year was $2,445,460, compared with $3,211,826 in the 1941 period. This was equal respectively to $1.82 and $2.46 a common share.

International Nickel Company of Canada showed net profit for the six months ended June 30 of $16,008,614, or $1.03 a common share, against $17,315,607, or $1.12 a share, in the first half of last year.

Packers Carry Ceiling Appeal to Roosevelt

Asserting that their pleas to Price Administrator Leon Henderson and Secretary of Agriculture Claude R. Wickard have failed, independent meat packers yesterday appealed to President Roosevelt to save them from ruin thru government price ceilings.

More than 300 owners and representatives of small meat packing companies here to organize their own association and break off relations with what they called the "big packer dominated" American Meat institute, declared that they "have exhausted all other remedies."

"Earnestly Request Action."

Their telegram to the President read:

"Over 300 independent meat packers from all parts of the United States assembled in emergency conference at the Palmer House, Chicago, most earnestly request that you take such action as you may deem appropriate to save us from ruin caused by price ceilings on meat products with no ceilings on live animals which are far above parity levels.

"Our senators and congressmen have pleaded in vain with the price administrator and the secretary of agriculture, but these distinguished officials cannot agree on policy. We have exhausted all other remedies presently available.

"Even the door to the Emergency Court of Appeals is closed to us by the device of calling upon us for voluminous irrelevant data as to past operations in the face of present enormous losses.

"Essential to War."

"Independent meat packers produce nearly half of all meat products. The secretary of agriculture acknowledges that continued operation of our plants is essential to the war effort, yet many are closing down or severely curtailing their operations. Capital to handle the fall and winter rush cannot be obtained with our plants losing money.

"We have been reliably informed that the price administrator has this week recommended to the secretary of agriculture fixing of ceilings on prices of live animals, but the latter does not agree.

"The situation is critical and injurious both to the war production effort and the morale of the whole industry and its labor. Executive action is urgently necessary."

The message was signed by George A. Casey, chairman of the emergency conference.

HOGS SET AUGUST HIGH

Despite the squeeze on pork packers as a result of ceilings on the meat, the price of live hogs at the Chicago stockyards rose again yesterday to a new 22 year high for August. Receipts were light.

Top loads broke thru a five day level to sell at $15.10 per hundred weight, an advance of 10 cents to within 5 cents of the July peak reached three weeks ago. The average also moved up 10 cents to $14.40, within 20 cents of the 1942 high. Some classes of hogs sold as much as 15 to 20 cents higher.

Fat lambs slumped 15 to 25 cents as demand narrowed.

Top steers rose another 15 cents to $16.65, the highest since the middle of May and second highest for in August since 1929.

FOOD RESERVES DROP AGAINST NORMAL TREND

Storage Stocks Off for Last Month.

Unprecedented consumer demand plus vast lend-lease and army requirements cut heavily into United States storage reserves of meats, dairy, and poultry products at a time when these reserves normally are being built up for winter, the department of agriculture's report on Aug. 1 cold storage holdings disclosed yesterday.

Packers made large withdrawals of reserve stocks of pork and lard to fill lend-lease contracts and to help relieve the meat shortages in certain sections, the report showed. For the first time since 1934, produce dealers found it necessary to take more eggs out of storage than they put in and their withdrawals were the largest of record for the month.

Little Butter Being Stored.

Butter reserves fell short of the five year 1935-'39 average for the first time since May, 1941. Dealers reported the July movement of butter into storage was the smallest since the 1936 drouth and was the fifth smallest of record for the month.

The heavy consumption left Aug. 1 pork reserves the smallest since Jan. 1 and the lowest for the date in the last four years. They totaled only 432,566,000 pounds, compared with 522,173,000 a month ago and 618,866,000 on Aug. 1, 1941.

Lard stocks were the smallest since November, 1939, totaling only 88,689,000 pounds, compared with 93,682,000 on July 1 and 332,863,000 a year earlier. The five year average for Aug. 1 lard stocks is 212,788,000 pounds.

The amount of pork and lard available for civilian consumption is considerably less than these totals. The government owned almost 36½ million pounds of the pork and almost 22 million pounds of the lard.

Cheese Total Is Record.

Cold storage holdings of American cheese reached an all-time record total of 260,187,000 pounds compared with 139,568,000 a year ago and a five year average of 114,020,000 pounds. Frozen egg stocks also set a record at 290,505,000 pounds, compared with 195,187,000 a year ago and a five year average of 159,322,000.

Aug. 1 meat, dairy, and poultry products cold storage holdings in pounds unless otherwise indicated [000 omitted]:

	Aug. 1.	July 1.	Yr. ago.
Pork	432,566	522,173	618,866
Lard	88,689	93,682	332,863
Beef	81,850	81,556	66,903
Butter	148,637	117,111	178,490
*Eggs	7,734	7,935	6,641
Frozen eggs	290,505	278,499	195,187
Cheese	260,187	228,478	139,568
Poultry	79,165	79,200	81,206

*Cases of 30 dozens each.

Government holdings of dairy products included more than 6½ million pounds of butter, 28,000 cases of eggs, almost 5 million pounds of frozen eggs, and approximately 73¾ million pounds of cheese.

The department said holdings of frozen vegetables totaled 83,932,000 pounds, a new Aug. 1 record, and compared with 73,144,000 a year ago.

STOCKS RESIST DECLINES, CLING TO SMALL RANGE

Early Losses Cut by Late Rally Attempt.

New York, Aug. 12 (AP).—Reverses to the Russian armies in the Caucasus failed to shake the stock market out of its narrow path today.

Closing prices were mixed, altho a faltering rally attempt late in the day reduced some losses or changed them to gains. Yesterday's reported market stimulant of news of the Solomon Islands battle was almost totally lacking today.

Chrysler, reacting to the lower earnings and dividend cut announced late yesterday, changed hands in big blocks at a loss of more than 2 points at the opening. It later quieted to close off 1¾.

Low Priced Issues Active.

A few low priced issues late in the day turned over in volume at higher prices. These included Consolidated Oil and Warner Brothers, at new tops for the year, and Aviation corporation.

These contributed to the ris ein total sales to 283,058 shares, compared with Tuesday's 258,610 shares. The Associated Press average of 60 stocks declined .1 of a point at 36.3

United States Steel and General Motors were among a large contingent that closed unchanged.

CHICAGO LIST MIXED.

Chicago Stock exchange prices were mixed yesterday, 29 issues declining and 28 advancing. Transfers of 19,750 shares of Central & South West Utilities, one of 24 issues which closed unchanged, lifted the trading total to 30,000 shares, compared with 16,000 Tuesday.

July transactions totaled $7,001,774, an increase of 19.4 per cent over June but a decline of 38.8 per cent from a year ago.

U. S. AID DENIES PLOT TO RETARD RUBBER OUTPUT

Washington, D. C., Aug. 12 (AP).—Richard J. Dearborn, who came to the government from the Texas company as technical consultant in the synthetic rubber program, today denied before a senate patents committee a charge that he had conspired to keep rubber production in the hands of a "German-American" patent pool.

Dearborn appeared at his own request to answer accusations by C. R. Starnes, an independent Texas oil operator, that Dearborn, with Frank A. Howard of the Standard Oil Development company, had conspired to "stop the production effort of any group not a member" of a cartel which included the Standard Oil company [N. J.] and I. G. Farbenindustrie, German chemical trust.

Dearborn declared he had done all in his power to develop the synthetic rubber program. He said Starnes was "very disappointed because we could not see our way clear to recommend his proposal" to produce butadiene for conversion into synthetic rubber.

MILLION DOLLAR BLOCK OF STOCK SOLD FOR ESTATE

New York, Aug. 12 (AP).—An offering of 24,200 shares of American Tobacco company common stock was made today by Smith, Barney & Co., and Blyth & Co., at $40 a share, with a commission of 70 cents a share allowed to dealers. The sponsors announced the stock was oversubscribed.

The shares had been bought from the Central Hanover Bank and Trust company earlier in the day. This virtually completed liquidation of stockholdings of the 23 million dollar estate the late Mrs. Harriet Constable Arnold left to seven institutions at her death last April. Mrs. Arnold was the widow of Hicks Arnold, a descendant of the founder of two large New York department stores.

The Arnold estate was understood to have sold within the last 10 days large blocks of American Tobacco "B" stock, Norfolk and Western railroad preferred, Standard Oil of California, General Electric, United Shoe Machinery, and Liggett and Myers "B."

GRAIN PRICES RISE IN CASH MARKET, DIP IN FUTURES

Car of White Corn Sells at Five Year High.

BY PHILIP WARDEN.

Cash markets for grain strengthened yesterday but futures prices on the Chicago Board of Trade fluctuated aimlessly. Wheat futures closed ¼ to ⅜ cent a bushel lower, the September delivery ending $1.17⅝. Light mill buying accounted for a small early advance, brokers reported, but prices drifted after this demand lapsed.

Dealers reported the sale of a car of white corn in a cash transaction at $1.06 a bushel, a new 5 year peak. No. 2 yellow sold at 2¼ cents over the September futures, bringing 88½ cents a bushel.

Hog Advance, Is Factor.

The advance of the hog market to $15.10 per hundredweight and the higher cash market prices for corn were reflected in the corn pit where futures closed ⅛ cent higher to ⅛ cent lower. Oats futures were ⅜ to ⅝ cent lower. Rye was unchanged to ⅛ cent lower. Soy beans closed ⅛ to ¼ cent higher.

Apparent freedom of the wheat market from any hedging pressure and the early strength at Minneapolis contributed to the early rise here, brokers said. While the weather bureau reported that conditions were more favorable for the harvesting of the spring wheat, movement of this grain so far has been light.

Oats Shipping Sales Large.

Shipping sales of oats were the largest in several weeks, exceeding 110,000 bushels. No purchases of oats to come to this market were reported. Dealers reported oats were easy to sell but extremely hard to buy. Brokers in oats futures reported some selling in the pit that appeared to be hedging coming from the northwest.

Consumption of wheat in the last year was slightly larger than trade expectations, grain statisticians reported. The total disappearance in the 1941-'42 crop years is now estimated at 697 million bushels. The department of agriculture estimated that as of July 1 the United States had on hand 634 million bushels of wheat from crops of other years. To this will be added the 955 million bushel estimated production from this year's crop.

War Traffic Lifts Express Volume of Northwest Air

Movement of war materials in July contributed largely to the setting of a new monthly peak in the air express cargo volume of Northwest Airlines, Inc., James Fauteux, Chicago district traffic manager, said yesterday. The system hauled 123,923 pounds of cargo, compared with 68,019 pounds a year ago and 83,168 pounds in June.

Commodities

Trade and mill buying failed to offset liquidation and hedge selling on the cotton futures market yesterday and prices closed 10 to 30 cents a bale lower. Traders said uncertain war news together with the government's weekly weather report showing favorable crop conditions were also factors in the decline. Wool tops closed 0.1 cent higher to 0.1 lower.

VACUUM CLEANER FIRM'S DIVIDEND SET AT 10 CENTS

New Deadline Fixed for Stock Sale Offer.

Directors of Air-Way Electric Appliance corporation, Toledo vacuum cleaner producer, declared a 10 cent dividend on the common stock yesterday, the first in 11 years. Stockholders recently have been subjected to a barrage of letters from the management and from J. M. Doroshaw, Chicago, a large stockholder, concerning a proposed sale of control of the company.

Doroshaw, after announcement of the dividend, which is payable Sept. 1 to stockholders of record on Aug. 20, immediately set a new deadline of Sept. 16 for acceptance of his offer to other stockholders to arrange for the sale of a majority of the outstanding shares.

Takes Half of Profit.

Explaining the current dividend is approximately one-half the company's consolidated net earnings after estimated federal taxes for the first half of 1942, the company announced that net profit for the period was $75,467. No direct comparison with last year's earnings was made, but the company said net income for 24 weeks ended June 14, 1941, totaled $55,913.

J. H. Nuffer, president, said the remainder of the net earnings for the period would be used as additions to working capital and for the acquisition of additional facilities.

Nuffer said the company is engaged exclusively in war production, with additional business secured and prospects of further contracts. He predicted that earnings in the second half of the year would be much larger than in the first half.

Doroshaw Criticizes Action.

Doroshaw, commenting on the dividend, said it was paid at this time in an attempt to dissuade stockholders from selling stock.

"The company is using exceedingly poor judgment in paying a dividend at this time," he said.

The company's stock, which opened at 1½ today on the New York Curb exchange, closed lower at 1¼, despite announcement of the dividend.

REPORT FEDERAL CURBS PREVENT SALES RECORDS

Government rationing and credit controls will prevent the mail order companies and automobile accessory chains from equaling this year the record sales reached in the second six months of 1941, Merrill Lynch, Pierce, Fenner & Bean said yesterday in its chain store survey.

"While no group will be wholly immune to the problem of securing merchandise for sale, it appears that the variety chains should be less seriously affected and that the food and apparel chains stand in a relatively favorable position," the brokerage firm said. "Assuming maintenance of existing price levels, the degree of increase in sales from those at comparable dates a year ago will narrow as the year progresses."

Jersey Public Service Held United Subsidiary

Philadelphia, Pa., Aug. 12 (AP).—The Third Circuit Court of Appeals today upheld a Securities and Exchange commission ruling that the Public Service Corporation of New Jersey is a subsidiary of the United Gas Improvement company and the United corporation. Public Service sought to escape requirements of the holding company act. The SEC held that UGI, a subsidiary of United, together with United, own 13.9 and 28.4 per cent, respectively, of voting securities of PSC which gave them control. The company sought to escape.

PROGRAM DRAWN TO INCREASE OIL SHIPMENTS EAST

Scattered Small Car Lots to Be Consolidated.

A program designed to eliminate scattered car movement of oil shipments to the Atlantic seaboard from the midwest was worked out yesterday at a conference of oil and railroad men from petroleum district 2, covering 15 states, with officials of the Office of Defense Transportation and the petroleum coördinator's bureau.

Committees appointed to represent both the oil industry and principal railroads of the midwest were charged with mapping and carrying out the program. Small shipments are to be placed on a full trainload basis whenever possible.

O. C. Castle, assistant director of ODT division of railway transport, who presided, explained that about two-thirds of the 65,000 tank cars currently available for shuttling oil to the rationed east are moving on a full train basis. He said the others represent scattered movement of two to 10 cars, involving lost time and lost motion.

To Fix Assembly Points.

He suggested that the rail and oil committees work out central assembly points in the midwest so that small shipments could be consolidated into full oil trains of about 60 cars each, moving on efficient schedules and having preference over all other civilian traffic.

Castle said the movement of oil to the east is 150,000 to 200,000 barrels a day short of needs.

The railroad committee, headed by S. J. Lynch of the Illinois Central, was appointed by Raymond B. Croll, deputy assistant director in charge of freight service for the ODT in Chicago. The oil committee, appointed by C. R. Musgrave, Chicago, oil industry representative, is headed by R. W. Fyfe of the Standard Oil company of Indiana.

Full Coöperation Urged.

V. V. Boatner, director of rail transport for the ODT, explained the purpose of the conference and urged full coöperation by oil and railroad men in getting oil supplies to the east coast.

Other speakers were Musgrave and W. E. Callahan, who is in charge of the tank car section of the American Association of Railroads.

Petroleum district 2 includes Illinois, Indiana, Iowa, Kansas, Kentucky, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Oklahoma, South Dakota, Tennessee, and Wisconsin. A similar program to expedite oil traffic is now being worked out for district 1, which includes Texas and adjacent gulf coast states.

People and Events

Michael F. Mulcahy, OPA director for the Chicago metropolitan area, yesterday announced the appointment of Earl S. Dunne as tire rationing officer for the area.

WAGE MINIMUM TO AID ABOUT 50,000 WORKERS

New York, Aug. 12 (AP).—Wages of between 35,000 and 50,000 workers in the railroad carrier industry will be increased under an order establishing a minimum rate of 40 cents an hour, L. Metcalfe Wallins, administrator of the wage and hour division of the department of labor, announced today. There are approximately 1,350,000 workers in the industry.

The wage order will become effective Aug. 31, Walling said.

A wage order issued last March 1 on recommendation of an earlier committee provided for a minimum wage of 36 cents for employés of trunkline railroads and 33 cents for short line roads. The first order boosted the wages of about 60,000 trunk line employés and 4,000 shortline men, most of them maintenance of way workers. The ruling announced today establishes the 40 cent minimum for both types of workers and many who benefited under the first order again will be affected.

Utility Votes Dividend in Detroit Edison Stock

New York, Aug. 12 (AP).—Directors of the North American company today declared a dividend on its common stock, subject to approval of the Securities and Exchange commission, in the form of one share of Detroit Edison company common stock on each 50 shares of North American common, payable Oct. 1 to holders of record Sept. 5. Similar distributions were made the last five quarters. Directors also voted to redeem 2 million dollars more of North American's 2¾ per cent debentures, due in 1954, at 102¼ per cent plus accrued interest, on Sept. 17.

Gasoline Stores Decline 9,000 Barrels in Week

New York, Aug. 12 (AP).—Stores of gasoline declined 9,000 barrels to a total of 81,315,000 barrels during the week ended Aug. 8, the American Petroleum institute reported today.

Rewards of Farming.

Aug. 12, 1942.

THERE are many rewards for living on a farm, most of which can't be tabulated in an account ledger. There's no way a farmer can measure the enjoyment he gets raking a fragrant new crop of clover on a midsummer day or his thrill at seeing a fine team of horses hitched to a hayrack. Neither is there any way of determining the value of a picturesque woodlot corner such as the one we visited on the Wheaton farm the other morning.

We left Maramy road, climbed a white fence gate, and wandered thru the east woodlot toward the creaking old windmill and the little foot bridge. In May we traveled this same course to see the spring beauties, violets, and other early wild flowers, but we didn't know what might be on exhibition in this spot now that autumn is gradually overtaking summer.

Sight Stops Him!

When we reached the foot bridge the sight was one which forced a five minute stop for absorbing all the color and serenity of the peaceful little hollow. Five hundred brilliant cardinal flowers growing from the creek bed marked a crooked course into the woods; deep purple ironweeds and blue vervain bordered the left side of the scene, and on the right bank a solid patch of brown-eyed Susans added their gold and brown to the picture.

In the foreground a gnarled old hawthorn tree, bearing fruit just beginning to turn red, spread its limbs over the creek bed, and all around the edge of this natural bowl were venerable old oak trees looking down with the dignity befitting their century of residence in the woodlot.

Autumn Hints Seen.

Each week the northern Illinois countryside presents additional evidences of approaching autumn. When we walked thru the east woods yesterday we noticed that the leaves of the hawthorns have changed from their deep summer green to a lighter and more subdued color. The dogwood trees, first to turn to autumn coloration, already have numerous orange-pink leaves, and some of the lower leaves of the sumacs now are red. These shrubs are found in many corners of the Wheaton farm, and when they come into full autumn foliage they provide brilliant splotches of red and orange along the farm lanes.

SEEK TO REMOVE LABOR SHORTAGE IN COPPER MINES

Five Government Bodies Attack Problem.

Washington, D. C., Aug. 12 (AP).—A broad attack by five top war agencies on the man power shortage in the copper mining industry was disclosed tonight shortly after the National War Labor board announced it would consider wage and union shop demands of copper, lead, and zinc workers on an industry-wide basis.

A WPB official said a five agency committee is considering a sweeping tho tentative plan to bring fresh labor into the copper mines and prevent present workers from deserting their jobs in favor of shipyards and war plants, where they can get higher pay.

One controversial phase of the proposal is the proposed gradual shutdown of some 300 of the largest gold and silver mines to divert several thousand of their miners into copper production, the WPB official said.

Competitive Wages Sought.

He added, however, that a necessary preliminary step would be the stabilization of wages on an industry-wide scale at levels competitive with other war essential industries.

This, it was said, might be accomplished thru the WLB hearings to begin here Aug. 19. The WLB is expected to produce a blanket formula covering demands by 20,000 nonferrous metal workers against 37 mines, mills, and smelters in a number of states. The wage findings also are expected to govern the scale paid by the rest of the industry.

WLB disclosed that it had acted in consultation with officials of the War Man Power commission, the army's services of supply, Office of Price Administration, and War Production board. WLB said all "have been working on the problem of increasing production of copper and other nonferrous metals."

Other Proposals Studied.

These are the five agencies which are represented on the special committee. In addition to wage increases and the transfer of gold miners, the committee is studying these moves:

1. Establishment by the United States Employment service of orderly procedure for recruiting copper miners and transporting gold and silver miners on a voluntary basis to copper operations.

2. Arrangement with OPA for copper price increases to offset in part any wage increase which might be granted.

3. Agreement by the army services of supply not to permit the "raiding" of the mines' labor force for workers on the army's western construction projects.

COMMONWEALTH EDISON.

Will you please furnish a report on Commonwealth Edison company?—J. S. C.

Answer: This company with its subsidiaries constitutes one of the largest public utility systems in the country. The parent company furnishes substantially all electric power in Chicago. Its subsidiaries supply electricity, gas, and other services in adjacent suburban areas and in other parts of Illinois as far west as the Mississippi river. Territory served totals about 11,000 square miles and has an estimated population of more than five million.

Furnishing electricity accounts for about 90 per cent of total revenues. About a third of revenue from this service comes from residential and rural users, about one-half from industrial and commercial consumers, and the remainder from electric railroads, other utilities, and miscellaneous sources.

The utility system this year faced the need for additional facilities to meet the larger demand of war industries in the Chicago area for electric power. Materials are being secured for maintenance and repairs and for adding to facilities directly related to war work, but any large scale expansion program this year was believed improbable.

At the end of 1941 total electric generating capacity of the Commonwealth Edison group was 2,146,000 kilowatt hours, an increase of 161,000 kilowatts over the preceding year.

A record of recent financial results follows:

	Operating revenues.	Net income.	Dividends.
1941....	$165,482,143	$26,747,901	$1.80
1940....	154,805,524	29,170,756	1.80
1939....	145,873,845	25,414,590	1.65
1938....	139,545,175	19,701,625	1.33¾
1937....	140,120,883	16,202,437	1.56¼

Dividends totaling $1.25 have been paid to date this year. Net income in the first six months this year was $9,978,151, compared with an adjusted net income of $13,493,311 in the same 1941 period.

Commonwealth Edison was incorporated in 1907 as a consolidation of the Chicago Edison company and the Commonwealth Electric company. Capitalization at the end of 1941 was 12,718,616 shares of $25 par capital stock outstanding, and a total funded debt of $346,035,400. Current assets totaled $100,328,895, against current liabilities of $42,975,870.

Bonds Continue Selective Rise with Rails in Front

New York, Aug. 12 (AP).—The bond market continued its selective recovery move today with rails and utilities enjoying the best following. Gains were generally in fractions, however, and the list had numerous laggards or unchanged issues at the close. Volume picked up slightly to $4,683,800, face value, from $3,767,300 on Tuesday.

AIRCRAFT

This shop training plant has enrolled 3,323 men so far this year. Why?
BECAUSE

[1] Our graduates receive actual shop training in all branches of aircraft manufacture.
[2] Our step-by-step course prepares our students in 8 weeks' time.
[3] Our graduates are in demand and are receiving top pay in the jobs we have secured for them.
[4] Our graduates are employed by every large aircraft plant in the U. S.
[5] We cannot fill the demand for our graduates.

Day or Evening Training

More than 1,000 students now being trained in our modern, splendidly equipped training shops, the largest of their kind in this country.

9 ADVANTAGES
of Getting YOUR LOAN from 'PERSONAL'

1. Loans made to employed men and women whether single or married.
2. Business women and those working in defense plants borrow here "on your own."
3. A special plan provides loans for defense workers and others on a new job or who have just moved into the community.
4. Between pay day loans for small amounts and short periods made as readily as other loans.
5. Loans made for purchase of tools, uniforms, car or home repairs, medical or dental attention, payment of old bills, etc.
6. Your account here establishes NATION-WIDE Cash Credit at any of more than 400 "Personal" offices.
7. Monthly payments arranged that you can comfortably afford.
8. Complete privacy. Loans made on signature, furniture, or auto. No wage assignments. Outsiders not involved.
9. Friendly considerate service. No waiting for a "Board" or committee to pass on your loan.

"We don't believe that folks should borrow unless a loan is the best solution to their problem. If it is, we want to serve them."

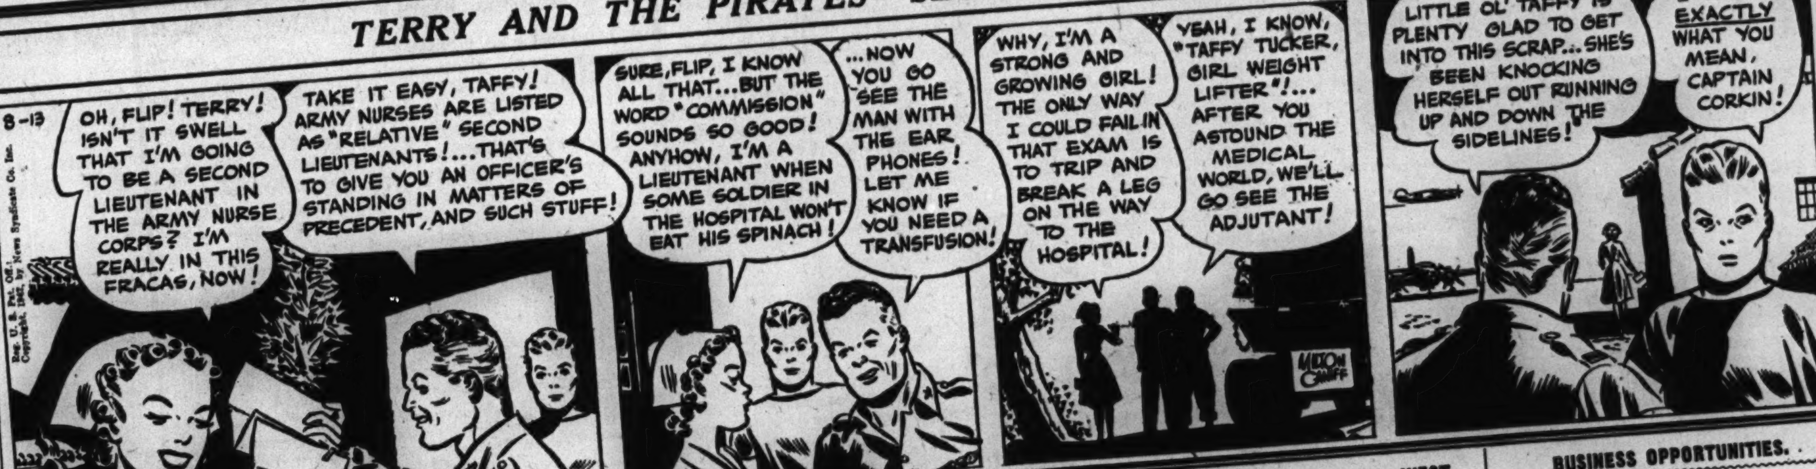
TERRY AND THE PIRATES—SECOND HAND SENTIMENT



8-13
OH, FLIP! TERRY! ISN'T IT SWELL THAT I'M GOING TO BE A SECOND LIEUTENANT IN THE ARMY NURSE CORPS? I'M REALLY IN THIS FRACAS, NOW!
TAKE IT EASY, TAFFY! ARMY NURSES ARE LISTED AS "RELATIVE" SECOND LIEUTENANTS!...THAT'S TO GIVE YOU AN OFFICER'S STANDING IN MATTERS OF PRECEDENT, AND SUCH STUFF!
SURE, FLIP, I KNOW ALL THAT...BUT THE WORD "COMMISSION" SOUNDS SO GOOD! ANYHOW, I'M A LIEUTENANT WHEN SOME SOLDIER IN THE HOSPITAL WON'T EAT HIS SPINACH!
...NOW YOU GO SEE THE MAN WITH THE EAR PHONES! LET ME KNOW IF YOU NEED A TRANSFUSION!
WHY, I'M A STRONG AND GROWING GIRL! THE ONLY WAY I COULD FAIL IN THAT EXAM IS TO TRIP AND BREAK A LEG ON THE WAY TO THE HOSPITAL!

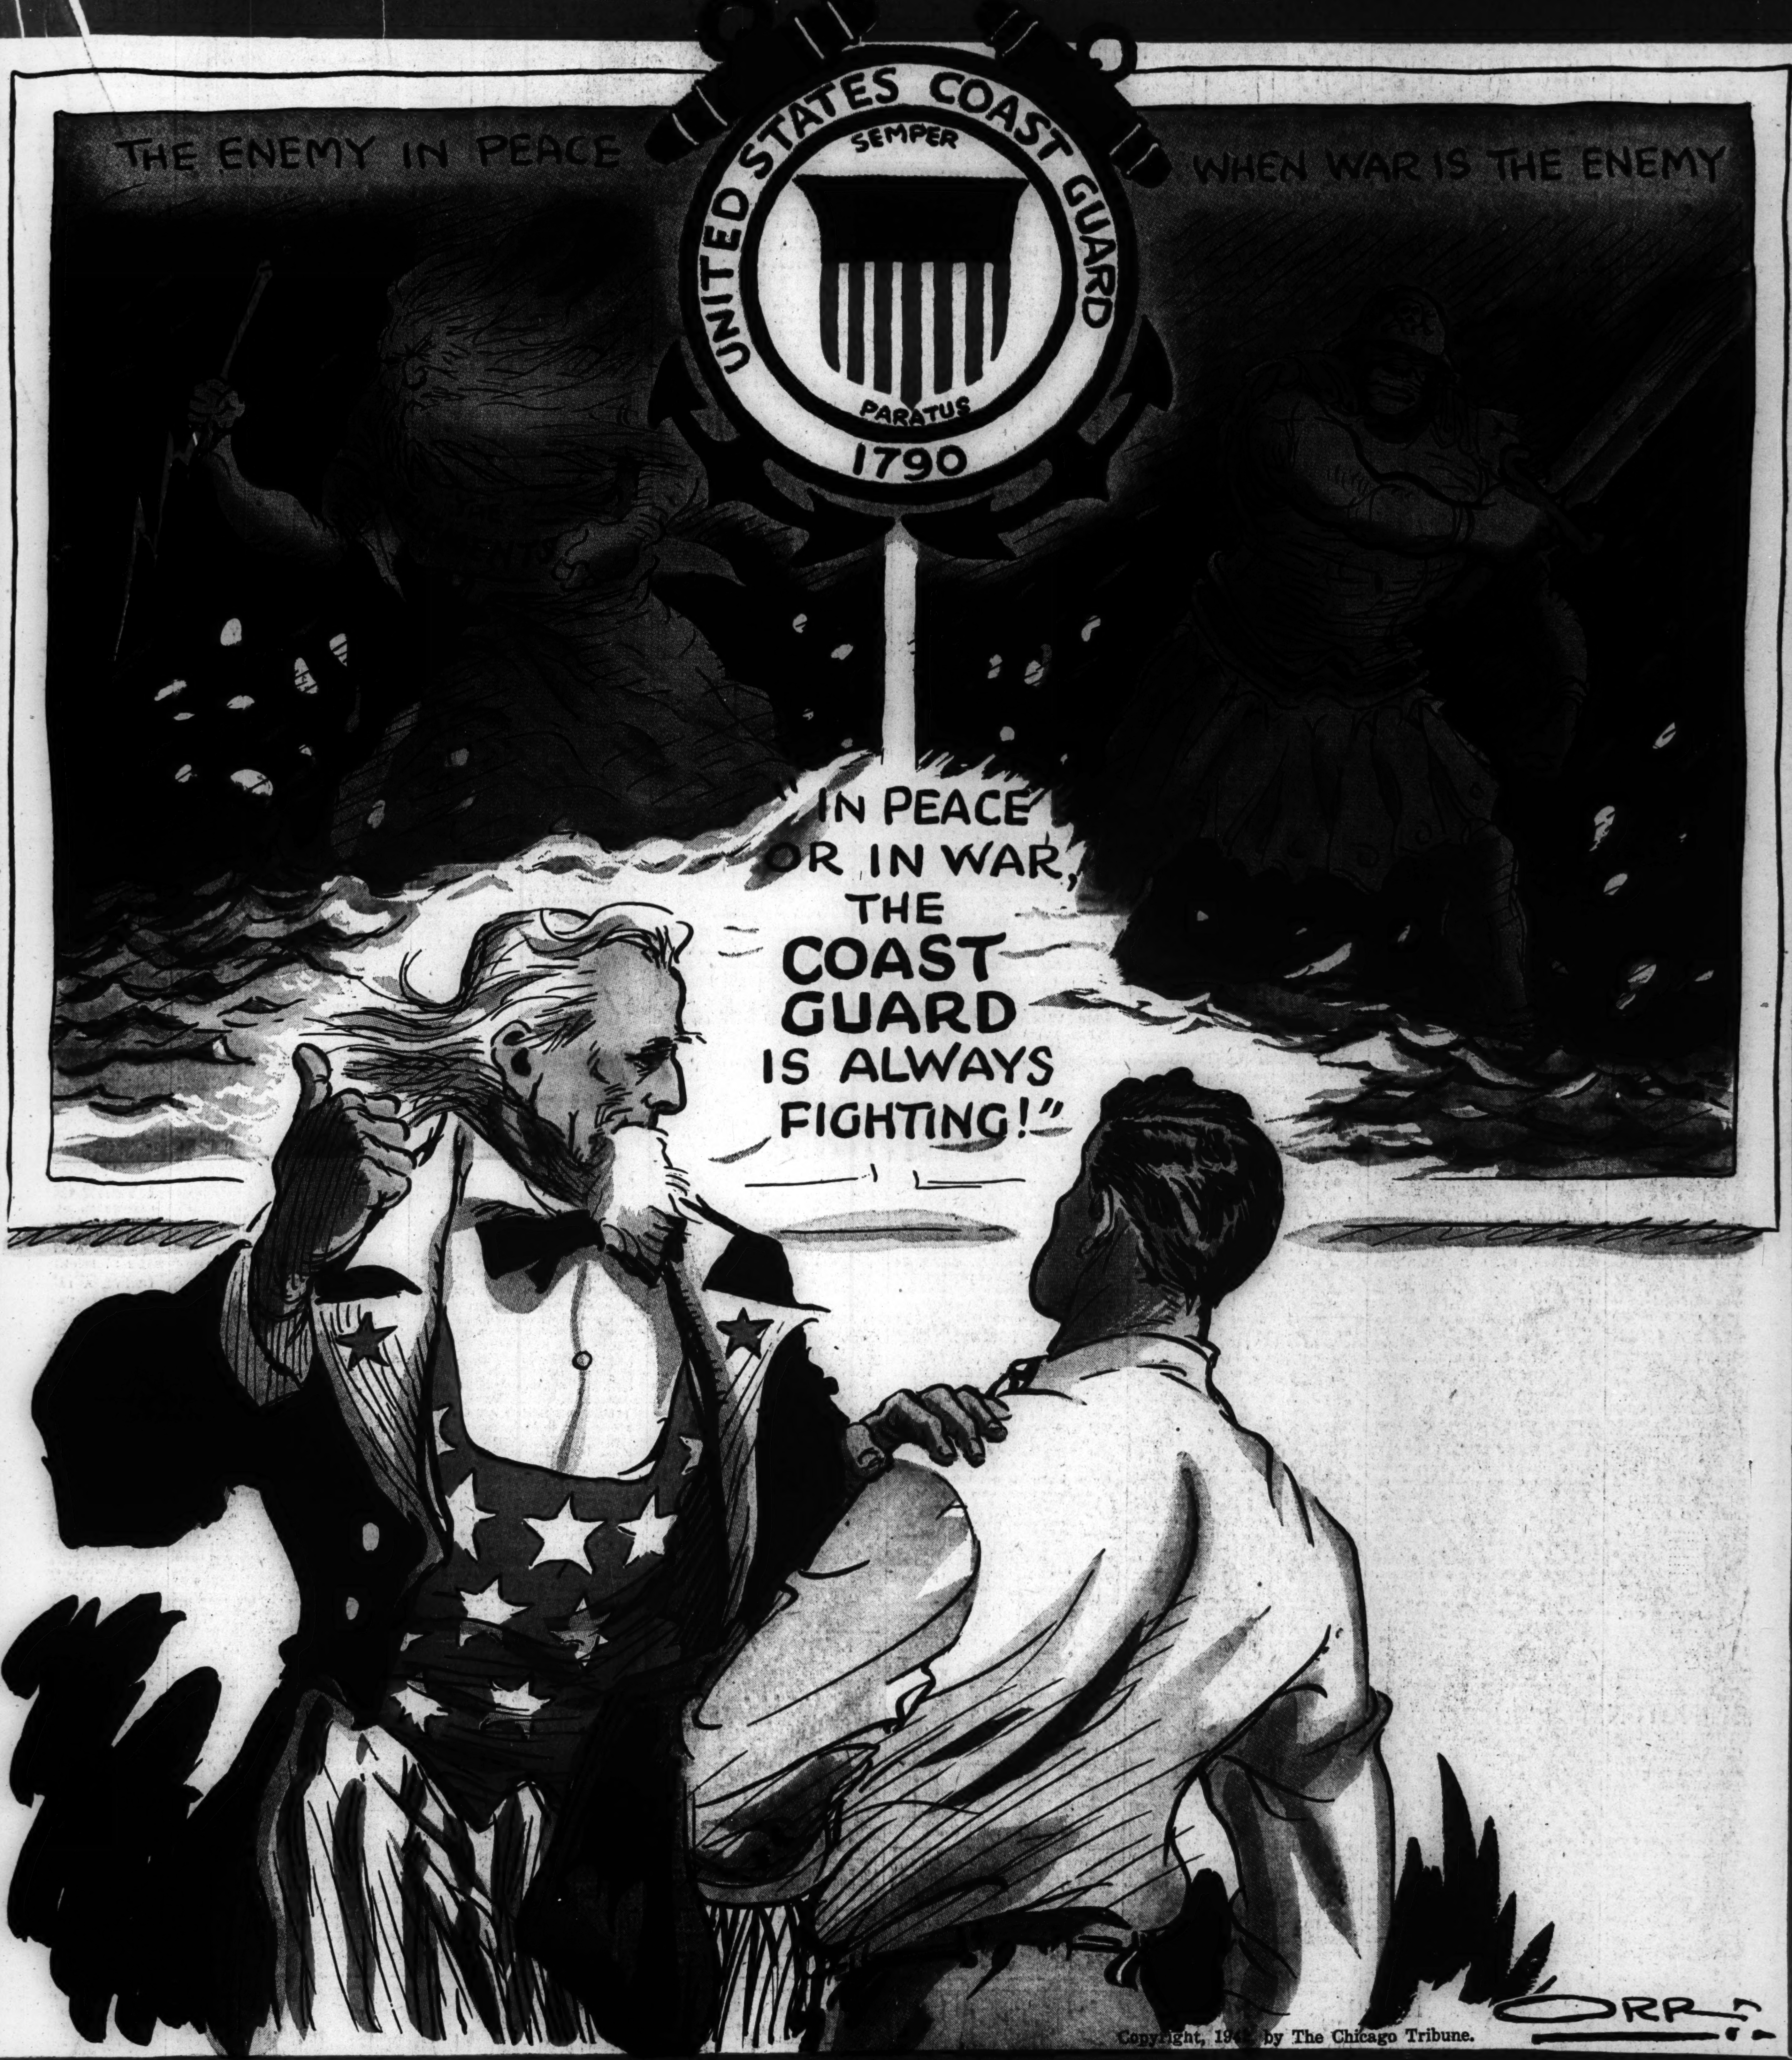
Men of Action



THE ENEMY IN PEACE
UNITED STATES COAST GUARD
SEMPER
PARATUS
1790
WHEN WAR IS THE ENEMY
"IN PEACE OR IN WAR, THE COAST GUARD IS ALWAYS FIGHTING!"
ORR

Copyright, 1942, by The Chicago Tribune.

THIS color enlargement of a Carey Orr cartoon is presented as a tribute to the United States coast guard, the fourth arm of Uncle Sam's fighting forces. Ten times as large today as in 1918, the coast guard is driving to double its size again before the year is ended. Members of the coast guard have been "men of action" 152 years. Established by the first congress, the coast guard joined with the navy for the first time in the quasi war with France in 1798-'99; captured 18 vessels of the total of 22 taken. Today, operating under the navy department, as it has in all other wars of the United States, the coast guard is living up to its high traditions. Its speedy patrol boats inshore and its 327-foot cutters on convoy duty are helping to keep the "bridge of ships" open to the fighting fronts of the world, while at various points thruout the nation its men are guarding ships and ports against sabotage. The coast guard needs men who are between 17 and 55 years of age and of good health. The recruiting office in Chicago is at room 852, United States courthouse.
